

Four Winns

FOUR WINNS CATALOG

1990 Boating Lifestyles

PRICELESS

TEAM FOUR WINNS

Team Four Winns is the title we use to identify all contributors to the Four Winns effort. It encompasses far more than the people at our facilities in Cadillac, Michigan; Athens, Texas; and Houston, Texas:

- The Four Winns Professional Marine Retailers...
- Our supportive partners at Outboard Marine Corporation...
- Our dedicated components, systems and service suppliers...
- The publishers and editors of the resourceful boating press.

The team concept helps us communicate better and respect our partnership roles...helps us grow in our pursuit of a common objective...boating excellence.

Building Boats As If Our Future Depended On It...

Four Winns has set a course for excellence that will result in boats second to none in terms of quality, efficiency, performance and lasting value. To keep that goal in focus we have adopted a simple and direct mission statement to constantly measure our actions against:

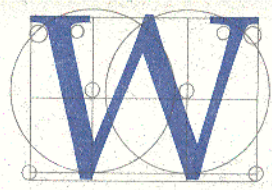

To produce and market quality marine products in a manner enabling Four Winns to earn the enduring respect and admiration of our customers, our dealers, our employees, our suppliers, our industry, and our competitors.

The Challenge of the 1990s...In the early eighties we moved from the ranks of regional builder to major independent. Later in the eighties we applied our skills as marine designers to bring fresh styling and innovative features to the boating public. Now we stand at the threshold of the nineties offering a complete array of products and services to complement the boating lifestyle:

- 36 contemporary powerboats from 15 to 31 feet.
- *Winning Edge*SM 3-Year Owner Protection...the most comprehensive warranty coverage in boating.
- A national network of Professional Marine Retailers.
- *Top of the Dock*[®]...America's Boating Lifestyle Store.[™]
- A leader in boat/motor/trailer packaging.
- A leader in the introduction of unique product concepts like the 180 and 200 Horizon convertibles, the 201 2+2 Limited Edition Signature Series Liberator, and the all new 220 Horizon with available bow canopy.

FOUR WINNS

elcome to the 1990 Four Winns Boating Lifestyles brochure. You can visit as many boat shows or stop at as many marine dealers as you can find, however, I don't think you will find another boat brochure like this one.

As you review the following pages, you will notice that we use them as much to portray the fun, excitement and lore of the boating lifestyle as we do to describe and picture all of the great offerings in the Four Winns lineup.

To other boat builders, the real estate of their catalog is too precious to share with anything other than product. To us, the joy of boating is the product, and we are eager to share with you all of the things Four Winns is doing to make boating more enjoyable, rewarding and hassle-free.

On page 15, for example, there's a short dissertation on kite flying...the popular beach craze many boaters are attracted to.

On pages 22 and 23, we review Top of the Dock™...America's Boating Lifestyle store™...exclusive Four Winns retail centers operated in conjunction with our dealers, offering brand name activewear, marine gifts and accessories, and Four Winns boats at shopping malls and marinas across the country.

On the back cover, there's important information about the Four Winns exclusive Winning Edge™ 3-Year Owner Protection

Plan...boating's strongest protection plan that's standard on every model we build. You're Four Winns Dealer, of course, has complete warranty information.

Inside, you'll also find tips on safe boating...fast-fix recipes for on-the-water meals...suggestions for maintaining your boat's appearance and value...even words of caution about boating and drinking.

All this plus voluminous product information and stunning photography on every model in the Four Winns line for 1990.

We hope you enjoy the 1990 Four Winns Boating Lifestyles Catalog...so much so that you'll keep it around the house for your boating and non-boating friends to peruse, or pass it along to others who share a love for boating and the close family harmony it fosters.

I also hope you will take just a few minutes to complete the survey questions included on the mail-in card below. Your views will help us shape the future of Four Winns boats, and accurately portray the exciting, satisfying and gratifying boating lifestyle.

Rick Fulmer
President/Four Winns

You can help. At Four Winns, we're dedicated to continually improving our boats, and helping you get ever more enjoyment from boating. Your input is important to us—whether or not you currently own a Four Winns boat.

Help us shape the future of boating... fill out this questionnaire (use this side for comments), and return it to:

W

e just keep marching to the beat of the same drummer... "Building Boats As If Our Future Depended On It" continues as the Four Winns credo for excellence in design, engineering and production. It's a message posted in our facilities in Texas and in Michigan to remind us that we are *Team Four Winns*. There are no superstars here... Team Four Winns is simply a gathering of highly motivated, deeply committed people, in every discipline, who understand that in order to build, promote and sell quality boats with the style, features and performance today's boaters expect, everyone's contribution is important...and required.

We use full scale modeling to help define interior content and space allocation of new generation boats before molds are built.

The patented molded seat and seat back are part of a modular system that allows us to create several seat designs using interchangeable compo-

nents. Varied cushion and trim application provides model differentiation.

Product innovations like this bow camper canopy, available on the new 220 Horizon, are the norm in the free-thinking atmosphere of our new design and engineering center.

Cleats are through-bolled and metal-backed.

We use "Oscar" to help us ergonomically design seats, berths and features to be usable to the 95th percentile of the adult population.

BUILDING BOATS AS IF OUR FUTURE DEPENDED ON IT

New Four Winns Design Center. There are a lot of smiling engineers and whistling technical people around Four Winns these days. They're still celebrating the move to a new 30,000 square foot design and engineering center at our main facilities in Cadillac, Michigan.

Not Just Boats...Families. We're in the fourth generation of an approach that other manufacturers are just discovering... "family boats". It started with our 200 Series in 1988... a Horizon runabout... a Sundowner cuddy... and a Liberator performance model.

Now comes the remarkable 220 Series, typified by the 220 Horizon shown below (also on page 18)... the 225 Sundowner (page 26) and 221 Liberator (page 40). It's our most brilliant execution yet of the strategy that lets us develop several boats from a single platform,

sharing hull and running surface, stringer system and transom assembly, and providing for a high level of interchangeability among modular interior components.

Practical Innovations. Yes, we build a solid line of fiberglass family boats, but we're also gaining a reputation as a leading marine innovator. 180 and 200 Horizon closed bow convertibles feature a hinged bow center panel that lifts to expose a huge protected storage area. We've created the exotic 201 Liberator 2+2 Signature Series with a new 454 OMC King Cobra® powerteam. And this year, the smart new 195 Freedom cuddy bristles with new thinking and special features unheard of in the value class.

Quality Audit Index. We've adopted the *quality audit index* to measure how good we are on the production end. Production boats are selected

daily and judged against a fixed standard of excellence. The audit team consists of Four Winns employees from all disciplines. Audit results are posted daily in the company cafeterias for all to see and consider.

Factory-Rigged Packages. To make boating more convenient and hassle free, we're instituting a *full systems check program*. This program will allow us to ship all stern drive and outboard powered boats "factory-rigged," significantly reducing rigging time on new models.

Each Four Winns boat is floated in a test pool as it comes off the line. Engine, outdrive and all onboard systems are run. Hatches, seams, windshields and canvas "storm tested" for leaks. Fuel and water lines pressure-checked. Electrical systems, gauges, instruments and stereo systems certified operational. Then each boat is cleaned, inspected, and shrink wrapped for shipment to a Four Winns dealer and an excited new customer.

Shrink-wrap shipping assures factory-rigged delivery of each Four Winns Boat to your dealer.

1. Performance tests at the Four Winns Test Center on Lake Cadillac.
2. Storm testing the 315 Vista. All Four Winns plants feature test tanks.
3. Final plugs are released after prototype evaluation.
4. New 220 Horizon... part of a whole new series of beamy (8' 4") family boats.

OMC single or dual engine controls provide smooth, positive shifting over the full speed range and shift arc. Defents

clearly mark forward, neutral and reverse gearing. Standard power trim and tilt is accessed by thumb switch built into the ergonomically designed throttle.

The newest beast in the OMC King Cobra stable is the 454 cubic inch V-8. Weighing in at a relatively lean 1155 pounds, while developing an awesome 370 horse-

power at the crankshaft, this is one big block mill that offers an attractive power to weight ratio. That means more power for the 201 2+2, 221, 251 and 261 Liberator models.

A new Spitfire™ electronic engine management system monitors vital engine functions continuously and tunes the engine as you go, for optimum fuel economy and power over a wide range of fuel octane ratings and operating conditions. S.L.O.W.™ overheat protection automatically reduces engine RPMs to safer operating levels to compensate for overheating, over-revving or low oil pressure.

An all new power delivery system is built to handle the extra torque of big block V-8s and

channel it into smooth efficient power at the prop. Features include machine-matched forged gears, automotive type U-joint, bronze alloy cone clutch and hardened alloy drive shaft, easy access shaft driven water pump, power steering, full range power trim and tilt and an abrasion resistant finish.

E

very Four Winns model includes a rugged and reliable propulsion system from Outboard Marine Corporation... the world leader in marine power for more than 60 years. OMC Cobra® and OMC King Cobra® stern drives, and Johnson® and Evinrude® outboards all have enviable reputations for long life, dependable service, and sterling performance. Because each OMC stern drive or outboard power unit is design matched to the Four Winns hull and running surface, operating efficiency is optimal, and power for skiing or cruising is just a throttle nudge away.

The world's best known outboards. Johnson® and Evinrude® are the two best known names in outboard power. They've stayed on top by leading the way in technology. With sophisticated features like loop-charging, VRO™ oil injection, "lost foam" powerhead casting and a 19-step corrosion protection system, they're outfront to stay.

Johnson® or Evinrude®... outboard power to take you to your limit in the 207 Quest.

The 207 Quest Center Console and Dual Console...beamy, full featured fishermen...the first of their kind tough enough to be called Four Winns. Chop flattening deep-vee design, self-bailing cockpit with washdown, aerated oval fishwell, 5' fish box, Lowrance flasher, rod storage...and 85 gallon fuel cell to get you there and home again. Like all Four Winns boats, Quest models include exclusive Winning Edge 3-Year Owner Protection...the best coverage in boating.

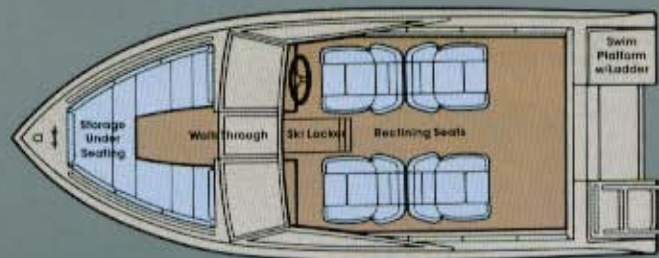

Specifications:	207 CC/DC

Passengers:	7
Maximum Capacity (lbs.):	N/A
Cockpit Depth (helm):	28"

Note: Boat weight based on design estimate. N/A = Not available at time of printing

150 FREEDOM

Standard Seating

1. Quick-planing 150's powered by up to 60-HP of Johnson® or Evinrude® oil-injected outboard.
2. Back-to-back seats fold to lay-down lounges.
3. Integrated swim platform with folding stainless, 3-step swim ladder.

The family boat is the great escape machine... where time, pressure and stress can be put on hold for a while... a week... a day... or just a few hours. A place where a family can relax... together. Fish... ski... dive... explore. Comb a beach for stones or driftwood. Share thoughts... share solitude... share a meal. Make plans... make friends... make sand castles. All of this and more is available and free for the boating family. Few activities promote unity and sharing in equal measure. Just turn the key... point the bow in the direction of fun and cast off. Best of all, it's all there for the family to come back to... weekend after weekend... year after year.

NEW CLASS IN THE VALUE CLASS

Getting into the sprightly Four Winns 150 Freedom is easy... it's our lowest base priced model. The equipment list is anything but base. AM/FM stereo cassette in a protective box... full instrumentation, convertible top... portable cooler... premium marine carpeting... in-floor ski storage... they're all standard.

This is one of the roomiest 15-foot deep-vee designs available. Slimline sidewall construction maximizes cockpit space for up to 5 passengers. It really shows in the roomy bow with padded full-width seats and snap-in full-depth seat backs.

Low price, yes... low value, uh-uh. Like all Four Winns boats, the 150 features

premium gel-coat that buffs back to near showroom lustre again and again. An interlocking floor/stringer system anchors a strong, light uni-body design. Cleats and rails are thru-bolted to metal backing plates. A standard color-matched Four Winns Sure Load™ trailer has a detachable tongue for easy garaging. And a proven oil-injected 50 or 60 HP Johnson® or Evinrude® outboard provides the muscle for skiing, cruising and all the other active pursuits available to those who choose the boating lifestyle.

Four Winns Extra Value Standard Features

- Deep cycle, high cranking marine battery w/retainer
- Easy maintenance gel coat bilge
- Emergency engine shut off
- Ergonomically designed helm for maximum convenience, comfort and safety
- Exclusive Winning Edge 3-Year Owner Protection Plan*
- Four Winns Sure Load™ Trailer, single axle, custom bunk, color-coordinated, detachable tongue
- Full width & depth plywood transom
- Hand lay-up woven roving fiberglass construction
- Interlocking floor/stringer system
- Maximum foam added for flotation, rigidity and sound deadening
- Molded fuel tank, in floor, accessible
- National Marine Manufacturers Association certification

- Premium gel coat w/superior buff back characteristics
- Shrink wrap shipping
- Slimline sidewall design for maximum cockpit space
- Smooth riding, fast planing deep vee hull
- Stainless, deep access 3-step swim ladder
- Cleats and rails, through bolted, metal backed
- Wood backing at all through-the-hull-and-deck fastening points

Additional Standard Features

- Exterior and Trim
- Cleats (4)
 - Gel coat, two tone White/Burgundy, White/Navay
 - Horn
 - Navigation lights
 - Swim platform, fiberglass integrated w/stainless ladder
 - Windshield, bent glass, tinted/tempered, with walk-through
 - Window, side glass

Functional and Convenience

- Color-coded wiring
- Fused switches
- Drain plug, brass

- Instrumentation: tachometer, speedometer, fuel, volt meter, trim indicator
- Molded fuel tank (12 gal.)
- Power trim, tilt & VRO™ (60 HP only)
- Steering wheel (padded)
- Stereo AM/FM cassette in weather-resistant box

Interior

- Canvas top
- Carpeting, premium grade marine
- Cooler, portable
- Passenger console w/locking glove box
- Seating: snap-in bow seats; back-to-back seats (fold to lounge)
- Ski locker with teak lid
- Storage: bow area, sidewalls, under floor

Major Options

- Custom fit canvas mooring cover
- Full canvas

Much of the fun of boating outings is the anticipation. Planning together makes everyone feel important. Good planning helps all enjoy. Here's a checklist of boat trip musts. Put everyone to work:

- Charts of waterway
- Dry clothing, jackets, towels, blankets
- Food, beverages, snacks
- First aid kit, sun screen
- Games, toys, reading material, camera

- Life vests, signal flags, flares, fire extinguisher
- Plastic trash bag to carry away refuse
- Tell neighbors where you've gone, when you'll return

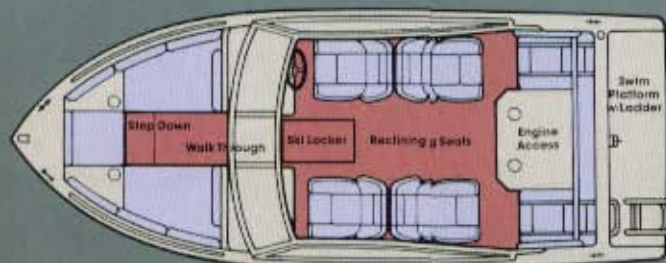

1. The 150 command center.
2. Four Winns Sure Load™ custom-bunk, color-coordinated trailer with removable tongue minimizes storage requirements.
3. A portable cooler stows neatly beneath passenger console.
4. Winning Edge™ 3-Year Owner Protection Plan. Boating's strongest protection.

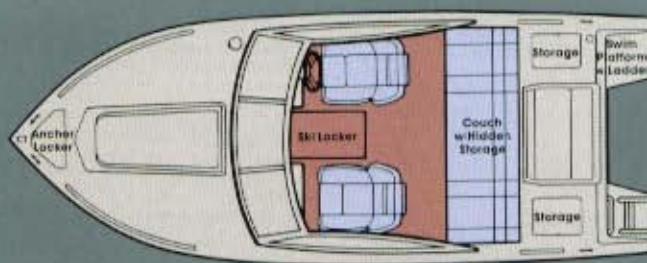

170 FREEDOM

Open Bow/Stern Drive

Closed Bow/Outboard

1. Closed bow model with Sure Load™ color-matched trailer.
2. Bow access is simple, thanks to molded step. Storage beneath hinged bow seats.
3. Complete instrumentation with padded steering wheel.

A

cool spray lightly stings the face as the board carves the glassy azure surface outside the wake. Momentum slows... Arms swing above the head to delay the coming line slack... A deep breath... Hands regrip the tow bar... A shift in weight away from the hard banking boats brings the line taut, slingshotting the boarder across the wake, up and over in a quick, tight, practiced flip. For the accomplished freestyler who routinely nails spectacular aerials...or the shaky neophyte whose first brief tour around the lake climaxes in an awkward cartwheel...few adventures can match the thrill of being tethered by 50 feet of braided nylon to a sleek, spirited sportboat.

NEW CLASS IN THE VALUE CLASS

To some boaters, "entry level" means an under-powered, under-equipped price leader. The Four Winns Freedom series obviously breaks the mold. Price is where you'd expect entry-level boats to be... within reach of nearly every family. After that, similarities are nil.

The Four Winns 170 Freedom, for example, compares favorably with the "pricy" runabouts. It's low silhouette, graceful sheer line, smart white/navy or white/burgundy graphics, and curved glass windshield with side glass give it commanding presence in the water.

A more powerful 3.0 liter OMC Cobra® stern drive, or Johnson® or Evinrude® outboards to 120 HP mean that a lot of other boats will get a long unobstructed view of the 170's stylish integrated swim platform.

*Ask your Four Winns Dealer for full warranty details.

- Responsible boaters follow well-defined safe ski/kneeboard guidelines:
- Ski/board familiar: open water, away from swimmers, boaters
 - Skiers/boarders should be swimmers.
 - Skiers/boarders must wear approved flotation.
 - Two in the boat: operator and watcher.
 - Immediately assist downed skier/boarder.
 - Approach downed skier/boarder from starboard, stop engine(s).
 - Respect fishermen, swimmers, other boaters.

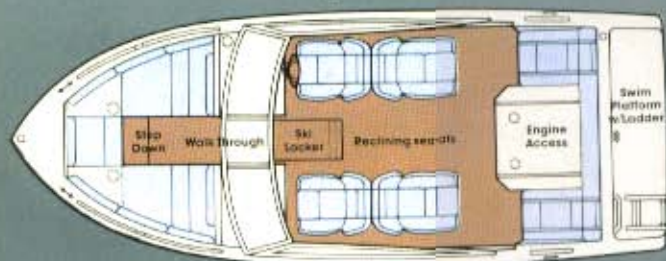

1. New, more powerful 3.0L OMC Cobra® standard on stern drive models.
2. Integrated, oversized beverage holder, stereo speaker.
3. Molded transom storage area on outboard models.

3.

Building Blinds

Ducks and geese have exceptional vision, so good camouflage is essential to water fowling success.

To build a good, quick, temporary blind almost anywhere, use local materials – grasses, rocks and foliage. Other things to have on hand include:

- Hand ax.
- Infantry shovel.
- Baling wire.
- Staples.
- Chicken wire.
- 3-foot garden fencing.
- Weathered lumber.

In order to hit a bird on a wing, one must have all of their will in focus. In the case of water fowl, the “focus” starts long before the first shivery pre-dawn morning in the blind... warming the hands on a steaming coffee mug. It starts at season close with firm resolve to make the next blind less conspicuous than stealth aircraft. Spare time in summer is spent in a boat, probing marshy outcroppings on the lake or stream... choosing an arena... More hours spent studying migratory charts... training dogs... repairing decoys... testing calls... So much to do... so little time... the boat an integral part of the support system.

NEW CLASS IN THE VALUE CLASS

For the budget-conscious family looking for a bit more space in a runabout, the Four Winns 190 Freedom rewards you with one of the roomiest cockpits in the value class. Like its 170 running mate, slimline sidewall construction provides vital extra inches between the 190's coaming pads... a full half foot more than the popular Four Winns Freedom design this series replaces. Yet the more liberal use of fiberglass in the sidewalls and open bow area has resulted in a stronger, lighter hull with outstanding performance and handling characteristics.

The prime mover of the 190 is the proven 4.3 liter OMC Cobra® stern drive, a lively power team with hustle to challenge bigger block runabouts... and muscle to pull multiple skiers. In outboard configuration, the 190 is design-matched to a 120-HP Johnson® or Evinrude®.

Other unique design features that separate the 190 and 170 Four Winns Freedoms from the pack: A thoughtful molded bow step for ease of entry and exit... dedicated instrumentation with glass covered gauges... not plexiglass... bountiful storage... glass side windows... fittings and hardware through bolted to metal backing plates... even a stainless, deep-access 3-step swim ladder.

Model Availability: 190 Stern Drive; 190 Outboard.

Four Winns Extra Value Standard Features

- Bow access step
- Deep cycle, high cranking marine battery w/retainer
- Easy maintenance gel coat bilge
- Emergency engine shut off
- Engine compartment sound insulation (I/O)
- Ergonomically designed helm for maximum convenience, comfort and safety
- Exclusive Winning Edge 3-Year Owner Protection Plan*
- Four Winns Sure Load™ Trailer, single axle, custom bunk, color-coordinated, detachable tongue
- Full width & depth plywood transom
- Hand lay-up woven roving fiberglass construction
- Interlocking floor/stringer system
- Maximum foam added for flotation, rigidity and sound deadening
- Molded fuel tank, in floor, accessible
- National Marine Manufacturers Association certification
- Premium gel coat w/superior buff back characteristics
- Shrink wrap shipping
- Slimline sidewall

design for maximum cockpit space

- Smooth riding, fast planing deep vee hull
 - Stainless, deep access 3-step swim ladder
 - Cleats, rails, ski eye...through bolted, metal backed
 - Wood backing at all through-the-hull-and-deck fastening points
- Additional Standard Features**
- Exterior and Trim**
- Cleats (4)
 - Gel coat, two tone White/Burgundy, White/Navvy
 - Horn
 - Navigation lights
 - Swim platform, fiberglass integrated w/stainless ladder
 - Windshield, bent glass, tinted/tempered, with walk-through
 - Windows, side glass

Functional and Convenience

- Bilge blower (I/O)
- Color-coded wiring
- Drain plug, brass
- Fused switches
- Instrumentation: (I/O) fuel; oil pressure; trim indicator; water temp; speedometer; tachometer; voltmeter; (OB): tachometer; speedometer; fuel; voltmeter; trim indicator

- Molded fuel tank (24 gal.)
- Power steering (I/O)
- Power trim, tilt & VRO™ (OB)
- Power trim & tilt (I/O)
- Steering wheel (padded)
- Stereo AM/FM cassette in weather-resistant box

Interior

- Canvas top
- Carpeting, premium grade marine
- Cooler, portable
- Beverage holders, oversized (cockpit)
- Passenger console w/locking glove box
- Seating, snap-in bow seats; back-to-back seats; fold to lounge; adjustable drivers seat; jump seats remove or make sundeck (I/O)
- Ski locker with teak lid
- Storage - bow area; sidewall; concealed top (I/O); floor (ski)

Major Options

- Custom fit canvas mooring cover
- Full canvas

1. Concealed storage compartment protects canvas top.
2. Stern drive power by OMC Cobra®.
3. Floor storage compartment for skis, other gear.
4. Full canvas is optional.
5. Outboard model with up to 120 HP Johnson® or Evinrude® power. Stern couch is standard on outboards.

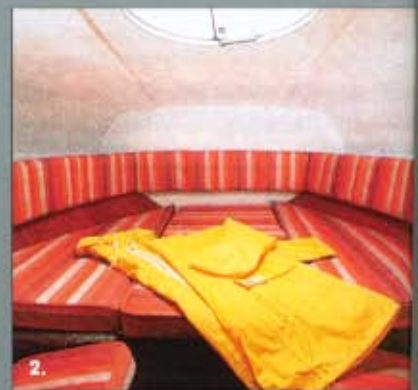

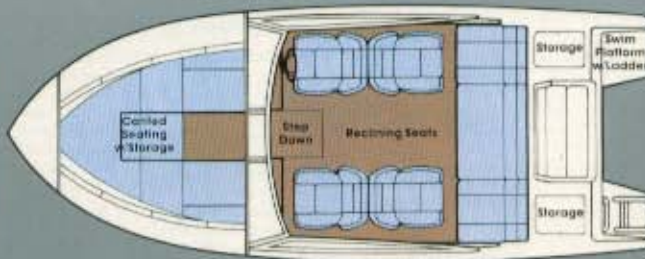

195 FREEDOM

Standard Seating/Stern Drive

Cabin Interior/Outboard

- 1. 4.3L OMC Cobra[®] stern drive power.
- 2. Roomy double berth, or weather protected seating for three.
- 3. Optional walk-through windshield with concealed ladder makes deck access easy.

F

or some, a boat with cuddy cabin is the quintessential vehicle supporting a lifestyle unconcerned with calendars or clocks... An entrée to private worlds inaccessible to the landbound... A time machine to traverse the watery theme park of natural history...

A space vehicle on a mission to uncharted islands... A covered wagon providing comfort and shelter from the sometimes hostile environment of the marine frontier. To many rugged cuddy enthusiasts boating is an ever challenging adventure. A summer squall finds them anchored safely in a snug harbor... spirits undampened... waiting patiently to pursue their chosen odyssey.

NEW CLASS IN THE VALUE CLASS

There's a new contender for best value of the year... Four Winns 195 Freedom.

Gone is the pregnant guppy appearance of most small cuddys... the 195 offers a clean, stylish sweep from integrated swim platform to graceful sloping deck with distinctive round hatch and handy anchor locker.

Gone is the bare bones cockpit... the 195 provides smartly tailored seats and sidewalls covered in stain and fade resistant tri-tone vinyl, premium marine carpeting, and movable jump seats that make a sundeck with the padded, sound-insulated engine cover. A passenger console with large locking glovebox complements the helm and frames the atrium style plexiglass cabin entry.

Gone is lacklustre performance... thanks to a spirited 4.3L stern drive, or 120-HP outboard.

- Walk through windshield w/ladder
- Portable head (stores under cockpit floor)

Roughing it takes on new meaning with the range of high tech gear and exotic materials available to make on-board living easy:

- Watches that read the temperature, monitor heartbeat, and tell time at 20 fathoms.
- Lightweight Gore-Tex® foul weather gear that "breathes", repels moisture.
- Binoculars with sealed mechanism, non-fogging lenses.
- Underwater cameras
- Photovoltaic solar arrays to heat water, power small appliances.

- Easy storing, high-protein, high-energy dehydrated snacks.

1. Stereo AM/FM radio/cassette is weather protected.
2. Concealed top storage stays secure while underway.
3. Large, sidewall storage compartments.
4. Full canvas with side and aft curtains (shown) optional.

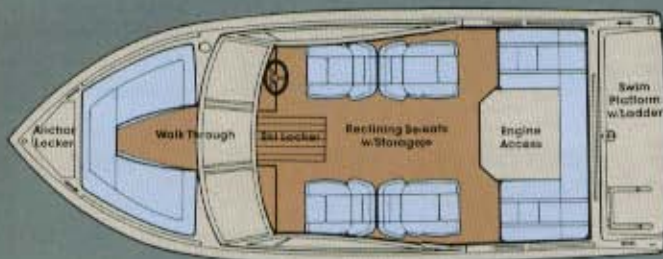

*Ask your Four Winns Dealer for full warranty details.

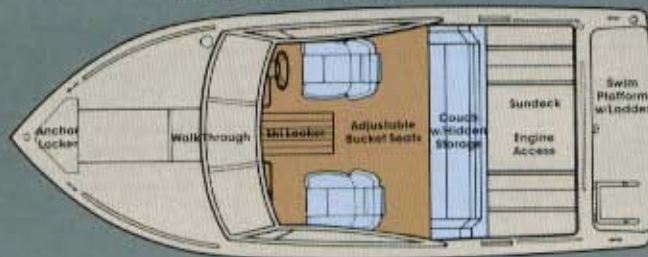

180 HORIZON

Standard Seating

Brougham Seating (Convertible)

1. 180 power options include Johnson® or Evinrude® outboards to 150 HP or 4.3L to 5.0L-HO stern drives.
2. Convertible models are available with optional privacy curtain, portable head, and side storage.
3. 180 instruments monitor engine performance.

Are you a flyer?" ask cheerful young salespersons of curious visitors to kite shops that are taking off in resort communities across the land... Kite flying, America's hottest new beach craze, celebrates its 3,000th anniversary this year... give or take a century. The activity... perhaps inspired by the runaway sails of a fishing vessel... originated in China, but was developed to an artform by the Japanese. It's an ideal beach sport... Bright, decorative "stunters" dazzle onlookers with sophisticated loops, dives and hedge hopping at speeds to 60 mph... A unique and fascinating activity for families dedicated to the exciting boating lifestyle.

GREAT SHAPE IN SPORTBOATING

The sporty Four Winns Horizon Series, represented here by the popular 180, uses the philosophy of "more" as a design principal... more convenience, comfort, room... more standards and options... more performance choices.

The standard equipment roster is impressive (competitive boats read, "intimidating")... weather-protected AM/FM stereo cassette with weatherband, AM antenna with noise suppressor... power steering, power trim & tilt, automatic bilge pump, easy-access engine cover, vented side windows, teak covered ski storage, bow anchor locker, large cooler and glove box in the passenger console... even a color-matched trailer with detachable tongue.

The versatile 180 Horizon can be ordered with sporty Brougham seating... a smart SLX option package that includes, among other

features, tri-tone gel coat, color-matched canvas, and depth finder. The Convertible model - a Horizon exclusive - features a closed bow with hinged center panel for access to tremendous bow storage.

Model Availability: 180 I/O; 180 I/O Closed Bow; 180 Outboard; 180 Outboard Closed Bow.

Four Winns Extra Value Standard Features

Popular, inexpensive beach kites that can be built/ flown with little expertise:
 Flat surface kites... the oldest and simplest design often rivals others for sheer spectacle.
 Bowed kites... including the classic diamond and many stunt models.

Box kites... very stable flyers with high lift potential.
 Canopy kites... including sleds and parachutes.
 Soaring Delta kites... powerful, fast, aerobatic designs.
 Want to fly?

1. Rear jump seats form a sun lounge.
2. Passenger console with integrated ice chest and lockable glove box.
3. Bow anchor storage.
4. Four Winns Sure Load™ color-matched trailer.

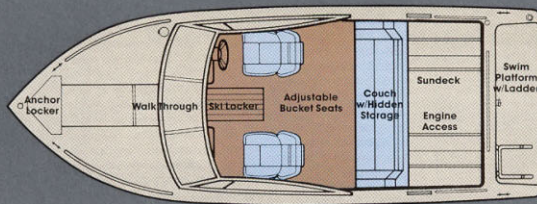

200 HORIZON

Standard Seating

Brougham Seating (Convertible)

1. 200 Horizon convertible. Stern drive power by OMC Cobra® up to 5.7L V-8 or 200 HP outboard.
2. Optional cockpit galley offers sink, stove, ice box, storage, flip-up table.
3. Flip-up engine cover for easy access.

W

aterskiers and powerboats first tied the knot over 60 years ago, when a lad in Minnesota strapped on a pair of home-builts and shouted "now" to his brother, at the other end of the rope, in an Evinrude powered lapstrake.

Since then, the sport has evolved to become the second most popular water based activity in America. Only fishing has more devotees. Competition skiers perform behind dedicated ski boats designed to produce a specific wake and table. Recreational skiers find all the challenge they want behind more versatile...and usually less costly...family runabouts with stern drive or outboard power to fit the application.

Ski equipment buyer's guide (suggested retail price range):
 Children's wooden combo trainers (2 skis): \$50-\$100
 Adult combos: \$150-\$300
 Slalom (1 ski):
 Low end: \$130-\$300
 High End: \$350-\$600
 Ski Vest: \$35-\$60
 Wet Suit: \$100-\$180
 Ski Gloves: \$15-\$25
 Tow Line/Handles: \$30-\$50
 *Source: Waterski Magazine
 Ski smart. Ski safe.
 Four Winns would like to remind

you to always use quality ski equipment in good repair, and to always follow established safe skiing guidelines (see pages 8 & 9).

GREAT SHAPE IN SPORTBOATING

200 Horizon open bow and Convertible models share an impressive features roster with the 180 model. Keep that in mind as we elaborate on product advantages shared by Horizons and many other Four Winns boats...

Like premium gel-coat with superior buff back characteristics...

a bilge area serviced by an automatic pump to keep it dry...and finished in gel-coat so it's easier to keep clean and maintain...

a fuel tank and filler system accessible beneath a carpeted floor panel...

a hinged, sound insulated engine compartment to allow quick checks of fluid levels, belts and filters...

an interlocking floor and stringer system fiberglass encapsulated to provide a

strong, light uni-body foundation...

an ergonomically designed helm that positions controls and instruments within easy reach and glance of all helmspersons.

The beauty and value of Horizon and Four Winns runs deep!

Model Availability: 200 I/O; 200 I/O Closed Bow; 200 Outboard.

220 HORIZON

Standard Seating

Brougham Seating

1. Power options up to 460 cu. in. stern drive. Optional Brougham seating features rear sun lounge and couch.
2. Optional bow canopy.
3. Reliable instruments let you command optimum performance.

Over the last decade, a new industry has evolved adding color and excitement to the boating lifestyle ... Sailboards, with one hundred or so square feet of sail... and a foam core board, wrapped in a thin, tough, light-weight composite shell, ply recreational waters everywhere. Cost is comparatively inexpensive ... less than a thousand dollars completely rigged. A skilled enthusiast with optimum wind and water conditions can sustain speeds of better than 20 knots per hour. Powerboaters easily spot the colorful sails and steer clear. Sailboarders keep their eye on the boating traffic through large "windows" sewn into the sails.

GREAT SHAPE IN SPORTBOATING

This is the new Four Winns 220 Horizon... the best thing to happen to sportboats since the 180 and 200 Horizon. The 220 is a big, contemporary styled, fully equipped bowrider engineered for lakes big and small... for boaters with a lot of family or a lot of friends... for OMC Cobra® and King Cobra® stern drive V-8 power up to a husky 460 cubic inches.

The 220 is a spacious boat, with slimline sidewall construction that adds inches to the usable cockpit width.

It's a deep boat, designed to run dry in chop that could keep others in the marina.

It's an accommodating boat with seating for up to 10... and plenty of storage beneath the bow seats, in the sidewalls, in the ski locker under the floor, and in the convertible top compartment at the transom.

Add to the list of standards covered on the 180 Horizon (pages 14 & 15) a digital depth sounder with light and audible alarm.

Brougham seating and an SLX package are two of many popular options. New availabilities this year are a bow camper canopy and a cockpit galley to extend the versatility, and add to the enjoyment of the boating lifestyle.

Four Winns Extra Value Standard Features

- AM/FM antenna w/noise suppressor

- Bow canopy
- Portable head
- Brougham seating
- Cockpit galley
- Depth sounder
- Fiberglass floor liner
- Full canvas
- Halon automatic fire extinguishing system
- Swim platform, teak insert
- Stereo upgrade
- SLX package

Windsurfing is a fun and relatively inexpensive water sport. Basic equipment consists of a sailboard, sail, boom and

lines ranging from \$500-\$1000 for entry level packages. Before you buy, take a lesson from a certified instructor. Later, you may also want to invest in the following gear:

- Wetsuit for cold water surfing.
- Harness and harness lines.
- Roof mounts for your car.
- Flotation vest.
- Water socks.
- Gloves.

1. Optional walk-through door below windshield.

2. **Winning Edge Owner Protection Plan**, the Four Winns advantage.

3. Teak-covered, in-floor ski locker secures gear.

4. Extra-large stainless cleats are thru-bolted and metal backed.

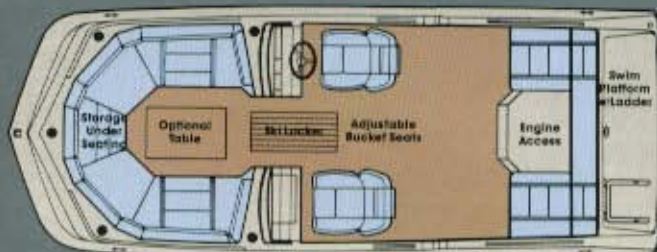

5. Hinged jump seats stow out of the way.

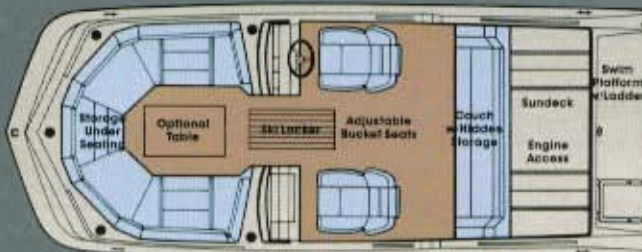

180 CANDIA

Standard Seating

Brougham Seating

1. 10-passenger capacity and power up to a 5.0L V-8 make 180 Candia a versatile performer.
2. Optional table adds function to the bow.
3. Candia's command center puts performance at your fingertips.

F

amilies who boat together stay together...and usually share a love and appreciation for other water-based adventures. Many find snorkeling an ideal family sport. It's inexpensive...less than \$100 per person fully equipped with flotation vest, fins, snorkel and mask. It's exciting and educational... many resorts maintain designated dive sites with elaborate underwater displays. It's fun for all... there are no superstars of snorkeling. Young and old... big and small share equal opportunity, equal enjoyment. Perhaps most importantly it's part of the boating lifestyle... helping to keep the families strong and vital... and together longer.

Snorkeling is a fun and exciting alternative for swimmers of all ages. Like all activities in and around the water,

- common sense guidelines help keep every excursion safe and enjoyable.
- Never snorkel alone, regardless of your level of expertise.
- Anchor boat securely; use a flogged buoy to alert other boaters.
- Research unfamiliar waters before snorkeling. Ask a local dive shop for a briefing.
- Keep tabs on how long you've been in the water.
- Don't overextend yourself. Set time limits for exploration.
- Never start engine until all swimmers are aboard.

GREAT SHAPE IN DECK BOATING

In the evolution of the deck boat, a brilliant new species has appeared... the versatile Four Winns Candia... the consummate party boat.

A step pad hull creates a broad stable platform that's basic to the 180 and 200 Candia's responsive performance and ski boat prowess. The cockpit accommodates an amazing number of guests. The standard equipment roster includes thoughtful features to make boating fun and enjoyable... like an AM/FM stereo cassette with weatherband and 4 coaxial speakers... insulated cooler and glove box built into the passenger console... stainless ski eye and in-floor ski locker...

integrated swim platform with stainless, deep-access 3-step ladder... tri-tone vinyl upholstery and marine grade carpeting... oversize

beverage holders. And to carry all boating safety gear and fun paraphernalia, there's tremendous storage in two-tier sidewall compartments and beneath the U-shaped bow seats.

Candias arrive water-ready, cradled on a custom color-matched Four Winns Sure Load™ trailer, and power matched to an OMC Cobra® stern drive. Johnson® or Evinrude® outboard power is also available on 180 models.

Model Availability: 180 I/O; 180 Outboard.

Four Winns Extra Value Standard Features

- AM/FM antenna w/noise suppressor
- Automatic bilge pump
- Deep cycle, high cranking marine battery w/retainer
- Easy maintenance gel coat bilge

200 CANDIA

Standard Seating

Brougham Seating

1. 200's responsive performance powered by 5.0L-HO-V-8 to 5.8L V-8 3 OMC Cobra® stern drives.
2. Bimini top color-matched to hull with optional SLX package.
3. Jump seats convert to roomy sun lounge, and are also removable.

F

our Winns has a place for those who appreciate the comfortable, casual, elegant look that typifies the boating lifestyle. *Top of the Dock*® is America's Boating Lifestyle Store™ ... a place where brand name marine and activewear fashions, popular

boating gifts and accessories, and stunning fiberglass powerboats are available under one roof. It's our plan to bring the best of boating to the most people. Working with Four Winns Dealers, we're opening *Top of the Dock* Mall Stores™, and *Top of the Dock* Shoppes™ in major population centers with well-developed water recreation facilities. Look for one opening soon near your water wonderland.

GREAT SHAPE IN DECK BOATING

Deck boating attracts an enthusiastic band of loyalists. For many, the Four Winns 200 and 180 Candias are the "space vehicles" of choice. As noted on the previous page, there is a lot to like that's standard. Ditto the options.

The bow area, with comfortable wrap-around seating, is a complete social center. A dinette table and fill-in cushions that convert the area to a sun pad greatly extend Candia's versatility. They're part of an SLX option package that also includes tri-tone gel coat, a color-matched version of the standard bimini top, premium sound system upgrade, depth sounder, chart light, and extra table mount in the stern.

Available Brougham seating expands capacity by adding a wrap-around stern couch. A large padded sundeck is also included.

The cockpit galley is the ultimate option for the accommodating Candias. It replaces the portside bucket and includes sink, water storage (6 gal.), holding tank, two-burner stove, icebox or refrigerator, flip-up table, storage cabinet and attached seat.

Everything for your boating lifestyle is now available through *Top of the Dock* Mall Stores, Dealer Shoppes, and catalog sales. Call 1-800-245-DOCK for a catalog, or the store location nearest you. *Top of the Dock* Mall Stores: Mayfair Mall, Milwaukee; Woodfield Mall, Chicago; Twelve Oaks Mall, Detroit; Eastbrook Mall, Grand Rapids. Your Four Winns dealer also has a complete selection of *Wingear*™ casualwear to keep your entire family looking nautically good. Call 616-775-1351 for the name and location of your nearest dealer.

1. Standard AM/FM stereo/cassette.
2. Easy-access engine compartment allows bilge inspection and routine engine maintenance.
3. Convenient ski storage compartment.
4. Standard, color-coordinated, custom-bunked Four Winns Sure Load™ trailer with detachable tongue.

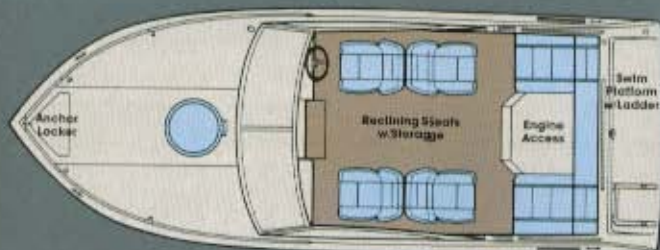

*Ask your Four Winns Dealer for full warranty details.

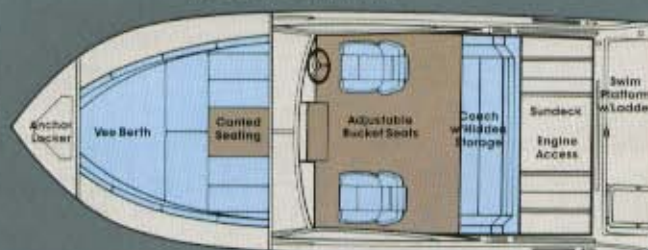

205 SUNDOWNER

Standard Seating

Brougham/Cabin Interior

1. Color-coordinated Four Winns Sure Load trailer with removable tongue is standard. Out-board power to 175 HP.
2. Upholstered vee-berth sleeps two.
3. 205 Sundowner's complete instrumentation includes depth sounder and trim indicator.

Investment in the boating lifestyle can result in a solid return for your money. Statistics show that, on the average, well maintained boat/motor/trailer packages hold their value better than automobiles or RVs. They're also safer, less costly to operate, and they provide more pleasure and enjoyment. Savvy boaters know how to protect their investment: Clean boat and trailer frequently in season... Use a good paste wax on fiberglass to restore the finish to near showroom lustre, and protect it from the sun with a mooring cover... Keep the power system in top tune and follow recommended maintenance... In salt water, engine flushout and routine bottom maintenance are essential.

AFFORDABLE FAMILY CRUISING

Here's the next logical step for run-about owners... the Four Winns 205 Sundowner with sleek contemporary styling, the power of OMC, and a cozy, comfortable cuddy cabin with vee-berth space for six-footers.

The 205, like all Sundowners, is a high content boat. A weather-protected premium sound system, depth sounder, bow anchor locker, ski tow, passenger console with ice chest and glovebox, canvas convertible top, distinctive round deck hatch, and a color-matched Four Winns Sure Load™ trailer are standard.

Great boats offer great options. Sundowner complies. A cockpit galley offers live-aboard convenience.

Brougham seating includes comfortable buckets, a generous stern couch and large sundeck/engine hatch. An SLX package combines several popular extras.

Of course, everything is covered by the exclusive *Winning Edge 3-Year Owner Protection Plan**...Boating's strongest coverage.

Model Availability: 205 I/O; 205 Outboard.

Four Winns Extra Value Standard Features

Keeping your boat looking good is a sure way to protect its value. Here's a list of essentials to help preserve that new boat look... year after year:

- Concentrated degreasing shampoo for vinyl, fiberglass, painted surfaces.
- Plastic polish.
- Good quality paste wax.
- Rubbing compound with mild abrasive.
- Gel coat patching materials.
- Soft bristle brushes, sponges, chamois cloths.

1. Bow anchor storage with molded anchor well.

2. Storage for convertible canvas top.

3. Optional cockpit galley with stove, sink, ice box, storage, flip-up table.

4. Split windshield option includes access ladder.

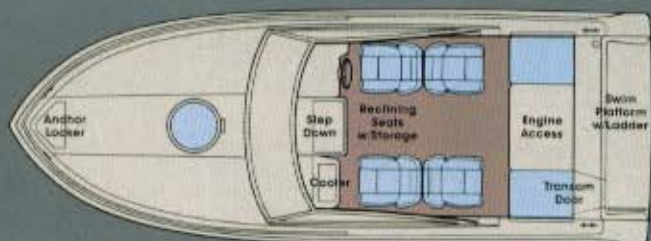

5. Stern drive power up to a 5.7L V-8.

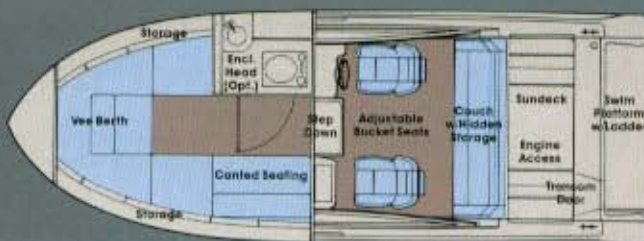

225 SUNDOWNER

Standard Seating

Brougham/Cabin Interior

1. Sundowner's graceful lines suggest her spirited performance.
2. Spacious vee-berth sleeps two. Cantled seats provide added comfort.
3. Ergonomically-designed helm station with full back-lit instrumentation, lighted rocker switches, and stereo AM/FM cassette w/weatherband.

The classic beauty of boating's yesteryear is available for all to appreciate at one of the many summer classic and antique boat shows staged annually in waterfront communities. Slip after slip reveals a breath-catching restoration of gleaming mahogany and polished brass...simple, but elegant cockpits...and spotless engine compartments stuffed with original marine propulsion units restored to print specs. Owners of classic boats at these shows are a great source of lore and history of the boating lifestyle. Many dress in marine fashions of their boat's era, and wax eloquently about life on the water in days gone by.

AFFORDABLE FAMILY CRUISING

In the all new 225 Sundowner with 8'4" beam, we've incorporated all of the best ideas we've pioneered in family boating in the past decade...a deep cockpit to help it run high and dry on coastal waterways or inland lakes.

A pleasing sheer line and smart integrated swim platform are styling accents.

We equipped it to be useful, comfortable and accommodating for an active family. Weather-protected AM/FM stereo cassette with weatherband, noise suppressing antenna, bow anchor locker, transom entry door, power steering, power trim & tilt, and a color-matched Four Winns Sure Load™ trailer are but a few of the impressive standard features.

We powered it with reliable OMC Cobra® V-8 stern drive performance packages design-matched to the 225's running surface.

We made it easy to care for with premium gel coat formulated to buff back to near new

lustre again and again...with stainless hardware, through bolted and metal backed...with a gel-coated bilge to dress up the engine compartment and make it easier to clean.

In short, we made the 225 Sundowner a lot like you would have if you built boats.

Antique and classic boat shows are popular throughout the country. Here's a partial list of major show locations. Contact the local Chamber of Commerce office for dates and details.

• Wine Country Antique Boat Show and Race,

Hammondsport, New York

• Lake Hopatcong Antique/Classic, Lake Hopatcong, New Jersey

• Port Carling Antique Boat Show, Muskoka, Ontario

• Real Runabout Invitational, Fountain Lake, Minnesota

• Lake Winnepesaukee Antique Boat Show, Wells Beach, New Hampshire

• Antique and Classic Boat Show, Clayton, New York

• Iowa Great Lakes ACBS, Sioux City, Iowa

• Cypress Gardens at Winter Haven, Florida

Source: The Brass Bell, Official Publication of the Antique Boat Club

1. Hinged jump seat flips up for entry through transom door.
2. Portable head is standard. Optional head enclosure with sink and storage shown.
3. Passenger console features generous, insulated cooler.
4. Winning Edge 3-Year Owner Protection Plan, a Four Winns exclusive.

255 SUNDOWNER

Standard Seating

Brougham Cabin Interior

1. Single or twin power packages available.
2. Functional galley with sink and ice box, cushioned vee-berth/dinette.
3. 255 dash combines ergonomic design, lighted rocker switches, high-quality instrumentation.

Water and the waterfront serve as magnets for a great variety of exciting non-boating leisure activities...sailboarding...kiteflying...beach volleyball... Perhaps the most colorful and fascinating of all are the hot air balloon rallies becoming popular waterfront spectacles... Great, festive light-bulbs illuminating the horizon and brightening the spirits of all who view them. Rally balloonists are born competitors, organizing lively games of "splash and dash," "hare and hounds," "ribbon race" –roughly the equivalent of a three-legged race for humans– and others that are challenging for the participants, and exciting to watch from beach or boat.

AFFORDABLE FAMILY CRUISING

Top of the line in affordable family cruising from Four Winns is the stylish, full featured 255 Sundowner.

Its 8½-foot beam makes for generous cockpit and cabin space. Yet it's legally trailerable in all states. We even offer a Four Winns color-matched, trailer to do the job efficiently.

All Sundowners have the necessities and amenities boating families expect... enclosed head, galley with sink, ice box and space for an optional stove.

With a 100 gal. fuel tank and reliable stern drive power up to twin 5.0L high output OMC Cobras®, the 255 is suited for overnight port hopping.

The 255 Sundowner utilizes available space efficiently. A slimline sidewall design provides several inches more cockpit width. The full

fiberglass cockpit is broad, flat and self-bailing, and the helm station is ergonomically designed to be comfortable and convenient for diverse operators.

Four Winns Extra Value Standard Features

- Halon automatic fire extinguishing system
- Navigation package
- SLX package
- Stereo remote controls
- Swim platform, teak insert
- Trim tabs

A brief history of ballooning 1-100 AD
Early balloonists didn't get much respect...they were charged with sorcery, and condemned to death.
1750-1800
By 1783, French aeronauts were launching hot-air filled paper bags to 1000 ft.
1950 to present
The colorful, modern hot air balloon was introduced in the U.S. in the late 1950s. Today, ballooning offers a one-of-a-kind view...a peaceful, serene journey with the wind...a beautiful and fascinating form of travel.
Balloonist's Prayer
May the winds welcome you with softness. May the sun bless you with his warm hands. May you fly so high and so well that God joins you in laughter and sets you gently back into the loving arms of Mother Earth.
(Source: Hot Air Ballooning, ©1988)

245 VISTA

Standard Seating

Cabin Interior

1. Functional galley with ice box, stove, stainless sink, storage.
2. Aft cabin features double berth with window.
3. Wrap-around, multi-level, backlit instrumentation.

A boat is so much more than basic transportation... The fun and adventure that awaits a boating family in a day on the water is inexhaustible. Sometimes, the most attractive course lies in leaving your own boat at the dock...and letting someone else do the driving. Take an excursion boat to a fantasy island... A glass bottom ferry tour of luxuriant coral reefs... A dinner boat serving side orders of sunset with the prime rib... Or a big, friendly sidewheel showboat with lively entertainment...dancing...shelled peanuts in baskets...beverage by the pitcher...pizza by the slice...and generous decks for inspiring moonlight walks.

AFFORDABLE FAMILY CRUISING

The popular 245 Vista becomes more impressive every year. A mid-size cruiser with the classic lines that appeal to traditional boaters, the 245 enters the 90's with some bright new accents. Taff rails and assist handles are now gleaming stainless steel in oval configuration that fits the hand comfortably. A new molded fiberglass swim platform offers an integrated look and features hand holds in the platform's leading edge.

The 245 is designed for big water cruising, powered by up to a 460 cu. in. single V-8, or twin 4.3 liter 6-cylinder stern drives with counter rotating props. They're commanded from an impressive wrap-around helm station with instruments and controls neatly arrayed on multi-levels.

Below deck there's generous living and sleeping space. A forward dinette converts to a spacious vee-berth, and a full width aft cabin provides a double berth with privacy

curtain. Convenient galley with sink, stove, ice box and storage, and enclosed head complete the live-aboard scenario.

Another comfort to make living easy aboard the trailerable 245 is *Winning Edge 3-Year Owner Protection**...boating's best coverage.

Four Winns Extra Value Standard Features

- AM/FM antenna w/noise suppressor
- Anchor locker with molded anchor well
- Automatic bilge pump
- Balsa core reinforced deck & hull
- Deep cycle, high cranking marine battery w/retainer
- Easy maintenance gel coat bilge
- Emergency engine shut off
- Engine compartment sound insulation
- Ergonomically designed helm for maximum convenience, comfort and safety
- Exclusive *Winning Edge 3-Year Owner Protection Plan**
- Fuel tank, in-floor, accessible
- Full width & depth plywood transom
- Hand lay-up woven roving fiberglass construction
- Interlocking floor system w/ive stringer reinforcement
- Maximum foam added for rigidity & sound deadening
- National Marine Manufacturers Association certification
- Premium gel coat w/superior buff back characteristics
- Quick access hinged engine compartment lid
- Radio weatherband
- Shrink wrap shipping
- Smooth riding, fast planing deep-vee hull
- Stainless, deep access 3-step swim ladder
- Stainless rails, cleats, through

boiled, metal backed Wood backing at all through-the-hull-and-deck fastening points

Additional Standard Features

- #### Exterior and Trim
- Bow/staff rails, stainless welded.
 - Cleats (6) stainless
 - Deck hatch, round
 - Gel coat, three tone
 - Horn
 - Navigation lights
 - Non-skid walk around deck
 - Port lights (4)
 - Step pads
 - Swim platform, fiberglass w/ladder
 - Transom light
 - Walk-through transom door
 - Windshield, tinted, tempered, w/vented wings

Functional and Convenience

- Aluminum fuel tank (72 gal)
- Bilge blower

Steamboats were designed as workboats. Yet they evolved into plush, floating palaces providing entertainment and some of the finest accommodations of the day. Today, riverboats are making a comeback—preserving the glamour of the steamboat era. Have a riverboat party. Relive the adventures of "Huck Finn"...explore your local riverways. Pass out lyrics to *Old Man River* and *Steamboat Bill* for a sing-along. And don't forget the catfish!

1. Extra large, stainless cleats are thru-bolted and metal-backed.
2. Rotating base is optional for L-shaped passenger lounge.
3. Powered by up to twin 4.3 litre 6-cyl. engines.

265 VISTA

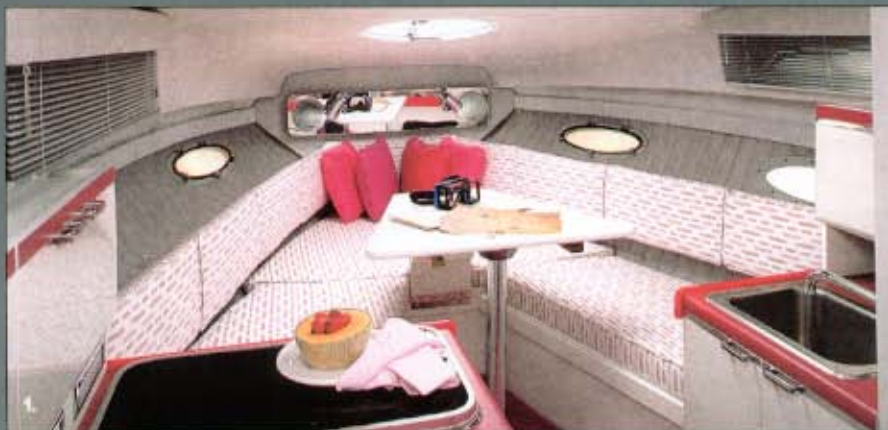

Cockpit Seating

Cabin Interior

1. Cabin amenities include split galley and convertible dinette/ sleeper.
2. All cabin double berth with window.
3. Instruments are positioned for ease of reading.

F

antasies of fame and wealth beyond imagination have inspired more than a few boaters to join the legions of professional and recreational divers in search of untold treasures in the silent, ever twilight subsurface world of our lakes, streams and oceans.

The cost of glory is not cheap...basic scuba gear, including mask with snorkel, air tank, regulator, flotation vest, weight belt, pressure gauge, diver's watch, swim fins and wet suit starts at about \$1500, excluding any training. Specialized underwater gear adds to the tab. For many, the payback in terms of adventure, challenge, education and camaraderie is well worth it.

For SCUBA enthusiasts, the underwater world holds infinite new adventures. To make each dive a safe one, divers need to be in good health and practice basic safe diving techniques.

- Know the dive site.
- Check weather forecasts, evaluate diving conditions.
- Display a dive flag and stay near it.
- Begin dives against the current.

- Remain with your buddy.
- Limit your depth to 100 feet, 60 feet for beginners.
- Avoid contact with unfamiliar plants, fish, animals.
- Check equipment/gauges regularly.
- Exit water with at least 300 psi of air.
- Pace yourself and breathe properly.
- Ascend cautiously.
- Stick to your dive plan. (Source: PADI Recreational Diving Manual)

AFFORDABLE FAMILY CRUISING

The newest member of the Four Winns cruiser family is the contemporary 265 Vista. A lot of the great thinking that went into our wide-body designs landed in this comfortable, trailerable 26-footer.

The generous swim platform includes a unique folding 3-step ladder providing convenient deep access for swimmers. In the upright position it's a sturdy handrail to assist boarding.

In the cockpit, there's an adjustable contoured helm bucket and "L" shaped passenger seat that swivels fore and aft when the optional rotating seat base is ordered.

Below deck there's a split galley, expandable dinette that converts to a vee-berth, an enclosed head/sink/shower, and a double-berth aft cabin with privacy curtain.

A variety of single or twin OMC Cobra® stern drive performance packages are available to match the boating lifestyle of 265 Vista owners.

Four Winns Extra Value Standard Features

- AM/FM antenna w/noise suppressor
- Anchor locker with molded anchor well
- Automatic bilge pump

285 VISTA

Cockpit Seating/Mid-Ship Salon

Mid-Ship Dinette

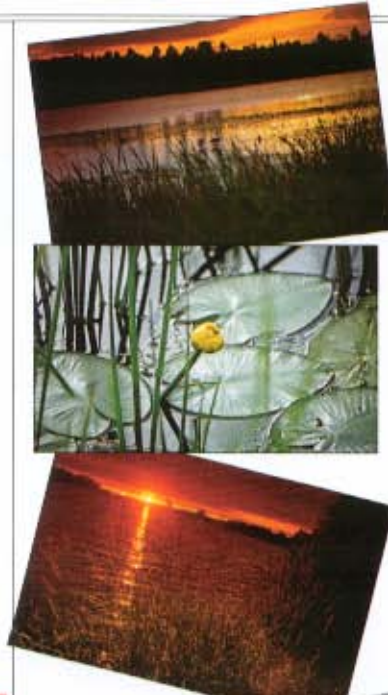

1. Vee berth sleeps two with optional Vista monogrammed bedding package. Galley includes deep sink, alcohol/electric stove, refrigerator.
2. Mid-ship dinette sleeps two.
3. Aft cabin dinette also converts to double berth.

T

o leave home port in a seaworthy hull bound for exotic ports in the company of family or good friends epitomizes the allure of the boating lifestyle. Depending on the size and range of craft, port hopping can vary from leisurely day jaunts up or down a coast, to full open sea crossings, relying on a powerful navigational system, ship-to-shore radio, radar and other sophisticated electronics as land links. In either case, when the galley is well stocked... the seas kindly... and the chemistry correct between on-board guests... this brand of boating can be idyllic and satisfying, providing excitement, adventure, romance and fond memories.

Port hopping is one of boating's ultimate experiences. Before you set out on an extended cruise, here are some important checkpoints:

- Leave itinerary and emergency contact instructions with a neighbor or friend.
- Check condition of safety equipment.
- Obtain an extended weather forecast.
- Contact harbor master and marinas ahead of time to check slip and services availability.
- Study your charts and plot a course before leaving home port.

WIDE-BODY CRUISING

It's hard to stand out in the popular 28- to 31-foot wide-body cruiser class. The sleek Four Winns 285 and 315 Vistas do it with incredible innovation.

Round hatches, a graceful sheerline and a unique tri-tone color scheme separate Vista cruisers from look-alikes.

A rotating "L" shaped passenger seat, combination swim ladder/assist handrail, a fiberglass transom door with storage bay, unique split helm, a cabin window on the bulkhead for ventilation and pass-through convenience, and stereo system remote controls at the helm are just a few of the innovations that make these sleek wide-bodies "break-through" leaders.

The new 285 Vista SE provides the live-aboard, wide-body convenience in an attractively-priced single engine cruiser. **Model Availability: 285; 285 SE.**

Mid-Ship Salon

1. Extra-deep sink, stove, refrigerator are standard. Built-in microwave optional.
2. Mid-cabin dinette seats slide to reveal storage. Hullside cabinetry provides storage.
3. Aft cabin converts to sleeper.

W

ide-body cruising does more than simply satisfy one's passion for the seaboard life. For many, wide-body live-aboards have replaced the vacation home both as a getaway and an investment. All living amenities are usually standard...and "second home" tax write-offs are available for those who qualify. Boaters recognize on-board space is a precious commodity. They learn to travel light, plan ahead, and fully utilize available facilities...camper canvas converts the express cockpit to enclosed living space...fix-ahead meals minimize time in the galley...and maximize time with family or friends relishing the boating lifestyle.

WIDE-BODY CRUISING

Since their introduction, the wide-body Four Winns 315 and 285 Vista cruisers have earned high praise for their spacious layouts, the abundance of welcome amenities, and the ingenious application of innovative features. The accolades are welcome and deserved. But one important attribute is often overlooked... Vista is a stunning performer, with a seakindly deep-vee hull and proficient running surface design-matched to an OMC Cobra® or OMC King Cobra® stern drive powertrain for optimum performance and efficient operation.

Power and Motoryacht said it best in a recent test of the 315 Vista equipped with twin 7.5 Liter

V-8's... "The Vista planes so quickly and easily she'd probably make as good a family ski boat as she does a family cruiser."

201 LIBERATOR

Standard Seating

Cabin Interior

1. 201's performance stems from a 350 OMC King Cobra[®] stern drive.
 2. Vee-berth and contoured seats. Fill-in cushions convert for sleeping.
 3. Back-lit dash is functional and attractive.

High performance is the glamour side of boating. Nothing else in the marina raises the pulse rate like a lean, low slung fuselage with a big cube V-8 in the motorbox and a burly, torque-eating out-drive on the transom. But running at high RPMs puts high demands on the boat and boat systems. All boaters, and particularly performance boaters, should practice preventative maintenance and have their boat, boat systems and equipment, powerteam, and trailer inspected annually. Free inspections are offered several times a year by your Coast Guard, Coast Guard Auxiliary, or Powerboat Squadron. Call 1-800-336-BOAT for information.

HIGH PERFORMANCE AND PRACTICALITY CAN COEXIST

By appearance, the Four Winns 201 Liberator is a purebred performance machine...low, lean poised silhouette...bold graphics...muscular OMC King Cobra® 350 V-8 wedded to a brawny new stern drive power delivery system with stainless prop.

But appearance isn't everything...by design, the 201 is actually an elegant blend of spirited performance and welcome civility. With seating for six on contoured swivel buckets and a broad, wrap-around stern couch.

A generous cabin, accessed by atrium style center entryway, features canted port and starboard seating that converts easily to a comfortable double berth. There's generous storage under the vee-berth, in the sidewalls, and beneath the wide, electric lift sundeck/engine cover.

For even more performance flare—with no loss of civility—there's the limited edition

Four Winns Extra Value Standard Features

- AM/FM antenna w/noise suppressor
- Anchor locker with molded anchor well
- Automatic bilge pump
- Deep cycle, high cranking marine battery w/retainer
- Easy maintenance gel coat bilge
- Emergency engine shut off
- Engine compartment sound insulation (I/O)
- Ergonomically designed helm for maximum convenience, comfort and safety
- Exclusive **Winning Edge 3-Year Owner Protection Plan***
- Four Winns Sure Load™ Trailer, tandem axle, custom bunk, color-coordinated, detachable tongue
- Fuel tank, in floor, accessible
- Full width & depth plywood transom
- Hand lay-up woven roving fiberglass construction
- Interlocking floor system w/five stringer reinforcement
- Maximum foam added for flotation, rigidity and sound deadening
- National Marine Manufacturers Association certification
- Premium gel coat w/superior buff back characteristics
- Quick access hinged engine compartment lid

- Radio weatherband
- Shrink wrap shipping
- Slimline sidewall design for maximum cockpit space
- Smooth riding, fast planing deep-vee hull
- Stainless, deep access 3-step swim ladder
- Stainless rails, cleats, ski eye... through bolted, metal backed
- Vented side window glass
- Wood backing at all through-the-hull-and-deck fastening points

Additional Standard Features

- Exterior and Trim
- Bow/staff rails, stainless
- Cleats (4) stainless
- Deck hatch, round
- Gel coat, three tone
- Horn
- Navigation lights
- Prop, stainless
- Swim platform, fiberglass integrated w/stainless ladder
- Windshield, bent glass, tinted/tempered, with w/vented wings

Functional and Convenience

- Aluminum fuel tank (44 gal.)
- Bilge blower
- Color-coded wiring
- Depth sounder
- Drain plug, brass
- Engine hatch, electric assist, w/mirror
- Fused switches
- Instrumentation: fuel, oil pressure; trim indicator; water temp.; speedometer; tachometer; voltmeter.

- Power trim & tilt
- Steering wheel (padded)
- Stereo AM/FM cassette 60W equalizer, seek scan w/weatherband, 4 speakers, LED clock

Interior

- Beverage holders, oversized (cockpit)
- Cabin lights
- Cabin door w/lock, plexiglass
- Canvas top, cockpit cover, color-coordinated
- Carpeting, premium grade marine
- Chart light
- Courtesy lights
- Engine compartment lights
- Indirect lighting, cabin
- Mirror
- Passenger console w/locking glove box and integrated insulated ice chest
- Seating: cushioned aft sundeck, custom molded bucket seats (adjustable); wrap-around stern couch; cabin
- Sleeping for 2 vee-berth
- Storage: sidewall, under berth, engine compartment.

Major Options

- Full canvas
- Exhaust thru-hull w/mufflers (STD. 2+2)
- Fiberglass cockpit liner (STD. 2+2)
- Swim platform, teak insert
- Halon automatic fire extinguishing system (STD. 2+2)

U.S. Coast Guard regulations require certain equipment on all boats. Check local or state laws for additional requirements.

Required*:

- Fire extinguisher
- Personal flotation devices for each passenger
- Sound signalling device
- Navigational lights
- Sight signalling device

Recommended:

- Tool kit
- Binoculars or telescope
- Blankets, dry clothing
- Compass
- Spare line
- Floating keychain
- Foul weather gear
- Manual bailing system
- Maps and charts
- Car or paddle
- Non-slip deck shoes
- 2-Way shortwave radio
- First aid kit
- Hand-held signal light

*Contact your local Coast Guard offices for the complete required equipment list.

1. Mirrored engine compartment with electric lift sundeck/hatch.

2. 201 Liberator 2+2, exhilarating performance.
3. Tandem-axle, color-coordinated trailer is standard.

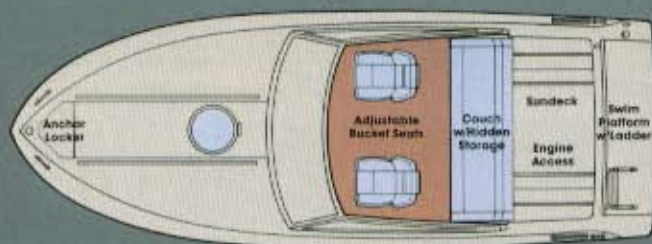

*Ask your Four Winns Dealer for full warranty details.

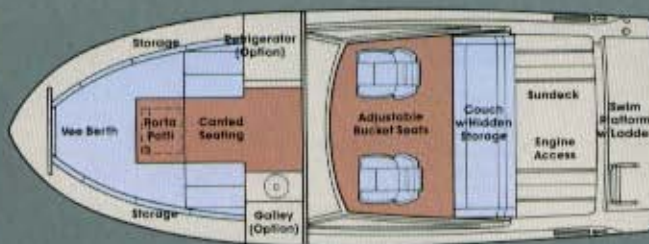

221 LIBERATOR

Standard Seating

Cabin Interior

1. Piloting the 221... a pulse-quickenning experience.
2. Roomy vee-berth provides sleeping area for two. Canled seating permits comfortable seating.
3. Back-lit instrument panel with sporty steering wheel and fingertip lighted rocker switches.

I

t's easy to tell a thoroughbred...lean, muscular, spirited, proud...shared attributes of pedigreed horses and purebred performance boats. In the hands of a skilled rider, raw thoroughbred power is transformed into beauty and grace on the hoof. In the hands of an experienced helmsperson, big-block, high-torque V-8 power is channeled in a controlled fury to propel a sleek hull with exhilarating quickness. Both rider and helmsperson recognize that with power goes responsibility. There are only certain times when thoroughbred or mega-horsepower boats should be given free reign. It's a mark of character and maturity to know when to say "when."

equate horsepower with manners, performance boaters do have even greater responsibilities for safe navigation and good boating etiquette.

- Take extra care not to intimidate other boaters
- Minimize wake in restricted zones.
- Throttle back in high traffic areas, near cottages or homes.

Performance boaters are sometimes unjustly charged with less-than-responsible boating. While it's wrong to

respect the rights and concerns of all other boaters.

- Review and practice the Rules of the Road.

HIGH PERFORMANCE AND PRACTICALITY CAN COEXIST

The essence of Four Winns Liberator has always been performance and practicality in equal measure. To some that will represent a contradiction of terms...until they experience the all new 221 Liberator.

On the performance side there's the awesome power of OMC King Cobra® all the way up to a new 454 cubic inch V-8 with an excellent power to weight ratio and sophisticated electronic engine management system. All that power is translated by a rugged new OMC King Cobra® stern drive power delivery system and matched to the performance design 221 Liberator hull and running surface. The result is pure exhilaration.

On the practical side, the 221 offers all of the welcome standards and features found in family sportboats...premium sound system, depth sounder, comfortable seating for eight, a spacious, easily accessed cuddy cabin, ski eye, and a broad integrated swim platform serviced by a deep-access, 3-step stainless ladder.

Four Winns Extra Value Standard Features

- AM/FM antenna w/noise suppressor

251 LIBERATOR

Standard Seating

Cabin Interior

1. Single or twin OMC King Cobra® engines.
2. Spacious dinette/vee-berth cuddy sleeps two.
3. 251's instrumentation is performance-oriented.

It's easy to demonstrate that life's little pleasures sometimes offer the greatest satisfaction. All that is needed is a good boat...a bright, warm day...an empty beach...and a pleasant companion to share them with. A virgin beach has always held a certain fascination for boaters... It's a place where great thinking takes place, and easy solutions for hard problems present themselves... It's a place where two people can be alone together, taking from the day what each needs, without pressure to give...It's a place where, for a little while, responsibilities can be put on hold so one can revel in the glory of the setting and participate in the celebration of life.

HIGH PERFORMANCE AND PRACTICALITY CAN COEXIST

This is the 251 Liberator...our dressy 26-foot entry in the offshore performance class. With OMC King Cobra® power up to a single 454 cubic-inch V-8, or twin 350 cubic-inch V-8s with counter rotating stainless props, the 251 fulfills its performance promise. With a stunning design, punctuated by a smart wrap-around integrated windshield, and accented by bold graphics and distinctive round hatches, the 251 stands strikingly apart from others in its class.

Like all Liberators, the 251 has an unmistakable practical side, with a spacious self-bailing fiberglass cockpit, and a comfortable cabin with portable head and partial galley with sink, ice box, storage and service counter.

Perhaps the most incredible feature of the 251 Liberator—and all Liberators—is the standard *Winning Edge* 3-Year Owner Protection Plan*...It's boating's best protection plan and it's a Four Winns exclusive.

Four Winns Extra Value Standard Features

- AM/FM antenna w/noise suppressor

Beachcombing offers the thrill of treasure hunting, yet the "finds" are much more frequent. When searching for souvenirs, keep in mind that seemingly empty shells are often home to tiny creatures...that though no longer living, a plant may play a vital role in the lives of microscopic animals...and that discarded cans or wrappers disrupt the miraculous balance of our environment. Whenever possible, leave the natural setting as you found it, or "take only pictures...leave only the bubbles of your wake. The species you save may be your own!

1. Stereo remote control positioned at the helm.
2. Partial galley includes service counter, sink, ice box, decanters and glasses.
3. Motorized bolster seat (optional).
4. Spring-loaded center entry hatch.

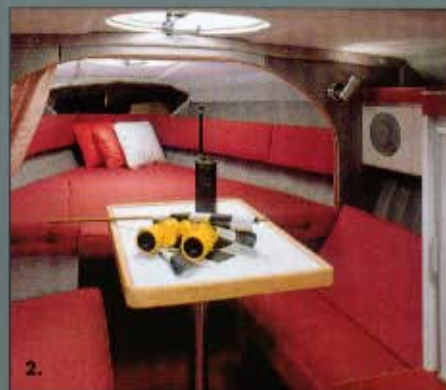

261 LIBERATOR

Standard Seating

Cabin Interior

1. Twin stern drives—along with new colors and graphics add pulse-quickenning excitement.
 2. Four can dine in 261's well-appointed cabin.
 3. Performance-oriented helm with full instrument panel.

Hats off to American boaters... According to United States Coast Guard statistics, for the third year in a row we've reduced fatalities, serious injuries and property damage resulting from boating mishaps. Boat manufacturers can take a bow, too. On the whole, boating products today are safer, more reliable, more efficient... a better value than ever before. One of our most valuable test facilities is the offshore racing circuit. Four Winns, Outboard Marine Corporation, and other responsible manufacturers support racing as a means to improve boat and engine design, efficiency and durability, and to add to the pleasure and enjoyment of recreational boating.

HIGH PERFORMANCE AND PRACTICALITY CAN COEXIST

This is the Liberator for the performance purist... a long, lean, classic silhouette complemented by tri-tone gel coat, striking graphics, bold round deck hatches, gleaming stainless bow and taff rails, and a smart new fiberglass swim platform.

Those who have had the heady experience of unleashing the 261 on an open, empty expanse of mirror-like water know the true meaning of exhilaration.

It goes something like this... wrapped securely in an optional power bolster seat you nudge the throttles forward and feel the pulsing energy of twin big block V-8s.

The throaty burble of optional thru hull exhaust alerts all that Liberator is on the

move. You clear the no wake zone and pause... scanning the water that looms long and silent ahead. Gathering your will in a focus with a long deep breath, you punch the throttles forward and experience life in the fast lane!

Four Winns Extra Value Standard Features

- AM/FM antenna w/noise suppressor
- Anchor locker

Performance boating can, and should be, a heady experience. But the experience shouldn't include alcohol.

- Don't drink and operate a boat.
- Don't let anyone who's been drinking operate a boat.
- Designate a non-drinking helmsman.
- Have drinking passengers wear flotation vests.
- Serve snacks when alcohol is served.
- Serve non-alcoholic cocktails, such as...
Shark's Tooth
Cranberry juice
Dash of Rose's lime juice
Blend with ice

Sunken Treasure
Pig, frozen strawberries
Dash of orange juice
Blend with crushed ice or ice cream 'til smooth.

1. Life in the fast lane... Liberator style.
2. Mirrored engine hatch with electric lift.
3. Partial galley with sink, ice box, service counter, decanters and glasses.
4. 261's sleek lines are a telltale sign of performance.

*Ask your Four Winns Dealer for full warranty details

Four Winns color-matched Sure Load™ trailers are custom fitted to each Four Winns boat. Four longitudinal bunks directly beneath the stringer system cradle the boat for maximum support where the hull is strongest.

Since all Four Winns boats 22 feet and under are shipped with a standard trailer, trailer manufacturing facilities in

Texas and Michigan are located in proximity to boat assembly plants.

The winch utilizes a strong, rugged nylon strap instead of cable for smoother winding and greater reliability.

All Four Winns trailers include a detachable tongue which reduces the overall length of the package permitting garage storage in many cases. Added benefits are theft deterrence and easier hitch assembly replacement.

The Perfect Traveling Companion... When you select a Four Winns boat we want you to have the best over-the-road support system available...a Four Winns Sure Load™ trailer, color-matched and specifically designed for your model. In addition to design and color compatibility, Four Winns trailers match the high quality construction and materials of Four Winns boats. Sure Load trailers are standard on all Four Winns models 22 feet and under and available on all models over 22 feet up to 26 feet.

A Tough Build... Trailering can be tough on a boat and on your tow vehicle. The design-matched Four Winns trailer provides a strong, welded 11 gauge steel structural tubular frame and leaf spring suspension for maximum support. A low center of gravity provides increased stability and makes towing easier.

Carpeted longitudinal bunks directly beneath the hull stringer system help reduce the potentially damaging impact boats are subjected to during towing.

Easy On/Off Design... The low silhouette of the Four Winns Sure Load design also makes driving the boat on and off the trailer at ramps easier. And trailer parts that are exposed to moisture...such as wheel bearings, wiring harnesses and running lights are sealed and protected.

As Beautiful As It Is Tough... The Four Winns trailer is perfectly color-matched to the boat with polyurethane paint over a zinc chromate primer, with coordinated stripes.

SURE LOAD™ TRAILERS

Anatomy of a Four Winns Sure Load™ Trailer

*Dealer/Owner must select the appropriate trailer for compliance with local and state laws.

SLX Options Package...SLX combines many of the most popular options for more comfort, utility, and convenience—and added value at resale time. For extra style, there's a tri-tone gel coat finish and color-matched canvas. Functional features include depth sounder, courtesy lights, bow fill in cushions and a chart light/lighter. And, for pure audio enjoyment, a premium AM/FM stereo/cassette upgrade with equalizer, seek and scan, digital clock, and four coaxial speakers.

Three different SLX packages are offered—each with a different canvas configuration: SLX Option 1 features a color-coordinated convertible top and cockpit cover; Option 2 includes side and aft curtains; and Option 3 has a color-coordinated, full camper canvas top. Candia SLX packages also include a table with fore and aft mounts. Ask your dealer for information regarding SLX package availability on the Four Winns model you select.

Protect Your Investment...Over time, direct sunlight, chemicals, dust, and harsh weather conditions can be tough on your boat—inside and out. To prevent unnecessary wear and tear, the best protection is a properly-fitted mooring cover.

Canvas Variations...Four Winns offers a variety of canvas covers to extend your boat's versatility, and guard against the elements. Convertible tops are standard on all models. Cockpit covers, mooring covers, side and aft curtains, as well as camper canvas are available to suit your boating lifestyle.

Safeguard your investment with a canvas that fulfills your particular needs. Your Four Winns dealer will help you select the top configuration to fit your needs.

Quality Is Top Priority...Attention to detail and high-quality materials go into each Four Winns canvas top. Mooring and cockpit covers feature a snap-in center support rod to promote rainwater run-off. Seams are reinforced for greater strength. Marine fasteners hold tops securely and tautly in place...keep water pools from forming. Separate canvas components are attached with Velcro® or 2-way large tooth nylon zippers. Inserts are crafted in durable, thick clear plastic. Top-grade canvas is water-resistant, and color-matched to your boat and trailer's finish.

SLX OPTIONS

SLX Options Package

1. Premium upgrade stereo.
2. Courtesy lights.
3. Chart light/lighter.

Major Option Packages

Brougham Package: Includes rear sundeck; driver and passenger molded swivel bucket seats with integrated headrests and side bolsters; full-width stern couch.

Cockpit Galley 1: Includes icebox; alcohol stove; sink with fresh water and waste holding; seat, shelf, storage cabinet.

Cockpit Galley 2: Same as Galley 1, except with refrigerator instead of icebox.

Cockpit Galley 3: Same as Galley 1, except with refrigerator and alcohol/electric stove.

Convenience Package: Includes alcohol/electric stove; compass; refrigerator; water heater; windshield wiper (starboard); dockside power/isolator and adaptors; battery charger, and switch.

Navigation Package: Includes Loran, ship-to-shore, and spot/floodlight.

Not all options are available on all Four Wins models. See options availability chart on facing page.

*A Quality Boat Takes
a Team Effort...*

Team Four Winns.

When Four Winns introduces a boat, quite an impressive array of artisans can take credit.

Including, of course, the skilled boat builders at our sportboat and cruiser plants in Cadillac, Michigan...our sportboat plant in Athens, Texas...and our fishing boat facility in Tampa. Credit the capable people in our trailer plants in Cadillac and Houston too, since all of our boats 22 feet and under are custom fitted to a color-matched Four Winns Sure Load™ trailer.

But Team Four Winns encompasses far more than dedicated Four Winns employees. It also extends to the combined workforces of our supply base. We have cultivated a partnership relationship with the finest parts, materials, components and systems suppliers in the marine industry.

We ask our partners to be as committed as we are to excellence and ever-improving quality.

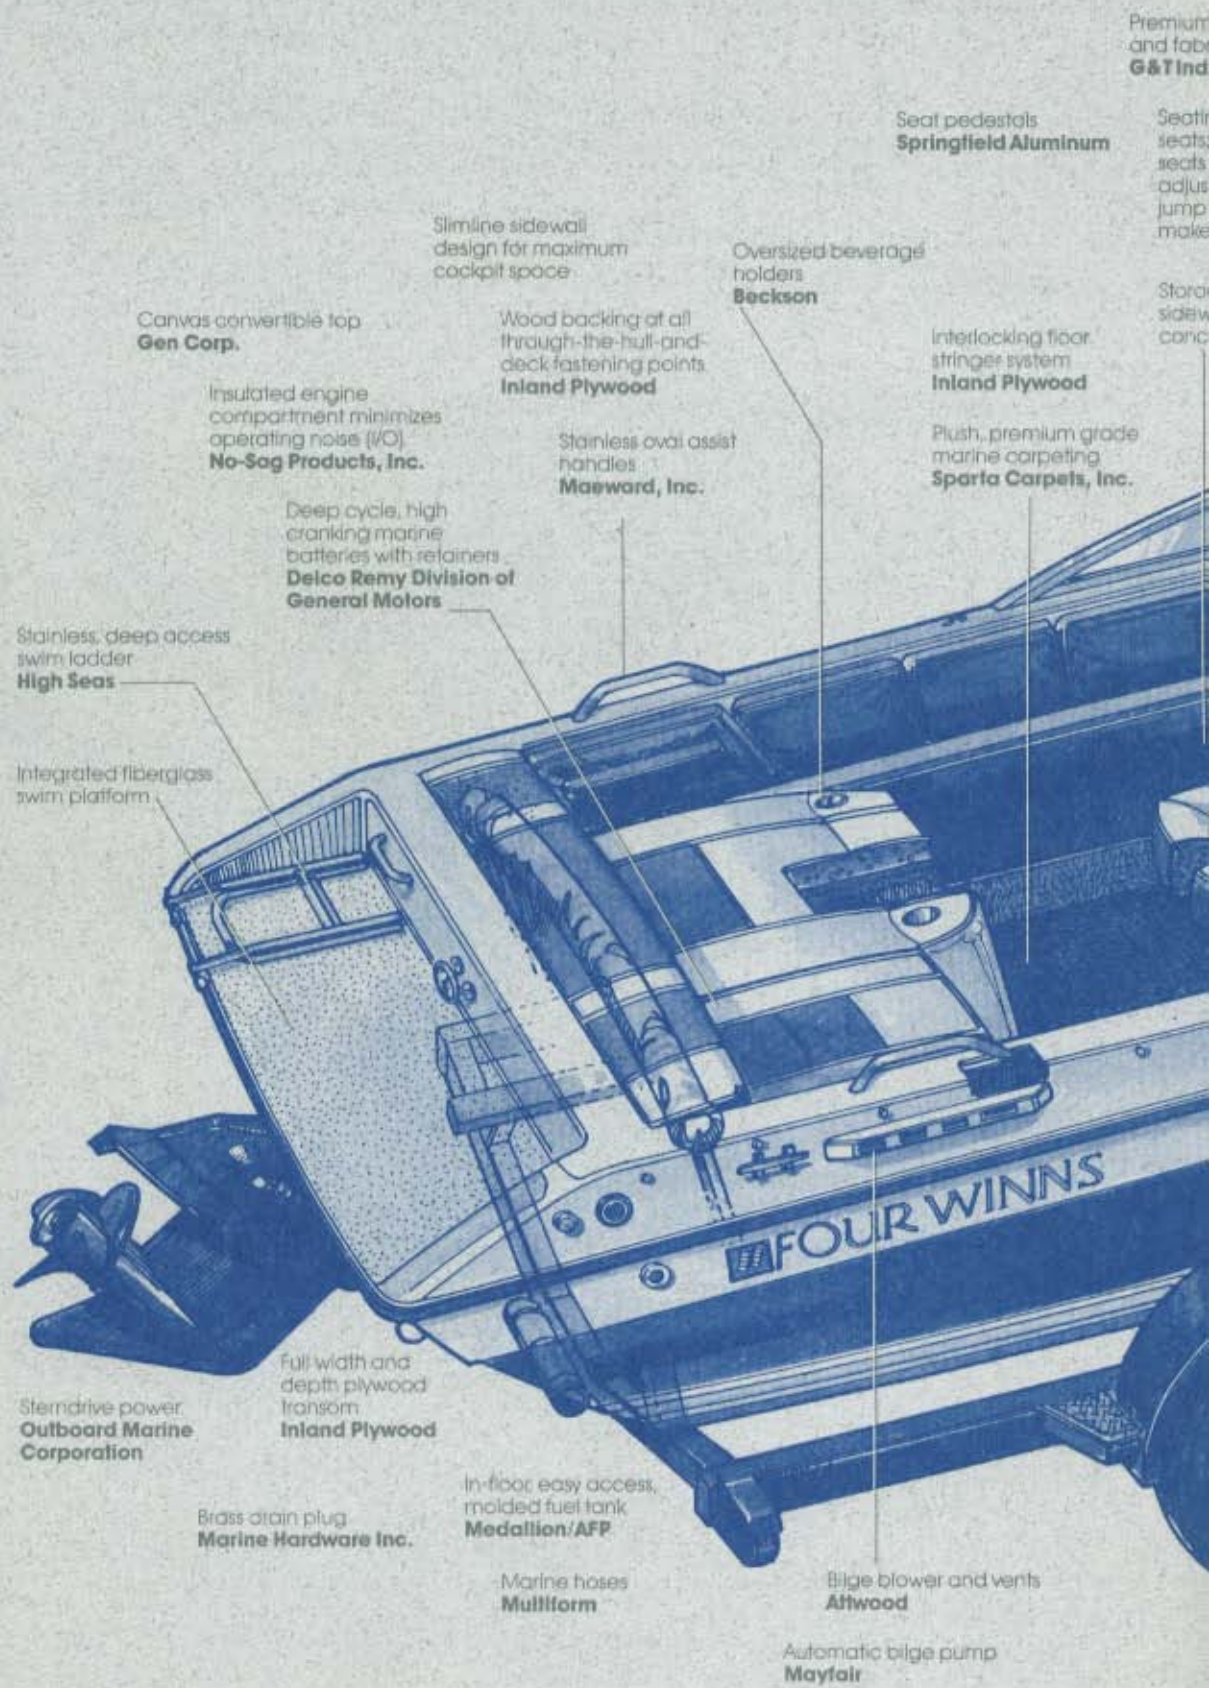

We encourage our partners to come forward with enhancements to their products that add value.

We entertain long term sourcing agreements with our partners tied to productivity gains that will help us continually improve Four Winns boats while controlling costs.

And, most importantly, we insist that our partners stand behind their components for the term of the exclusive Four Winns *Winning Edge* 3-Year Owner Protection Plan that's standard on every boat we build... It's boating's strongest and most comprehensive protection plan.

In this *Anatomy of a Four Winns Boat* insert, we want to identify the distinguishing features that help separate Four Winns from all other boats...and acknowledge the outstanding contribution of our supply-base partners. Team Four Winns...nobody does it better! We're all building boats as if our futures depended on it.

Your Four Winns Dealer

is our most valuable standard feature.

We take great pride in the Four Winns products that appear on the pages of this catalog. They are the result of a team effort. We are no less proud of the men and women who present the Four Winns boat line across America...the Four Winns Professional Marine Retailers. They are our partners...our representatives...and respected, valued members of Team Four Winns.

A savvy professional. Within the industry, there is a growing realization that a Four Winns dealer is the most competent, and courteous marine professional in the marketplace. He knows how to match you to an affordable, comfortable, Four Winns model, with the features and performance to suit your lifestyle.

He can advise you on financing and insurance for your new boat. In fact he can probably approve you on the spot for a competitive financing program he offers.

He can help you select the accessories that will add to your enjoyment on the water...skis and other water toys, flotation vests, colorful, casual Winnegear™ clothing or fashionable Top of the Dock® activewear*... And he maintains the facilities, equipment and staff to help you protect your investment by keeping your Four Winns boat looking good and running great.

When he talks, we listen. Your Four Winns Dealer knows us as well as we know him. He has visited with us at our plants in Michigan and Texas. He sends his service and sales personnel to our factory sponsored seminars. If he hasn't already, he will eventually sit on the National Dealer Council...an advisory body that identifies service and quality issues and recommends action. He comes to our annual dealer show to test and critique our new models... and to share marketplace intelligence that will help us shape the

next generation of Four Winns boats.

We want to make it convenient and hassle-free for you to get into boating. No one is more qualified to make it happen than your friendly, Four Winns Professional Marine Retailer.

We introduced *Winning Edge*™ 3-Year Protection as a standard feature on every Four Winns boat in 1987. It's still boating's best protection. Because we're committed to "Building Boats As If Our Future Depended On It," we have the confidence to cover *all* Four Winns boats...at no extra cost.

- ...Three full years on Freedom and Horizon™ sportboats.
- ...three full years on Candia™ deck boats.
- ...three full years on affordable Sundowner™ cuddys.
- ...three full years on Vista cruisers.
- ...three full years on Quest™ fishing boats.
- ...even three full years on high

performance Liberator® models.

3 Full Years...No Extra Cost. Four Winns exclusive *Winning Edge*™ 3-Year Owner Protection provides a one year limited warranty, plus two additional years coverage on:

- Fuel system, Electrical system and main wiring harness.
- Stereo system and speakers.
- Instrumentation.
- Four Winns Sure Load™ trailers.
- OMC Cobra® and other factory installed stern drive power systems including engine blocks, out drives, electrical and controls.
- Johnson® or Evinrude® factory pre-rigged packages.

• Power steering.
• Power trim and tilt.

In the event of a claim on the extended protection portion of the program, the owner is only responsible for the first \$25 of service, and for returning the boat to any authorized Four Winns servicing dealer. All other costs for repairs and/or parts on approved claims will be paid by Four Winns up to the cash value of the covered item. Parts installed on extended protection are warranted for 90 days or the time remaining in the original plan, whichever is longer. Should the replaced parts require further service, the \$25 service fee will be waived.

Plan Is Transferrable. Unused portions of the *Winning Edge*™ Plan are transferrable when the original owner or subsequent owners sell the boat within the coverage period. To initiate a transfer all the new owner need do is provide Four Winns with a written request, a copy of the bill of sale, and a \$25 transfer fee.

The *Winning Edge*™ 3-Year Owner Protection Plan... it's the big edge Four Winns has over every other boat.

*At participating dealers.
