FOUR WINNS

## Come ride with us...

*Four Winns has developed a reputation for excellence, quality, performance, service and support recognized not only in the U.S.A. but in more than 30 countries of the world. All Four Winns boats share a common design philosophy: These are family boats, sized and equipped for family lifestyles... endowed with advanced technology...built to provide a secure platform for your precious cargo...and priced to put fun on the water in reach of all.*

### Discover the Four Winns difference...

- The Four Winns national Dealer network is generally considered by the boating media and marine industry experts as the strongest and most stable in boating.
- Four Winns is a respected global marketer of marine products. In unit sales Four Winns is the 3rd largest producer of fiberglass powerboats in the world.
- Our customers recognize the excellence of the Four Winns dealer. Average overall customer satisfaction rating for Four Winns dealers is above 90%.
- In 1993, the Four Winns 190 Horizon stern drive was the best selling single model sportboat.
- Popular Mechanics named both the Four Winns Stable-Vee™ hull and the OMC Cobra® EFI stern drive recipients of their 1993 Design & Engineering Award.
- No other powerboat builder in the world can match the ride, handling and performance that results from the combination of a Four Winns Stable-Vee mated to an OMC Cobra® EFI stern drive with cone clutch power delivery.
- Four Winns is one of just a few builders who produce a full line of family powerboats including jetboats, runabouts, deck boats, cuddys, performance boats and family mid-cabin cruisers.
- Four Winns success provides the resources to maintain separate manufacturing, product engineering and development, and on-water test facilities.
- Four Winns maintains a separate trailer fabrication facility to custom build Sure Load™ trailers for all 20 models it produces.
- Outboard Marine Corporation, Four Winns parent company, is the world's leading producer of marine propulsion systems.
- The engines that power Four Winns outboard models, OMC Evinrude® and Johnson® brands, are the best known, best selling outboards in the world.
- OMC has been a prolific innovator in marine propulsion for more than 80 years. Their latest effort, the OMC TurboJet™ jet drive in 90- and 115-hp versions is the most sophisticated, advanced and powerful entry in this fast growing class of marine power.

## AWARD WINNING STABLE-VEE™ HULL

16 of 20 Four Winns models in 1994 will feature the Stable-Vee hull design that earned *Popular Mechanic's* prestigious Design & Engineering Award. Four Winns has applied for a patent on this hull design that uses active pods on either side of the engine to extend the running surface aft of the transom. These pods, and unique deadrise distribution from transom to bow, allow a larger footprint in the water than deep-vee designs of similar length and beam.

The Stable-Vee's extended running surface promotes outstanding lateral stability on plane or at rest, eliminating the need to distribute passengers throughout the boat to maintain level operation.

The active pods serve as integral trim tabs, helping the hull plane faster and stay on plane at lower RPMs. At cruising speeds, the pods run "dry" for improved efficiency.

No deep-vee Four Winns ever engineered or

tested offers the maneuverability of the Stable-Vee. Experienced boaters like its solid and flat cornering and quick response to steering input. Predictable, car-like handling breeds confidence in novice boaters.

## MORE EFI ENGINE CHOICES

OMC Cobra and Ford pioneered the use of multi-port electronic fuel injection in V8 EFI stern drives. OMC Cobra® EFI - also a *Popular Mechanic's* Design & Engineering Award winner - quickly

*Technology and value  
you won't find collectively  
on any other boat.  
(And some things you won't find period.)*

*In 20 years of building boats, Four Winns has always believed its mission is to make family boating more convenient, enjoyable, secure and carefree. This focus constantly inspires us to improve our boats and develop the new technology and features that let us continue to say with pride... Give your family our best!*

became the engine of choice for more than 70% of the purchasers of Four Winns V8 powered models. Now the muscular 295-hp, 351 cubic-inch V8 has been added to the stable of OMC Cobra® EFIs.

These technologically advanced engines start as easily as today's car engines without warm-up or stumbling idle. Acceleration is smooth and instantaneous. Fuel economy is better at all operating ranges.

At the heart of OMC Cobra EFI is the Spitfire™ EEM system. It monitors vital engine functions and uses adaptive learning to constantly adjust fuel flow and idle to the operating environment. To simplify servicing and trouble shooting the system provides built-in self-diagnostics and a keep-alive memory that stores a "fail code" when sensors detect operational variances.

## 100% CONE CLUTCH SHIFTING

Four Winns owners with OMC King Cobra® stern drive power have long enjoyed the advantages of cone clutch shifting. Now it's on all 4-

cylinder, V6 and V8 OMC Cobra® stern drives...and the benefits are considerable. The cone clutch allows for the smooth, quiet, uninterrupted transfer of torque from engine to the drive shaft, with no lag or clunk while the gears engage as with dog clutch designs. A floating coupler between the upper and lower gear cases takes deflection under high load to protect the drivetrain.

## EXCLUSIVE FOUR WINNS 5/2/1 OWNER PROTECTION PLAN

To protect your investment, Four Winns provides *Winning Edge™* 5/2/1 Owner Protection on stern drive models. Unused portions of the plan are transferrable. Ask your Four Winns Dealer for details.

- A 5-year hull structural warranty applies to all Four Winns models.
- All OMC Cobra stern drive powered models provide 2 year engine and drive train protection.\*
- All Four Winns models include a one year limited warranty on boat systems and components, and on Evinrude® or Johnson® outboard engines, and TurboJet™ jet drives.\*
- On Four Winns models equipped with Ford block OMC Cobra Stern Drive engines, the engine block and internal moving parts are protected for 3 full years.\*

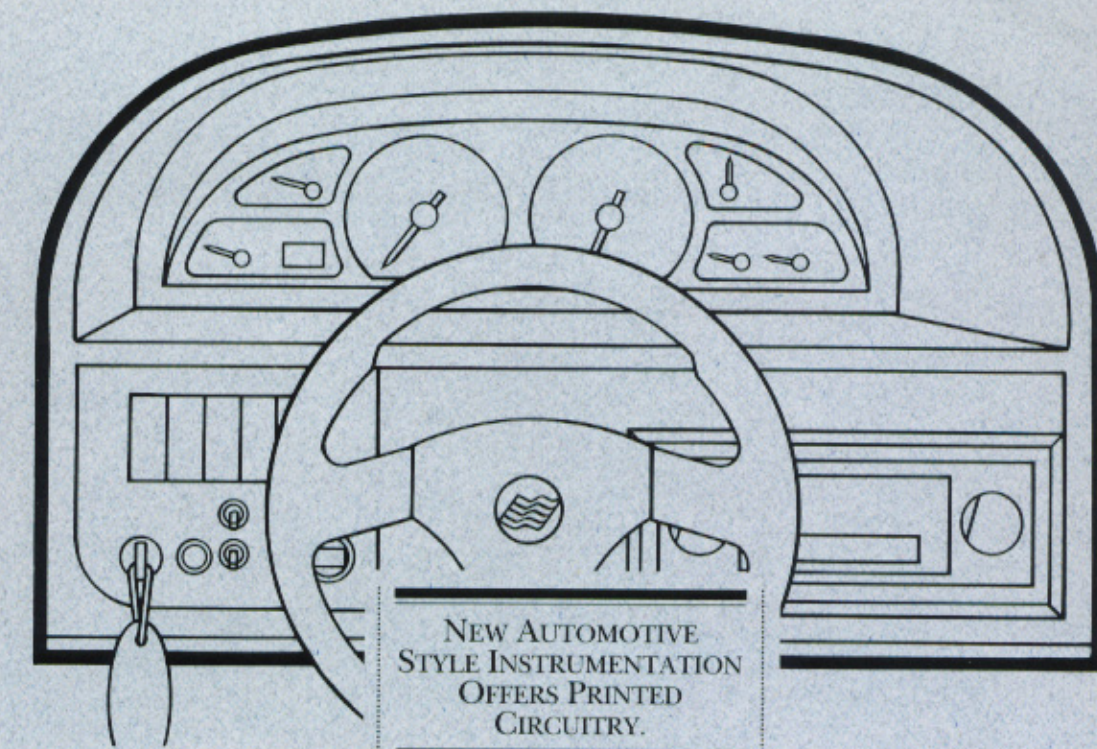

\* Warranty plans applicable in North America only. Ask your dealer for details.

## FADE-FIGHTING ARMORCOTE FINISH

Another way Four Winns protects your investment is by providing a 100% high-gloss, Armorcote exterior finish

specially formulated to resist fading and chalking. In 12-month continuous exposure tests in the sun and saltwater conditions of Florida, Armorcote retained more than 80% of its original gloss without maintenance, while typical gel coat retained less than 40%. With minimal care, you can expect the finish on your new Four Winns boat to look as good in three years as it does the day it's delivered. Occasionally apply a good paste wax and hand rub with a soft cloth... and always use a mooring cover when the boat is not in use.

## NEW AUTOMOTIVE STYLE INSTRUMENTATION OFFERS PRINTED CIRCUITRY.

1994 Four Winns Horizons, Sundowners and 238/258 Vistas feature an exclusive instrument panel developed jointly by Four Winns and OMC that utilizes printed circuit instruments in place of individual instruments. They're arrayed for easy reference in a shrouded pod to reduce glare. The unit has just 3 power connections as opposed to 17 to 20 on most marine instrument panels. An LCD screen for an optional depth gauge is built in.

## UV STABLE SUNBRELLA CANVAS

The stylish good looks of Four Winns boats are complimented by durable and beautiful color-coordinated Sunbrella canvas in a variety of available configurations. Quality features like reinforced seams, Velcro fasteners, large-tooth nylon zippers and ultra-violet protection enhance value. Installation of optional Sunbrella camper canvas (standard on Vista models) is made easier with port and starboard color-coding on the in-seams.

## THERE'S A CUSTOM TRAILER FOR EVERY MODEL

Four Winns manufactures the low-profile Sure Load™ trailers that are optional

on Vistas and standard on all other Four Winns models. Each trailer is custom fitted to the boat hull. Longitudinal bunks rest directly under boat stringers for maximum support. Each features heavy gauge tubular steel framing with a tough 2-coat polyurethane enamel finish that's color-matched to the boat hull (gray on Fling). A frame mounted jack stand and removable tongue make storage and maneuvering easier.

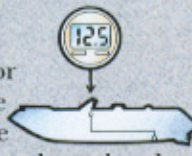

## OTHER OUTSTANDING FOUR WINNS VALUE FEATURES

Because Four Winns is a major exporter of boats to Europe where the saline content of seawater is many times greater than U.S.A. coastal waters, we have adopted the stiffer export standards for use on our domestic models.

The result is stainless steel hardware better fortified to guard against corrosion. Additionally, all hardware is through bolted and cinched tightly to metal back plates.

All Four Winns models except Freedom and Fling are prepared at the factory for depth sounder installation. The transducer with wire leads is molded flat against the hull surface for more accurate sounding. The depth gauge can be ordered as an option on the boat, or installed later by the dealer.

On Four Winns Stable-Vee models, the folding, deep-access, stainless steel swim ladder has generous, molded foot pads and extends into the water on an incline. This is an ergonomically friendly design that makes boat entry physically easier... especially for seniors and children.

Fling, on its standard, custom-designed Four Winns Sure Load™ trailer, is easily towed by most small cars.

Optional bimini top shades the cockpit.

With a standard 90-hp jet drive system, Fling offers plenty of muscle for skiing, tubing or kneeboarding.

## ALL-NEW FLING

**G**rab an assist handle and hang on for on-water excitement not restricted by short range and limited seating. Fling is a new kind of open bow that teams a Four Winns award-winning Stable-Vee™ hull with a 90-hp OMC Turbo-Jet™ drive system (115-hp opt.) for skiing, cruising and fishing fun in a package size that's easy to

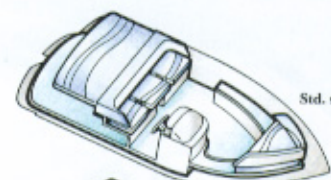

handle...both on the water and in the budget. The new Four Winns Fling beautifully fills the need for a versatile runabout that's a snap to operate...can be trailered behind most small cars...stows in the garage...and provides a family of four (or you and three friends) hours of affordable fun and thrills.

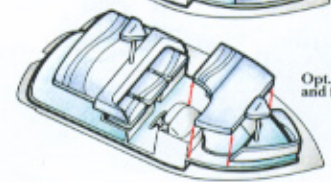

With an 8" draft and optional fishing seats, Fling is great for fishing the shallows where the big ones hang out.

Optional fill-in cushion converts the bow for lounging.

FOUR WINNS

*A small  
price to play...*

## 170 FREEDOM

The all-new 170 Freedom is Four Winns' lowest priced sportboat, yet its features and content put some pricier runabouts to shame. The award-winning Stable-Vee™ hull can be matched to OMC Cobra® stern drives up to a 4.3L V6, or Evinrude® or Johnson® outboards from 90 to 140 hp. The fade-fighting

Armorcote finish is available in 5 smart two-tone combinations. There's storage in the sidewalls, under the bow seats and in the floor ski-locker accessed by a wide molded lid. Models include a custom-fitted, color-matched Four Winns trailer, and the exclusive Winning Edge™ 5/2/1 Owner Protection Plan (IO models).

Outboard model offers Evinrude® or Johnson® power from 90- to 140-hp.

Full instrumentation is fitted in a visored housing for reduced glare.

Custom, color-matched Four Winns Sure Load™ trailer is standard.

big-water runabout.*

## 230 H O R I Z O N

**S**table-Vee and OMC Cobra® EFI power make the largest Four Winns bowrider ideal for family offshore day cruising. Molded Dura-Frame seats are bolted to anchored seat bases. Assist handles are strategically positioned throughout the cockpit. An extra-deep cockpit helps

keep the ride dry. Welded rails, cleats and other hardware are through-bolted and stainless steel. Jump seats at the stern are level with the engine cover to make a sun lounge. Sunbrella color-matched canvas options include a bimini top, full camper and a bow privacy canopy.

- Award-winning ■ Stable-Vee™ hull
- Concealed ■ convertible top
- Custom trailer ■
- Fade-fighting ■ Armorcote finish
- Premium sound system ■
- Anchor locker ■
- 3-tier sidewall storage ■

space vehicle benefits from  
new thinking.*

## 194/214 CANDIA

**F**our Winns Candia™ deck boats have always been popular with large families who take their fun on the water seriously. Now, a new optional cockpit layout makes Candia more enjoyable than ever. In the Sun Sport seating option, a single bucket seat at the

helm is surrounded by flowing contoured wrap-around seating from stern to bow... including an optional rear facing lounge to port. Optional cockpit galley offers a sink, cooler, and counter top. There's a choice of OMC Cobra® V6, V8 or V8 EFI stern drives.

## 235

# SUNDOWNER

**S**ome families shop big water cuddys by price...others features...still others style. The Four Winns 235 Sundowner rewards its value-conscious buyer with a blend of all three. Considering the lengthy roster of standard equipment with items that often cost extra on competitive models,

the 235 is surprisingly affordable. Feature combinations like an award-winning Stable-Vee™ hull design-matched to an OMC Cobra® EFI/V8 aren't available anywhere else. As for style...well, the accompanying lifestyle photo says it better than any collection of adjectives we can imagine.

## 238 VISTA

**L**ive-aboard cruising used to be out of reach for most families because the cost was out of sight. The all-new Four Winns 238 Vista, while under 24' in length, provides virtually everything you need for an extended stay on the water at an affordable price. A comfortable vee berth/dinette, galley, an

enclosed head, separate mid-cabin, Sunbrella camper canvas, depth sounder and premium sound system are all standard. A custom, color-matched trailer is optional. You can match the award-winning Stable-Vee™ hull to an available 5.0L V8 with multi-port EFI to enjoy performance that will rival many sportboats.

**On OMC Cobra® V8s with EFI,** a Spitfire EEM (upper left) system monitors vital engine functions and uses adaptive learning to constantly adjust fuel flow and idle to the operating environment. The system includes self diagnosis and a keep-alive memory that stores a "fail code" when sensors detect operational variances.

**100% cone clutch shifting.** The new generation OMC Cobra® power delivery system provides the considerable advantages of cone clutch shifting (lower right) on 4-cylinder, V6 and V8 OMC Cobra stern drives. A remote control cable connects directly to the shifter, eliminating the intermediate shift cable, providing smooth, quiet, uninterrupted gear changes.

**Evinrude® and Johnson® outboards** power Four Winns 170 Freedom™, 180 and 190 Horizon™ and 195 Sundowner™ outboard models. Power ratings from 90-hp to 175-hp are available depending on Four Winns model. 140-hp models and up feature electronic starting, an exclusive OMC S.L.O.W.™ overheat warning system and Teleflex hydraulic steering that makes handling a Four Winns outboard boat as easy as steering your family car.

**New OMC TurboJet™ jet drive.** The new, compact, Four Winns Fling family runabout is powered by a sophisticated OMC TurboJet engine with features not available on other jet drives. Oil injection is standard. Forward and reverse thrust is superior to competitive systems. An isolated mounting system dampens noise and vibration. For convenience, the impeller can be accessed from the water for easy clean out in seconds. Unlike other jet drives that steer in reverse opposite to the direction you want to go, OMC TurboJet steers traditionally, for greater safety and convenience. Only OMC TurboJet is available with up to 115 hp.

More EFI choices...  
100% Cone Clutch shifting... World's most popular outboards... All new jet drive.

# OMC POWER

**F**our Winns is one of a select few boat builders to offer OMC Cobra® V8 stern drives with multi-port electronic fuel injection and a sophisticated electronic engine management system. The muscular 270-hp 351 EFI joins the 5.0L and 5.8L EFI stern drives from OMC Cobra. For 1994, all stern drives are teamed with an advanced new

power delivery system that provides smooth, quiet cone clutch shifting. Four Winns new fleet of Stable-Vee outboard sport boats are powered by the world's leading outboard brands...Evinrude® and Johnson®. And the all new Fling is moved smartly by the latest innovative propulsion system from OMC... the TurboJet™ jet drive.

- Multi-port EFI ■ stern drives
- 100% cone clutch ■ shifting in all OMC Cobra stern drives
- Evinrude® or Johnson® ■ outboards available from 90 to 175 hp
- New OMC TurboJet™ ■ jet drive is available in 90 & 115 hp versions.
- Spitfire™ electronic ■ engine controls on OMC Cobra EFI and OMC King Cobra stern drives

- Hardened alloy steel drive shafts
- Forged, pattern-matched spiral bevel gears
- 13-step Deep Guard corrosion protection
- 3-year Owner Protection plan on Ford block engines\*
- Two-year Owner Protection all OMC Cobra® stern drives\*
- Low-profile, sidewall mount OMC engine controls

Low silhouette design is easy to tow and maneuver. Color-matching makes the sleek package more attractive.

The low profile, convenient positioning of the bunks and a frame-mounted roller makes drive off-drive on operations at the ramp simple for any helmsperson.

Single-axle trailer is included on Four Winns Freedom, Horizon and Sundowner models, 20' and under.

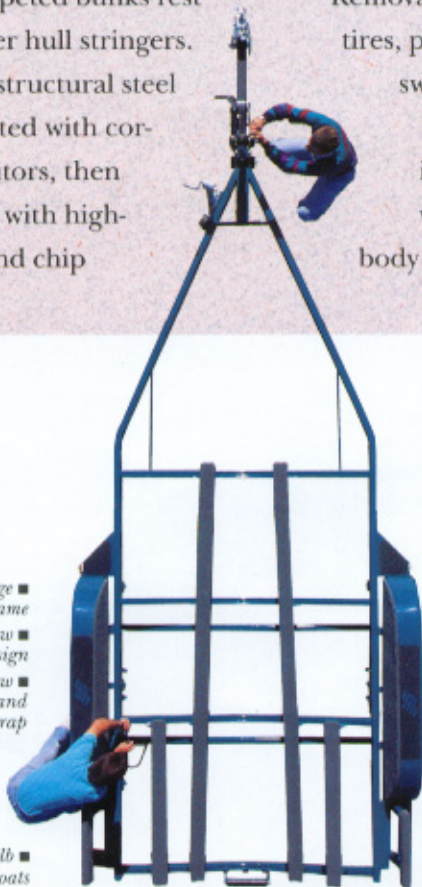

Easy towing, low silhouette  
Four Winns Sure Load™ trailers.

## SURE LOAD TRAILERS

We custom build a trailer for every Four Winns boat, and make it standard on all except Vista. Four Winns Sure Load™ trailers are design-matched to the hull. Carpeted bunks rest directly under hull stringers. The welded structural steel frame is treated with corrosion inhibitors, then coated twice with high-gloss, fade and chip

resistant polyurethane enamel color-matched to the boat.\* A low-profile promotes easy towing and simple drive-on, drive-off operation at the ramp. Removable tongue, radial tires, painted wheels and swivel jack stand are standard. Options include aluminum wheels, galvanized body and surge brakes†.

All-welded 11 gauge ■  
structural steel frame  
Easy on/off low ■  
profile design  
Winch with bow ■  
roller assembly and  
nylon strap  
Pivoting galv. ■  
jack  
All galv. 3500 lb ■  
class II hitch (boats  
under 20-feet)  
All galv. 5000 lb ■  
class III hitch (boats  
over 20-feet)

■ Detachable tongue  
■ Non-skid step pads  
■ Fender splash guards  
■ Carpeted bunks  
■ Protected light wiring  
■ Radial ply tires  
■ Sealed, submersible lights  
■ Sealed bearings  
■ Zinc chromate primer  
■ Fade and chip resistant,  
polyurethane enamel  
finish

A spare tire and sporty aluminum wheels are two of many options that can be added to most Four Winns Sure Load trailers.

The removable tongue can be handy for storage in limited spaces and is a nice security feature when the boat is stored outside.

Tandem-axle trailer is standard on Horizon, Candia, Sundowner and Liberator, over 20' and available on 238/258 Vistas.

† Grey trailer on Fling models.

\* Surge brakes required on multi-axle trailers.

## Options and standard features.

All Four Winns models are shipped factory-rigged, water-tested, cleaned, shrinkwrapped and ready for the water. Of the standard equipment included in the boat price, only the battery and the Johnson\* or Evinrude\* motor specified on outboard models is installed by the dealer. There are many applications a Four Winns boat can fulfill, so we offer a wide range of options and accessories designed to contribute comfort and convenience, extend utility, enhance value, and add to your enjoyment.

Many are shown below and listed on the chart to the right.

For a complete list, see your Four Winns Dealer.

Sun Sport stern couch expanded to recessed sun lounge, available Freedom/ Horizon/ Sundowner. Candia. (10 only).

(Clockwise) Halon Firebox; Compass; Swivel, high back bucket seats, available Freedom/ Horizon/ Sundowner. Included with Sun Sport seating. Standard Liberator; Fishing chairs available 170 Freedom Fish and Ski, 180 Horizon Fish and Ski, Fling.

Fish and Ski Includes 2 fishing chairs, electric trolling motor, removable side vents, available 170 Freedom/180 Horizon outboard models only.

Lowrance depth sounder, available Horizon/ Candia/ Sundowner. Std. Liberator, Vista (left). Engine hour meter, available Horizon/ Sundowner/ Candia/ Liberator/ Vista (10) (right).

Tilt steering wheel, available Horizon/ Sundowner/ Candia/ Liberator/ Vista.

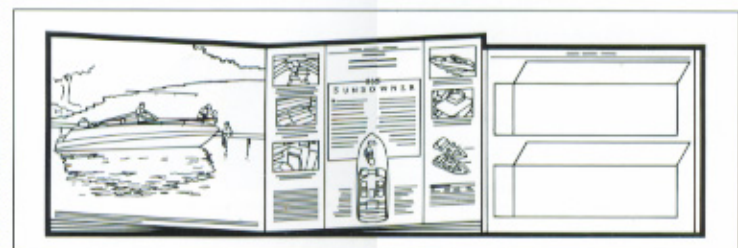

Bow fill-in cushions, available Freedom/ Horizon/ Candia.

### HOW TO USE THE FAST FEATURE FINDER SECTION OF THIS CATALOG.

The page to the right includes itemized listings of standard and available optional features for each

Four Winns model. This section is designed to fold out and be used in conjunction with the individual model pages in this catalog. Open the catalog to the pages pertaining to the Four Winns model you are interested in...then fold out the "Fast Feature Finder" section as indicated in the illustration below and review all the equipment included or available on that model. Use it also in comparing standard and available equipment between similar Four Winns models you might be considering.

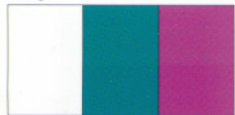

## Colors and Accents

The rich, deep, 100% Armorcote finish on all Four Winns boats is available in Red, Teal, Navy, Burgundy and Sea Foam. Two-tone is standard on all models except Freedom, Liberator and Fling.

Two-tone is optional on Freedom. Fling is available in white with either Jade/Raspberry or Yellow/Purple accents. Liberator is available in White with Red, Teal or Sea Foam graphics.

## While you're comparing boats, compare dealers.

New for 1994! Sporty, 4-passenger Fling™ jet boat. Pages 6-7.

New for 1994! Freedom™ stern drive and outboard models...Four Winns lowest priced bowriders. Pages 8-9.

### Protect your investment:

Occasionally apply a good ■  
paste wax and hand rub  
to original sheen.

Use a mooring cover ■  
when boat is not in use.

Wash vinyl with a mild ■  
detergent and soft cloth.

Shampoo carpets...use spot  
cleaner on stubborn dirt...  
vacuum when dry.

Use diluted liquid ■  
detergent and a soft bristle  
brush on canvas.

One of the most important decisions you'll make while purchasing a boat for your family is selecting the right dealer...one who will sell you the boat at a fair price, back it up with service and support throughout your years of ownership, and take it in trade or help you sell it at replacement time. Those are the same traits we look for

in selecting Four Winns professional marine retailers to fill our world-wide dealer network. The Four Winns Dealer is our valued partner, helping us develop new features and models that will continue the Four Winns' leadership role as one of the world's most sought after and respected powerboat brands. **Give Your Family Our Best.**

- Frequently check fluid levels, hoses, belts and prop.
- Change oil every six months ...more often for hard use.
- Periodically check trailer running lights, surge brakes, springs, bunks, wheel bearings, jack assembly and tires.
- Wash trailer with soap and warm water.
- See your Four Winns Dealer regularly for continued boating enjoyment and satisfaction.
