Easy Does It

Imagine for a moment, the mid-morning sun, brilliant against a canvas of crystal blue. Imagine miles of glass flat water just begging for company. Imagine pushing the throttle forward and being on plane in an instant. You can't remember a smoother ride; it's like flying. The corners of your mouth transform into a smile. You and that stretch of glassy water become one. This is what carefree boating is all about.

It's really a simple equation. It's just you, nature and a great boat. A boat that's easy to own and fun to drive from a company dedicated to your total satisfaction. We build every boat as if it were a boat for us. We live, breathe and dream the boating experience every day. It's our passion. And we work hard to make sure that your passion is satisfied every time you unsnap the canvas or turn the key on one of our creations.

Four Winns has been a favorite of boaters since 1975. And for good reason. At Four Winns we believe in some very basic principles; craftsmanship, integrity and honesty. We believe quality still counts. And that building boats right is the only way. Not just once in awhile, but every time. The Four Winns emblem is our signature, our promise of satisfaction.

 **FOUR WINNS**[®]
BOATING MADE EASY[™]

We're shaping the future of boating today.

Patented Stable-Vee® hull

Four Winns holds many patents and has established breakthroughs in virtually every area of boat design and construction. Our revolutionary Stable-Vee® hull design is one example. Each running surface is designed for maximum efficiency and stability with sophisticated computer simulation technology. The new hull design becomes reality with an advanced 5-axis router that's incredibly accurate and fast.

5-axis mill router

Many of today's boat builders are trying all kinds of different hull designs looking for the perfect combination of responsiveness, stability and comfort that's been a Stable-Vee trademark for years. Don't be fooled by gimmicks, go with a proven winner – Stable-Vee. Our on-the-water test facility is one of the best in the industry. Here, we conduct a number of high stress test procedures designed to insure our products live up to the Four Winns promise.

Few other boat builders invest so much in understanding the nuances of boat design. At Four Winns, we take engineering leadership seriously.

Computer-aided design

Design team

Advanced technologies, processes and components help produce boats that are virtually carefree.

A great boat is the sum of a lot of parts put together by people who care. Few builders invest more in getting the details right than Four Winns. Structural components are milled on CNC machines with computer-controlled accuracy and repeatability that no human can match. Upholstery is cut on a two-axis Gerber™ cutting system, controlled digitally.

We invest in this level of technical support to meet the most stringent standards imaginable...yours.

CNC 3-axis fabric cutter

Deck overlay template that assures accurate part placement

All of our fiberglass parts feature Armorcote® gel coat. 100% of our parts. Few other boat builders do that. It costs more, but it's worth it. You receive a boat that's

protected against the weathering effects of wind, water and sun as much as 7 times longer than conventional gel coat. We'd want it on our boat. We make sure it's on yours.

Small details in our production processes add up to create superior durability in your new boat. Lightweight Starboard™ composite material is used throughout our manufacturing process, assuring you of long life and durability. All fasteners are driven into backing material for added

strength. Heavy-duty stainless steel ski eyes, cleats and bow and stern eyes are reinforced by aluminum backing plates and thru-bolted for added strength and corrosion resistance. Seating is double stitched and finished even in areas you'll probably never see.

Details like these might be missed by a casual shopper, but they're just some of the many reasons Four Winns boats

100% Armorcote® gel finish

continue to look great season after season... the reason your Four Winns retains a higher value when you decide to trade up.

VDO instrument module

Good people working to make boating easy.

Our reputation is on the line with every boat we build. At Four Winns, delivering quality is a way we view life. The way we view our commitment to you. Take our PDQ program – People Driven Quality. We place responsibility for creating ways to improve quality in the hands of those who know it the best.

hundreds of the people who build the product day in and day out. It works, and works well. Week after week, Four Winns employees create new ways of making our boats just that much better.

Making boating fun

It's easy to see why a Four Winns is the choice for comfort.

When you step aboard a Four Winns you'll notice an immediate difference. The wider beams and helm-forward design is evident in every boat we build from the 170 Horizon to the 328 Vista. The result is more useable space and added comfort. A Four Winns helm is renowned for its convenience. It's designed to accommodate large drivers or small with equal ease. Controls are positioned right where they should be.

Our boats are ergonomically designed

Bow areas are roomy and walk-thru's are wide. Companionways are easy to negotiate. Cabins provide passengers with exceptional space, light and ventilation. Seats are wide and comfortable. Storage areas are designed in, right from the start and sized to hold items typically used by boaters. These are a few of the real benefits of astute engineering...the ones that make boating more fun.

328 Vista cabin

We make trailering easy.

Your new Four Winns boat, engine and trailer are factory matched to make trailering easy. Every Four Winns Sure-Load™ trailer is matched precisely to the shape and contour of the hull. Something a third-party trailer can never do. The profile is low. A lower center of gravity means better handling and greater security while towing. And because we build the trailer to fit only our boats, trailer bunks fall directly below the stringers for maximum support. They actually help straighten the boat when loading or launch-

ing in cross winds or cross currents. Every trailer has a removable tongue which actually reduces the overall length and makes garage storage a lot easier. Whether you're a novice or a veteran, you'll find a Sure-Load trailer easier to use, making your Four Winns easier to enjoy.

Sure-Load trailer

We're our toughest customer.

Every Four Winns boat receives a stem-to-stern quality inspection before it leaves our plant. Depending on the size of the boat, this inspection can include as many as 100 individual points. Engines are run, systems are pressurized and each and every boat is thoroughly cleaned and detailed, inside and out. All the larger Vista models are actually hauled to our test center and "pre-commissioned" to make sure they perform as promised. It's this attention to detail that sets us apart from other builders and makes a Four Winns boat easier to own.

A lifelong commitment to make boating easy for you.

Our Winning Edge Limited Warranty™ sets the standard for what warranties should be. You'll enjoy five years on the hull structure, two full years on the Volvo Penta sterndrive engine, outdrives and drive components, and one year on all other boat systems and equipment. Best of all its transferable, making your Four Winns even more valuable when you want to trade up.

But what is behind the warranty that is even more important. Our commitment is to get you on the water as quickly as possible. One example is

Four Winns parts support. We continue to provide replacement parts...even long after that model is out of production. That's unusual in the boat business, but it's a fact you'll appreciate years or even decades from now.

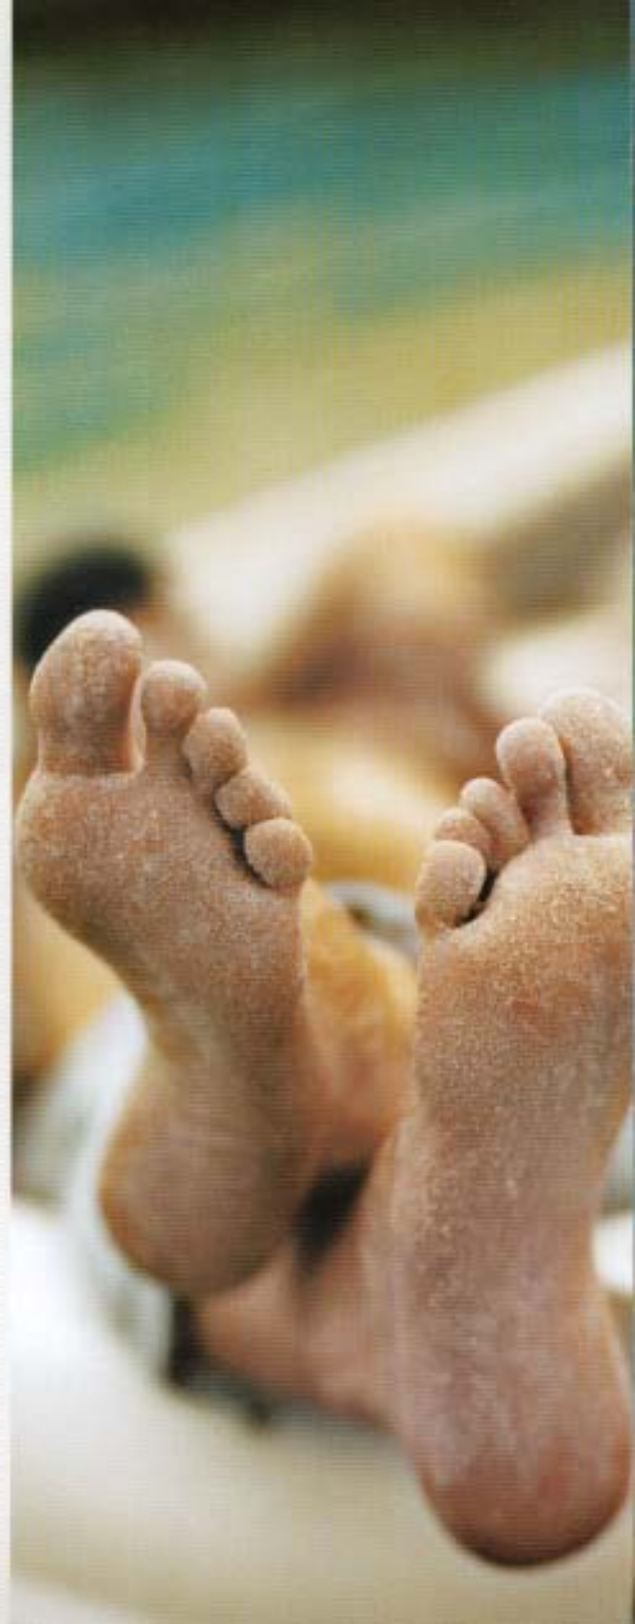

Service documentation, toll-free Careline phone support and outstanding Four Winns Dealer technical training are without equal. These factors may not be apparent to you in the show room, but will be important to you if you ever need service support.

Each is one more step toward ensuring your complete satisfaction.

We want you as a customer. And more importantly, we want you as a customer for life. We don't believe anyone makes

buying, owning or operating a boat easier than Four Winns and our team of professional marine retailers. Boating is our passion. We can help

you make it yours. Because at Four Winns, boating made easy is more than a slogan, it's our promise.

170 LS AND 170 HORIZON

170 LS

170

170 LS

Stern seat with pull out couch means more room to stretch out and catch some rays.

Designs you'll love. The port console with built-in cooler and glove box.

Tuck away your boat gear in the stern seat storage area.

Integrated VDO module with complete instrumentation, plus built-in depth finder, clock and shallow water alarm.

170

Useful space abounds. The port console features a top-loading cooler for convenience and cool beverages.

Easy-to-read VDO gauges mean you're a quick glance away from all needed readouts. Standard stereo for your listening enjoyment.

Horizon ski lockers accommodate even the widest knee-board. Removable carpet, an elevated floor and an integrated drain keep your equipment clean and dry.

Standard seating shown at right. (Optional SunSport seating shown on opposite page).

Optional SunSport seating shown at left. (Standard seating shown on opposite page).

S P E C I F I C A T I O N S

LDA (ft/m) 18'6" / 5.63 m

Beam (ft/m) 7'6" / 2.29 m

Fuel Capacity (gal/l) 24 gal / 91L

Person Capacity 7

Maximum Capacity (lb/kg)

1150 lbs / 522 kg

Draft, Drive Down (ft/cm) 30" / 76 cm

Boat/Engine Weights (lbs/kg)

1560 lbs - 2190 lbs / 694 kg - 993 kg

There's nothing like cruising across the water in an open bow Horizon. The wind in your hair, the fresh air filling your lungs and the pure exhilaration in your heart.

170 HORIZON OB

These features are part of the optional Fish & Ski package

From the forward control center, you can operate the removable, electric trolling motor and tilt the outboard in and out of the water.

Twin stern seats convert in seconds to pedestal fishing chairs.

Livewell is nestled beneath the removable port stern seat. Full circulation keeps your catch, or live bait, alive and healthy.

Outboard available in Standard or SunSport seating. SunSport seating shown at right. (Optional Fish & Ski package shown above).

S P E C I F I C A T I O N S

Fuel Capacity (gal/L) 38 gal / 144L

Person Capacity 9

Maximum Capacity (lbs/kg)

1450 lbs / 658 kg

Draft, Drive Down (in/cm) 32" / 81 cm

Boat/Engine Weights (lbs/kg)

1500 lbs - 2710 lbs / 1180 kg - 1230 kg

Catch some rays then let your hair whip in the wind as you ride atop the water. You never run out of excitement. There's always more to explore across the next channel.

200 HORIZON

Just by looking at the details of the controls, like standard tilt steering wheel, compass, and depth finder, you know you're at the helm of something special.

Our deep-reach, angled ladder makes for sure-footed, simple boarding and stows away neatly when not in use.

Optional adjustable flip-up bolster on all Horizons and Sundowner models over 20 feet, and 234 and 254 Candia.

Swivel seats rotate and adjust fore and aft for optimum versatility.

Standard seating shown at right. (Optional SunSport seating on opposite page).

S P E C I F I C A T I O N S

1950 lbs / 884 kg

Draft, Dnee Down (ft/cm) 35" / 89 cm

Boat/Engine Weights (lbs/kg)

3250 lbs - 3400 lbs / 1470 kg - 1550 kg

Romance can be a sunset with the sound of the gentle lapping of the waves against the boat. Or maybe it's a single quiet moment at the end of the day, when all is right with the world.

240 HORIZON

Wide Beam design means more room to relax and work on your tan.

A roomy, enclosed head is a convenient feature on a boat of this size.

A built-in canted lounge in the bow provides a natural place to relax.

Optional U-wrap seating shown at right. (Optional SunSport shown on opposite page. Standard seating features back-to-back seating).

S P E C I F I C A T I O N S

 - Spare tire and wheel
 - Spare time and wheel - aluminum or galvanized
 - Wheel, aluminum (each)
- † DuoProp® includes stainless steel propellers.

245 SUNDOWNER

HULL/DECK

100% Armorclote® finish
Anchor locker
Notch in lid for line
Overboard draining
Anti-skid deck
Bow & stern eyes, stainless steel
Bow rails, through bolted, stainless steel
Cleats, stainless steel, four bolt (6)
Engine vents, transom mounted
Graphics standard
Wave (no charge option)
Hatch, white translucent
Opening port lites with screen (4)
Ski tow, stainless steel

Stable-Vee® hull

Swim platform, integrated, anti-skid
Assist handle
Ladder, angled, deep reach, concealed

Two tone hull

Windshield with walk-through
Full aluminum framed safety glass
Stainless steel supports

CABIN

Back rest converts to V-berth fill-in
Dual bi-fold doors

Porta potti

Lights, bullet
Removable companionway door
Speakers (2)
Storage

Beneath V-berth cushions
Shelves behind backrests
Vinyl headliner

COCKPIT

Cooaming boards, composite construction
Built-in lockable glove box, port
Built-in arm rest, port and starboard
Integrated speakers

Courtesy lites
Drink holders (4)

Engine compartment

All composite construction
Fiberglass motor hood, insulated
Gel-coated bilge

Fiberglass liner w/snap-in carpet

Anti-skid floor
Port console
Cooler, insulated, overboard draining
Passenger assist handle(s)

Seating

Two adjustable back-to-back loungers
Double wide lounger, port
Duralframe construction
Kick up head rests in lounge position

Speakers (2)

Storage
Hidden top storage
In-floor ski locker
Hinged lid
Large enough for skis and knee boards
Multi-level side wall construction
Under back-to-back lounger

HELM AREA

Compass

Emergency engine shutoff
Lighted switches
Receptacle, 12 volt
Steering, soft touch wheel

Tilt wheel

VDO instrument module
Depth sounder/dock
Fuel gauge
Oil pressure
Speedometer

Tachometer
Temperature gauge
Trim gauge
Volt meter
Warning lights and audible alarms
High engine temperature
Low fuel
Low oil pressure
Shallow water
Wood grain accents

SYSTEMS

Battery - Interstate
Bilge blower
Bilge pump, automatic
Depth sounder/clock
Electric horn
Power steering
Power trim-tilt
Stereo cassette with speakers
Wire harness

CANVAS

Bimini top
Clear front wind screen
Stainless steel top hardware

TRAILER

Sure-Load™ custom matched trailer
Brakes, surge
Integrated step pads
Keel rollers
Radial Tires

Removable tongue

Submersible lighting
Tie-down straps (3)
Tongue jack
Treated bunks, carpeted (4)
Treated side guides, carpeted
Welded tube construction, 11 gauge
Welded winch post
Tandem axle

Storage

Beneath V-berth cushions
Shelves behind backrests
Vinyl headliner

Power Options

- 5.7 G/SX 250 hp
- 5.7 G/DuoProp® 250 hp†

VOLVO PENTA

STERNDRIVES

The world class propulsion technology of Volvo Penta is an integral part of every Four Winns boat and a big reason why a Four Winns is easier to own and operate.

Volvo Penta sterndrives feature engineering advances like cone clutch shifting for smooth, positive shifts and unmatched durability. They pioneered the Duo-prop, which delivers outstanding performance with exceptional control. And Volvo Penta quality is second to none – each sterndrive is backed by a standard two-year factory warranty.

If you should ever have a problem, Volvo Penta provides their owners with a membership to Volvo Action Service. This Service provides a 24-hour, 365 days a year toll free contact number — 1-800-33-PENTA for assistance with technical and parts support anywhere in North America. Volvo Penta and Four Winns are the choice of boaters who demand performance with peace of mind — in other words, boating made easy.

Volvo Penta and Four Winns are the choice of boaters who demand performance with peace of mind – in other words, boating made easy.

JOHNSON & EVINRUDE OUTBOARDS

World famous Evinrude® and Johnson® outboards are the easy choice for performance, dependability and value. Evinrude technology is in a class by itself – Ficht® fuel injection delivers all the acceleration, speed and power of a conventional two-stroke engine with the fuel economy and quiet operation of a four-stroke. Johnson is the outboard brand boaters have trusted since 1921. They offer advanced carbureted engines with exceptional reliability and performance.

COLOR OPTIONS

Color choices include: White, White with Red, White with Sand, White with Green, White with Black and White with Navy.

White

Red

Sand

Green

Black

Navy

TRAILERS

With Four Winns, you get a complete boating package. We manufacture not only boats, but the trailers that carry them. We are one of the few who do.

Only SureLoad trailers provide extras like fully-welded, 11-gauge tube steel construction because we want your trailer to last. Bunks fall directly below the stringers for optimum support, and profiles are low because we want your trailer to be easy to lead.

CANVAS OPTIONS

All factory-installed color-matched canvas configurations are custom sewn and hand fitted on every individual boat to provide a tailored look. Available configurations vary from model to model. Talk to your Four Winns Professional Retailer for details.
