FOUR WINNS

THE GREAT LAKES...
 AMERICA'S
 SWEET WATER SEAS...
 AND FOUR WINNS IS
 EVERYWHERE.

THE GREAT LAKES PROFILE:

11,200 MILES OF COASTLINE. 97,000 SQUARE MILES OF WATER SURFACE. BORDERED BY 8 U.S. STATES & ONTARIO, CANADA. HOME TO 43 MILLION NORTH AMERICANS AND 4.7 MILLION REGISTERED PLEASURE BOATS.

All Four Winns boats are designed for maximum family-oriented enjoyment. The symbols below represent typical boating activities. Look for them on the series pages as a quick reference to boating lifestyle.

-  Well-suited for daytime water activities.
-  Cuddy cabin provides sleeping accommodations.
-  Can be equipped for extended cruising.
-  Two waves: Suitable for protected waters.
 Three waves: Suitable for open water.
 Four waves: Suitable for off-shore cruising.
-  Trailerable boat, ask your dealer for towing regulations that apply in your state or province.
-  Suitable for skiing and other water sports.
-  Suitable for fishing.

Welcome to the boating lifestyle, 1992. This year, Four Winns is proud to share the introduction of its new models with a tribute to the Great Waterways of North America. As a leading global producer of family pleasure boats, we can attest that water recreation is a passionate pursuit in every hemisphere. But while other parts of the world can also boast of exotic ports, scenic rivers, snug harbors, and fetching lakes, no other continent offers the abundant water resources of North

America. And no region on earth is as bountifully blessed as the Great Lakes.

It's fitting that our waterways celebration begins with North America's "sweet water seas." The Great Lakes region is home to Four Winns (Cadillac, Michigan) and its parent company, Outboard Marine Corporation (Waukegan, Illinois) – the world's leading provider of marine propulsion systems.

Our trailerable Four Winns Vista models, Sundowner™ and Liberator® offerings, graceful wide-body express cruisers, and Quest™ by Four Winns advanced offshore fishing instruments are designed to confidently ply the big blue waters of

Superior, Michigan, Huron, Erie and Ontario. While our Four Winns Freedom and Horizon™ runabouts and Candia® deck boats are ideally suited for the tens of thousands of lakes and countless navigable rivers and streams that make up the Great Lakes waterway system.

So enjoy the Four Winns models presented herein. And let the dream of exploring the wonderfully varied waterways of North America inspire you and your family to participate in the adventurous and satisfying boating lifestyle...

Give Your Family Our Best.

FOUR WINNS

LAKE TEXOMA
RESERVOIR...

FREEDOM FOR FAMILIES
TO ROAM...IN A
FOUR WINNS FREEDOM.

LAKE TEXOMA PROFILE:

89,000 ACRES OF WATER SURFACE...580 MILES OF SHORELINE...CENTRALLY LOCATED 75 MILES NORTH OF DALLAS,
100 MILES SOUTH OF OKLAHOMA CITY...9 MILLION ANNUAL VISITORS...10,000 REGISTERED PLEASURE BOATS.

Just 75 miles north of Dallas, Texas, on the Texas/Oklahoma border, the impounded waters of the Red River form Lake Texoma, an 89,000 acre water recreation paradise that provides relaxation and joy for more than 9 million visitors yearly.

Many Four Winns Freedom models can be counted among the 10,000 registered craft, and thousands of other boats that are trailered annually

to the Lake and launched at one of more than 80 ramps servicing the waterway.

Marina facilities are superb on both the Texas and Oklahoma sides. The fishing is legendary. Scenic coves and inlets abound along the 580 mile shoreline. One can always find cool, flat water for skiing or tubing among the innumerable protected bays. And there's sure to be a carnival, bazaar, cook-off, ugly contest or other delightfully wacky celebration on any given weekend in one or more

of the friendly Lake Texoma resort communities.

A bowrider like the Four Winns Freedom is a favorite configuration for Texoma boaters. It's an ideal first boat for the young family, with plenty of room for water action gear, a stylish and contemporary silhouette, and the reassurance of the exclusive *Winning Edge*SM Owner Protection Plan.

* Ask your dealer for details.

180 FREEDOM

180 FREEDOM, I/O, SS, CB

ONCE AGAIN, FOUR WINNS FREEDOM IS ONE-OF-A-CLASS.

The Four Winns Freedom has always been an ideal boat/motor/trailer value for the first-time sport boat buyer. Other name brands have tried to follow our lead, but we've stayed a step ahead by refining and expanding the original Freedom concept.

Now it's quantum leap time as we bring forward the most spacious, detailed and complete Four Winns Freedom ever. New 180 stern drive and out-board models offer nearly 7" more space between

the sidewalls. Bow seating is roomier, too. Carpets, colors and vinyl are new. New seating includes back-to-back loungers with built-in lumbar support. Floor ski storage access is larger. There's a stylish new wraparound windshield. Carpeted anchor storage is included beneath the bow seat. And an expanded option list includes V-6 stern drive power and a smart SS (sun sport) seating package.

R

LAKE MEAD NATIONAL RECREATION AREA...

SPECTACULAR
BOATING ON EVERY
INTRIGUING HORIZON.
(Pun Intended)

LAKE MEAD AREA PROFILE:

850 MILES COMBINED SHORELINE. 726-FOOT HIGH HOOVER DAM IS ONE OF THE TOP U.S. TOURIST ATTRACTIONS. 9 MILLION PARK VISITORS ANNUALLY... 30% OF THEM BOATERS.

One of the favorite water recreation areas for Four Winns family boaters in the southwestern U.S. is the Lake Mead National Recreation Area which includes Lake Mead, Lake Mojave, and a spectacularly scenic stretch of the Colorado River.

Lake Mead, the largest man-made body of water in the Northern hemisphere, was formed by the Colorado River overflow created when the

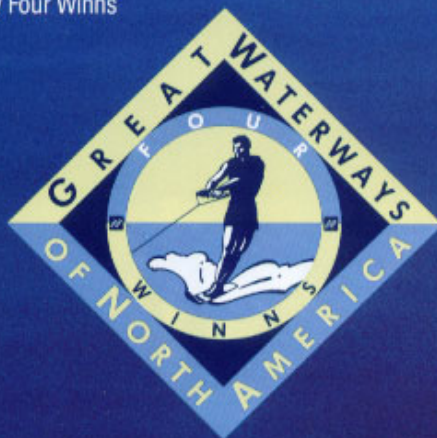

colossal Hoover dam was completed in 1935, in Black Canyon, on the Arizona/Nevada boundary.

Lake Mojave was carved by the relentless Colorado, boring its way through the rugged mountainous terrain to the south. Together, Lakes Mead and Mojave, and the Colorado River which connects them, offer 850 miles of enchanting shoreline to entice boaters from Southern California, Arizona, Utah and Nevada.

It's always boating season in the temperate climate of the Southwest. Sporty Four Winns

runabouts are regular visitors on these sun-blessed waters from January through December.

A sleek newcomer like the Four Winns 190 Horizon bowrider is, perhaps, the ideal craft for the boating family in search of skiing, fishing and cruising adventures that have become part of the allure and legend of the beautiful Lake Mead National Recreation Area...one of the Great Waterways of North America. 

190 HORIZON

220 HORIZON, SS

**FOUR WINNS HORIZON...
NEW MODELS, NEW
POWER, NEW COLORS,
NEW FEATURES,
NEW VALUE.**

YOU OWE IT A LOOK.

Our most popular series has an elegant new member...the striking 190 Horizon™ (shown p. 7-8) joins the 200 and 220 to give sportboat fans more variety, quality, room and choice. Bow seating is exceptionally generous. As with all Horizons, storage capacity is phenomenal...in the 3-tiered sidewalls, with new access to the stern sidewalls on models with standard seating...beneath hinged bow seats... and in the underfloor ski locker with an opening

big enough for kneeboards too.

There's new 351 CI OMC King Cobra® stern drive power available on 200 and 220 models. Johnson® or Evinrude® outboard powered versions of the 190 and 200 feature wraparound cockpit seating that's easily removed to provide an open stern cockpit for fishing or entertaining. New welded stainless steel rails and an anchor locker with molded anchor well add to Horizon's reputation for value.

LAKE OF THE OZARKS... PLENTY OF SPACE FOR THE "SPACE VEHICLE"... FOUR WINNS CANDIA.

With 60 years of experience as a water recreation destination, Lake of the Ozarks has earned a reputation as a premier family boating center.

Some 35,000 pleasure boats annually ply the waters in *The Land of the Magic Dragon*, formed in 1929 when a utility company dammed the

Osage River in central Missouri. Don't worry about boating congestion. With 61,000 acres of water surface and 1,300 miles of wooded shore there's space for all.

The roomy and powerful Four Winns Candia™ deck boat is the craft of choice for many Ozark visitors. It combines the performance of a sport boat, the utility of a fishing boat and the comfort and convenience of a pontoon boat in a stylish package including OMC Cobra® stern drive and custom Four Winns Sure Load™ trailer.

OZARKS PROFILE:

61,000 ACRES OF WATER SURFACE. 1,300 MILES OF SHORELINE.
CENTRALLY LOCATED 175 MILES FROM KANSAS CITY AND ST. LOUIS.
3.2 MILLION ANNUAL VISITORS. ACCOMMODATES MORE THAN
35,000 PLEASURE BOATS ANNUALLY.

The 1000 Island Profile:

200 MILES OF SHARED COASTLINE (U.S./CANADA). TRAVERSED BY A FIVE-SPAN INTERNATIONAL BRIDGE.
HOME TO 1.8 MILLION NORTH AMERICANS AND 400,000 REGISTERED PLEASURE BOATS.

THE THOUSAND ISLANDS...

AN IDEAL BACKDROP FOR
FOUR WINNS' NEWEST,
MOST AFFORDABLE
CUDDY.

The same waters that bring joy to Four Winns owners and millions of family boaters in North America's Great Lakes Region flow through the lower lakes of Erie and Ontario to eventually inspire marine enthusiasts along the 200 mile freshwater coastline of the Thousand Islands Seaway Region, in the St. Lawrence River, separating Ontario, Canada and New York State.

The boating season begins in late May with a waterfront parade of area craft at Alexandria Bay,

New York, and the christening of another "safe boating season in the Thousand Islands" by the pastor of St. Cyril's Church. In early September, the "Parade of Yachts," also at Alexandria Bay, traditionally closes the season.

Between these pageants, a plethora of on-water and waterside activities beckons the Four Winns boating family...the "Poker Run" from Kingston to Brockville, Ontario, arts & craft bazaars, farmer's markets, flea markets, concerts, ethnic festivals, antique boat shows, regattas, offshore powerboat races, fireworks, hot air balloon events...to say

nothing of summertime celebrations for National, State and Provincial holidays of the U.S. and Canada.

The Thousand Islands present a perfect backdrop for the introduction of the 195 Sundowner™... Four Winns' newest, most affordable cuddy...a spacious, comfortable, well-appointed platform from which boating families can experience and appreciate one of the fabled scenic waterways of North America. 

195 SUNDOWNER

205 SUNDOWNER, 1/0

FOUR WINNS INTRODUCES AFFORDABLE ELEGANCE IN A FAMILY CUDDY.

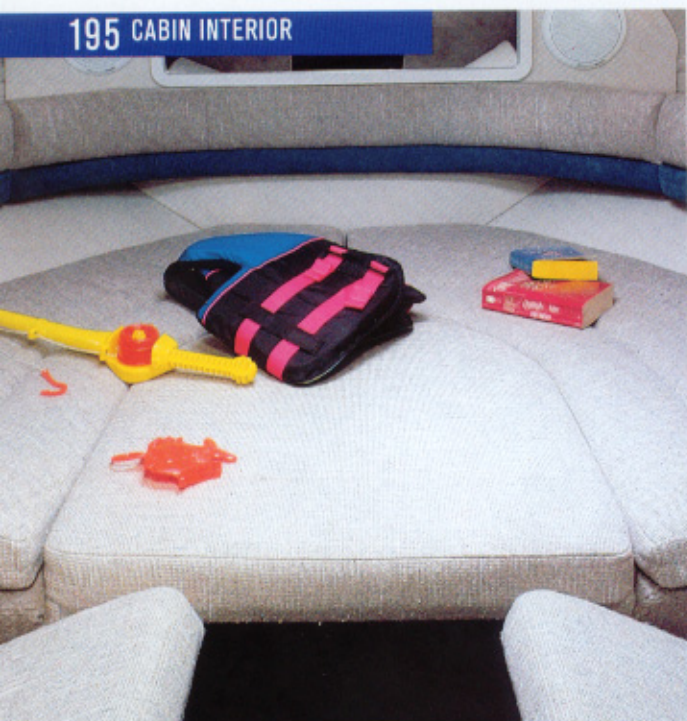

Have you and your family looked at Four Winns Sundowner™ lately? We've got your cuddy. There's an elegant, affordable, full-featured, new 195 (shown p. 13-14) that provides more cockpit space than any 19-footer we've ever built. Canted cabin seating (more headroom) converts to a roomy vee-berth.

The 195 and popular 205 Sundowner (as well as the 225 and 255 Sundowner described and shown on pages 17-20) are covered by the *Winning Edge*™

Owner Protection Plan.* Both include a walk-through windshield for easier access to the deck and anchor locker, and a standard Four Winns Sure Load™ trailer with removable tongue.

Sundowner has always been a family pleaser. Now with new, more durable and colorful cockpit vinyl, new seating with built-in lumbar support, and stylish new helm and passenger consoles, there's more value and convenience than ever.

THE INSIDE PASSAGE— BRITISH COLUMBIA...

FOUR WINNS SUNDOWNER ADVENTURES ON THE SUN COAST OF CANADA.

INSIDE PASSAGE PROFILE:

4,350 MILES OF MAINLAND COAST. 11,000 NAVIGABLE RIVERS AND STREAMS. 6,000 FRESHWATER LAKES.
30 MARINE PARKS. MODERATE CLIMATE PERMITS YEAR-ROUND BOATING. 8.9 MILLION VISITORS ANNUALLY.

leisure boaters from all over the world aspire to cruise the peaceful and spectacularly beautiful Inside Passage. This sheltered marine waterway along the coast of British Columbia offers access to every imaginable marine adventure...stunning fjords...soaring snow-capped mountains...desert isles...pristine fresh water lakes...and snug harbors rimmed by verdant forests and sun-washed beaches.

The Four Winns 225 (shown here) or 255 Sundowner™ provide an ideal platform for this unique aquatic undertaking...big enough for the challenging blue waters of the Georgia, Johnstone and Queen Charlotte Straits, yet conveniently sized for exploring the myriad of tidal waterways and inlets that permeate the British Columbia coast.

More than 30 coastal marine parks provide marine essentials, and several excellent full service marinas are in proximity. Many family boaters also appreciate the easy access to the shopping, enter-

tainment and fine dining available in Vancouver on mainland British Columbia, and in Victoria, the provincial capital, on Vancouver Island.

The aquatic wonders of super, natural British Columbia...all within reach of the adventurous boating family with an elegant, trailerable Four Winns Sundowner. 

225 SUNDOWNER

255 SUNDOWNER

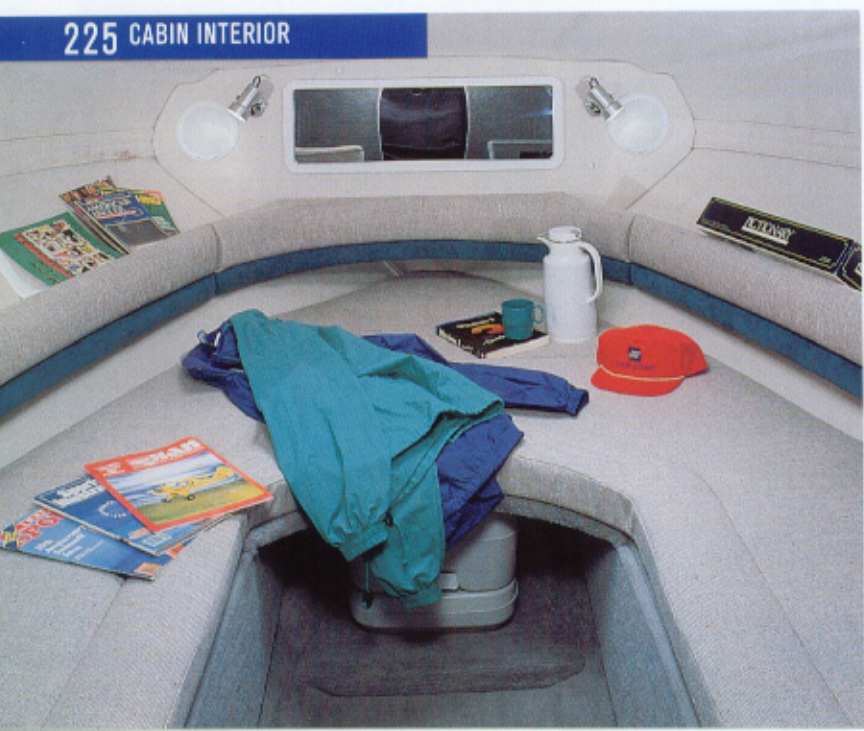

**225/255 SUNDOWNER...
REFRESHING NEW
EXPRESSIONS OF
AFFORDABLE
FAMILY CRUISING.**

The Four Winns 225 and 255 Sundowner™ big water cuddys boast several value-enhancing refinements. Newly designed cabins feature plusher cushions, new fabrics, and a new wraparound backrest to create a light and airy living space. New contoured cockpit seating offers built-in lumbar support.

On the 225, a new passenger console features an integrated cooler and covered storage compart-

ment or optional sink. The helm is new, providing more room and visibility. A walk-through windshield is standard, accessed by an optional step system.

New, more durable vinyl and carpeting, bold new color schemes, and improved storage access will help keep Sundowner the cuddy of choice for discriminating boating families.

**CHESAPEAKE BAY PROFILE:**

3,950 MILES OF COASTLINE. 4,400 SQUARE MILES OF WATER SURFACE.
PRIMARY BOATING SEASON MARCH TO NOVEMBER. HOME TO 6.7 MILLION PEOPLE AND 231,000 REGISTERED BOATS.

CHESAPEAKE BAY...
WHERE THE LIVING IS
EASY ON A FOUR WINNS
VISTA LIVEABOARD.

No more storied waterway in America invites the Four Winns recreational boater to explore the USA colonial and revolutionary past than Chesapeake Bay, the 200-mile long arm of the Atlantic that varies in width from 4 to 40 miles, as it runs north from Virginia dividing Maryland.

The historically-rich James and York Rivers drain into Chesapeake. So do 10 other major rivers, including the Susquehanna, the Bay's main

tributary, and the Potomac, which is navigable all the way to the nation's capital, Washington, D.C., and beyond.

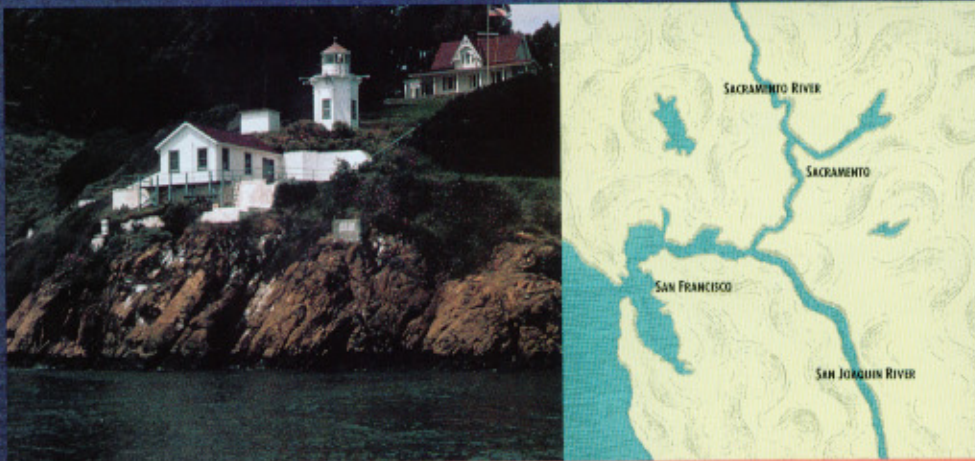

Virtually every water recreation opportunity extant is available. Boaters can avail themselves of excellent marina facilities, and shopping and dining opportunities in Annapolis, Baltimore, Norfolk, Portsmouth, and other major ports. Solitude is plentiful as well... among the beautiful sea islands of Virginia and among the countless estuaries and bays formed by arms and inlets that make up the nearly 4,000 mile Bay coastline.

One of the most gratifying ways to discover Bay country is by roomy and comfortable Four Winns 235 Vista with a well-stocked galley and surrounded by family or friends. Four Winns Vistas are fully trailerable, thoroughly livable, and totally suited to the relaxed approach that characterizes life on beautiful Chesapeake Bay. 

235 VISTA

**SACRAMENTO DELTA PROFILE:**

1,000 MILES OF NAVIGABLE WATERS, FED BY THE SACRAMENTO AND SAN JOAQUIN RIVERS. CALIFORNIA DEPT. OF WATER RES. EST. 23 MILLION USER DAYS ANNUALLY. 400,000 REGISTERED BOATS IN A 100 MILE RADIUS.

THE SACRAMENTO DELTA REGION...

A PLACE TO ENJOY
A WHOLE NEW VISTA
IN TRAILERABLE
FAMILY CRUISING.

Four Winns boaters who live down south in San Diego or up north in Crescent City go to the same place for the best boating in California...the Sacramento Delta Region. The Delta consists of a huge network of sloughs, canals, creeks, streams and rivers that flow all the way to San Francisco Bay. Chief tributaries are the Sacramento and San Joaquin Rivers.

Name the on-water activity and it's all there for the Four Winns family boater in the Delta...skiing

in the cool, quiet waters of a protected slough (backwater)...port hopping from Petaluma to Sausalito to Alameda...sight-seeing among the high cliffs in the Carquinez Straits...exploring the mothballed U.S. Navy fleet in Suisun Bay...or fishing anytime, anywhere along the Delta's more than 1,000 navigable miles.

Enjoying the Delta with your family or friends from a Four Winns 265 Vista cruiser provides a wonderful perspective, as well as lots of comfort and convenience. With living accommodations for four below deck in the well-planned salon and

separate mid-cabin, one can overnight at any of several marinas where slip prices are still an affordable \$5 to \$15.

It gets even more reasonable, and friendlier, when you layover at one of hundreds of available anchorages...where you might meet another Four Winns boating family from San Diego, Crescent City, or between. 

265 VISTA

235 MID CABIN BERTH

235 CABIN INTERIOR/GALLEY

HOW DO YOU CHANGE A SUCCESS STORY LIKE FOUR WINNS VISTA? VERY CAREFULLY.

Four Winns Vista families like their boats. So rather than change for the sake of change we added the refinements our owners asked for...like softer, shaplier new cabin seating and sleeping areas done in rich new fabrics.

We added quality and value we knew they'd appreciate...like new expanded vinyl upholstery and trim that feels and looks more like leather. And new thicker, cut pile, ultraviolet stable, stain-

resistant carpeting.

We added bright new gelcoat colors for a fresh appearance. And we changed cockpit seating in the 235 Vista to make it more convenient and useful.

Aside from that, the Four Winns 235 and 265 Vistas remain what they've been since their introduction...two of the most stylish, comfortable and complete trailerable family cruisers available.

Cockpit seating, cabin int. (235 shown)

Cockpit seating, cabin int. (265 shown)

THE INTERCOASTAL WATERWAY... FROM MAINE TO THE FLORIDA KEYS...IT'S LIBERATOR TERRITORY.

THE INTERCOASTAL PROFILE:

1,200 MILES IN LENGTH. LESS THAN 90 MILES EXPOSED TO THE OPEN SEA. PASSES THROUGH 14 STATES. JOURNEY BY 18- TO 26-FOOT PLEASURE CRAFT IN 10 TO 14 DAYS. HOME TO 3 MILLION REGISTERED PLEASURE BOATS.

The Intercoastal is a unique, protected water highway connecting all the States on the eastern seaboard, from Maine to the Florida Keys... an amazing network of canals, rivers, sheltered bays, and coastal waters shielded by barrier islands. Less than 90 of the more than 1,200 miles that comprise the Intercoastal Waterway are exposed to the open sea.

For many living along the U.S. East Coast, boating on the Intercoastal is a way of life. Four Winns

boaters who use the waterway participate in a wide range of activities including fishing, skiing, diving, sight-seeing, and touring. Even an occasional business commuter sometimes finds the Intercoastal less stressful than their local stretch of Interstate.

A Four Winns boating family could travel the entire length of the system in under two weeks choosing from a great variety of on-water accommodations ranging from living aboard in transient slips at public docks, to well-developed marina facilities connected to "boatel" dining and shopping complexes.

Sporty Four Winns Liberator® performance models, like the popular 201 and new 221 designs below, will be observed in many regions of the Intercoastal. They're especially adapted for the Florida segment, where high-profile, sophisticated lifestyles mirror the adventurous personality of the sleek Liberators.     

201 / 221 LIBERATOR

251 LIBERATOR

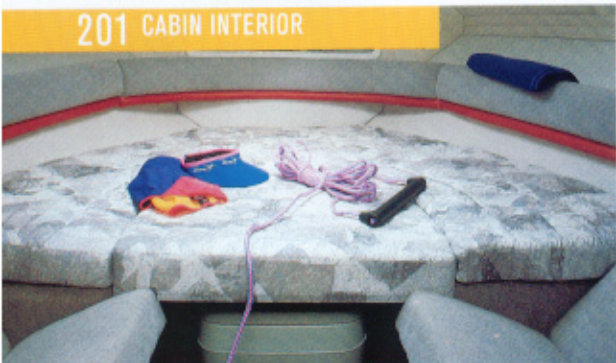

LIBERATOR PRESENTS A TOTALLY NEW WAY TO LOOK AT PERFORMANCE BOATING.

Liberator watchers will note some subtle but significant changes in their favorite performance boat. For starters, the smart new deck on the 221 Liberator® makes the family resemblance more obvious than ever. A tasteful new two-tone gelcoat treatment combines with fresh graphic accents, adding poise and sophistication to the rakish Liberator silhouette.

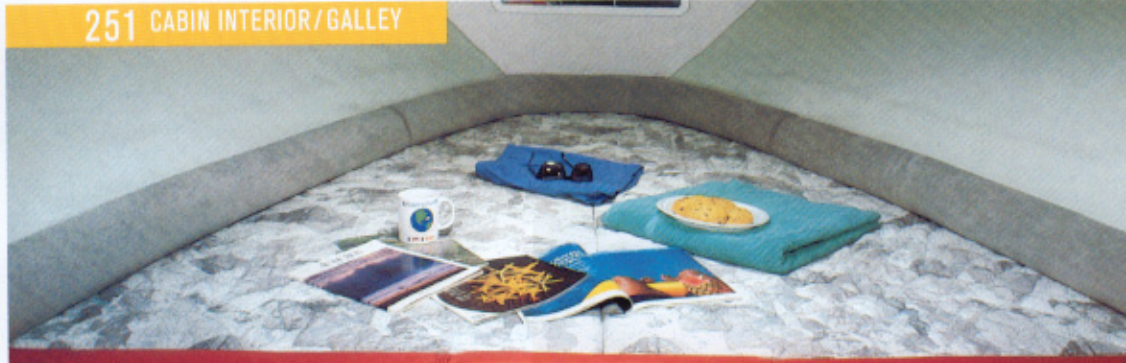

The cockpit reflects the refined spirit of the exterior. A new contoured stern couch features

headrests at each seat position. Thickly bolstered new bucket seats cradle driver and passenger. VDO instrumentation dominates the impressive helm. And a broad, low-profile sundeck conceals power choices ranging up to the intimidating 502 CI OMC King Cobra® V-8 on 221 and 251 models.

THE POWER OF OMC.

Unlike many other boat brands, manufactured to accept various sized power packages from several engine makers, each Four Winns model is design-matched to proven powerteams from Outboard Marine Corporation, a world leader in the engineering and development of marine propulsion systems and technology.

OMC Cobra® and OMC King Cobra® 4-cylinder,

V-6 and V-8 engines, OMC power delivery systems, and OMC engine controls are the Systems-Matched® components of stern drive powered Four Winns boats. The Cobra series of engines and outdrives has continuously evolved since its introduction in 1984 to provide ever-improving reliability and performance suited to the boating lifestyle of the Four Winns family boater. This year, two muscular V-8s join the formidable OMC King Cobra line...the 351 CI at 285 crankshaft HP and the 502 CI boasting 420 crankshaft HP.

Johnson® and Evinrude®, the world's best-

known, best-selling names in marine propulsion, provide exhilarating performance for outboard powered Four Winns models. Inventive technology like loop-charging, VRO™ oil injection, "lost foam" powerhead casting, and the new OIS 2000™ optical ignition system keep OMC on the leading edge of outboard engineering.

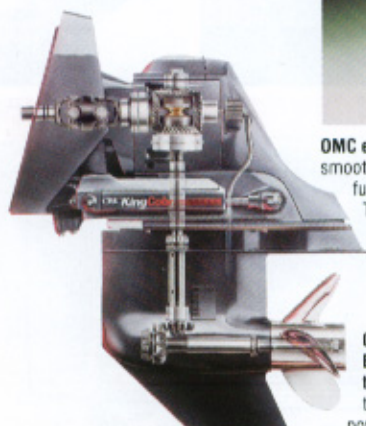

The revolutionary new 150-HP Johnson Spitfire™ and Evinrude Silverstar™ series utilize microchip technology to provide enhanced performance and operating efficiency in a package that's

Design-matched OMC power gives Four Winns an advantage in engineering hulls to meet specific performance parameters.

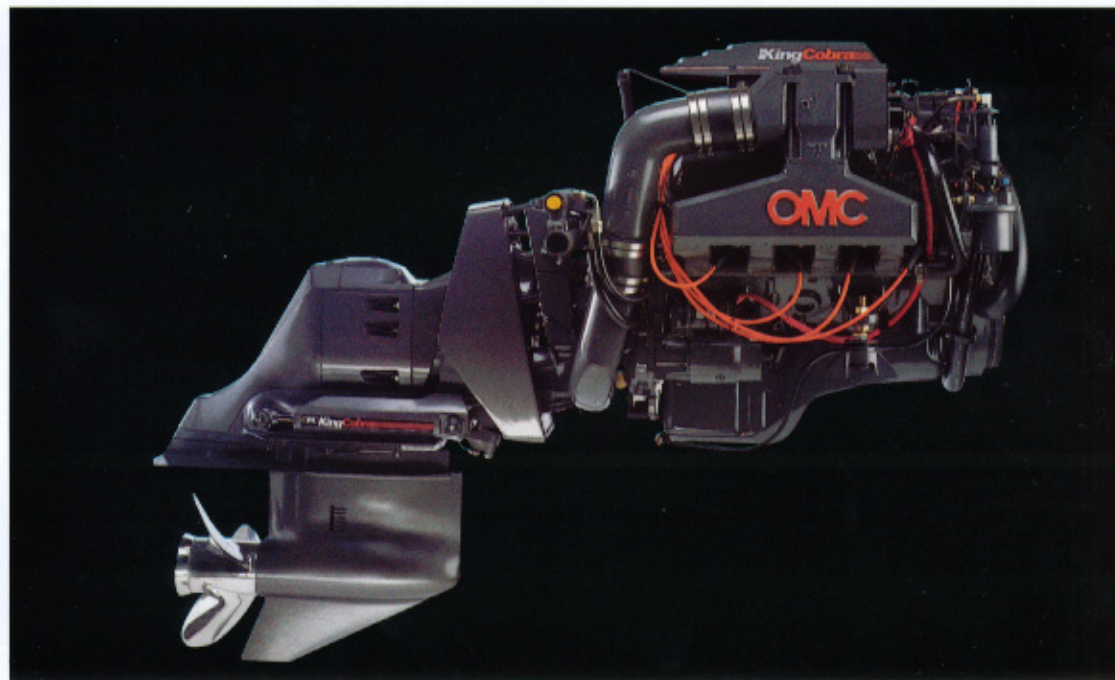

OMC engine controls provide smooth, positive shifting over the full speed range and shift arc. Throttle includes thumb-actuated power trim and tilt.

OMC Spitfire™ Electronic Engine Management System is designed to protect the engine and optimize power and fuel economy by adjusting spark pattern to match octane level.

OMC King Cobra® Power Delivery System features proven cone-clutch design and a new gear case with improved hydrodynamics for better top-end performance.

THE VALUE OF FOUR WINNS.

Because each Four Winns model is designed-matched to specific OMC power variations, hulls are engineered to meet specific performance parameters, and the distribution of interior space is defined to provide maximum value to the customer in terms of utility, convenience and comfort.

Designed-matched power also makes it possible for Four Winns to lead the industry in the

development of water-ready boat/motor/trailer packages. Each Four Winns boat is systems-checked in a test pool as it comes off the production line. Engine, outdrives and all on-board systems are run. Hatches, seams, windshields and canvas are "storm tested." Fuel and waterline systems pressure checked. Electrical, instrumentation and sound systems certified operational. Then each boat is cleaned, inspected and shrink-wrapped for shipment to a Four Winns dealer and an eager customer.

New Johnson® Spitfire™ and Evinrude® Silverstar™ 150-hp loop-charged outboards provide smoother idle and improved acceleration in a significantly smaller package than competitive outboards with similar power ratings. Cylinder block, exhaust passages and cooling jackets are integral to the block contributing integrity, strength, power and corrosion resistance. Maintenance is easier and faster. 21 degree trim range is 30% better than older units... provides improved acceleration and top speed in some installations.

Full Systems Check is performed on every Four Winns boat. Test pools are used to check engines, outdrives, engine controls and all on-board systems. Hatches, seams, windshields and canvas are checked for leaks.

Ergonomically designed helms, seating and berths are compared to a mannequin nicknamed "Oscar" who represents the physical characteristics of 95% of the adult population.

Four Winns manufactured Sure Load™ trailers are standard on all models 22 feet and under.

Power certification tests for each Four Winns model are conducted at our corporate test center on Lake Cadillac.

“GIVE YOUR FAMILY OUR BEST...”

This is the heartfelt credo of every member of Team Four Winns, especially those responsible for the design, engineering and quality assurance of new products. It's an attitude that has inspired the long list of “added value” features that helps distinguish Four Winns from other boats, and contributes greatly to the hassle-free enjoyment of the Four Winns boating family.

Self-storing Sunbrella canvas convertible top is UV-treated, fade-resistant, and custom-sewn. Jump seats may be raised to form a sundeck, or removed completely. Quick-access engine compartments (I/Os) are sound-insulated.

Four Winns patented, modular seat design features a premium, marine-grade UV-treated vinyl – stain, mildew, and fade-resistant with “memory” to help retain its shape. All seats provide lumbar support. Loungers in the down position feature a kick-up head rest on the bow facing end. New, more vibrant tri-tone vinyl trim and upholstery is warmer with less glare. Double welt stitching gives a finely tailored look.

Welded stainless steel bow rails provide a cleaner look and tight, rattle-free fit.

Slimline sidewall design adds inches of usable space to the cockpit. Sidewall storage compartments are roomy, convenient. Stern sidewall access is new for 1992.

Walk-through, wraparound windshields are tempered. Passenger side console features lockable glove box and integrated cooler with overboard drain. New molded and contoured passenger and IP consoles are more contemporary in design.

New 20 oz. polyolefin UV-stable, stain-resistant carpeting provides thicker nap.

New optional PVC grab handles provide cockpit peace of mind.

Hidden horn mounts in the white gelcoat of the deck

Stainless, deep-access starboard swim ladder for convenience of driver in retrieving swimmers, downed skiers.

Four Winns goes beyond the industry standards with a full width and depth 1 1/2" plywood transom.

In-floor fuel tanks are 100% pressure-tested and fully-accessible for maintenance or repair.

Four Winns construction quality includes hand lay-up woven fiberglass with coremat reinforcement at the bulkheads. Balsa core reinforces the decks on cuddy models.

Ergonomically-designed helm puts gauges and controls within easy sight and reach. Premium instruments are utilized.

100% glass encapsulated, interlocking five stringer system; advanced gunneling techniques; and closed cell foam flotation injected into the hull – not only prevent condensation below the waterline, but also make our boats stronger and quieter.

EXTENDING THE UTILITY AND ENJOYMENT OF YOUR FOUR WINNS BOAT...

All Four Winns boats are ready for the water the day they arrive at the Four Winns dealership. However, there are many applications that Four Winns boats

can fulfill depending on the boating lifestyle of the owner. That's why we offer a wide range of options and accessories, and specially-grouped option packages designed to contribute comfort and convenience, enhance the value, and add enjoyment while boating.

Wood backing at all through-the-hull-and-deck fastening points and through-bolting of stainless steel cleats and rails to metal backing plates provides greater durability and strength.

Bow anchor locker with molded anchor well provides quick, easy access and holds anchor securely in place when not in use. New lid is finished both sides and includes a new latch that causes less wear on gelcoat.

Trailer features: Smooth-winding nylon winch strap; all-welded steel construction; detachable tongue; recessed submersible lights; sealed wheel bearings; lightweight, high-strength swivel jack; leaf spring suspension; fender splash guards; retention chains; and protected wiring harness.

Premium Armorcote™ gelcoat resists chalking and fading. Looks better longer...buffs back to its original shine season after season.

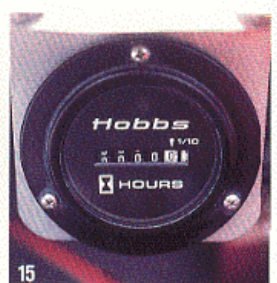

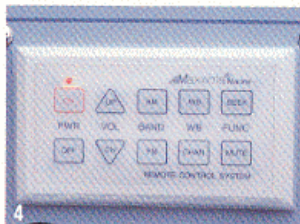

Four Winns manufactured color-coordinated, low silhouette, custom-bunk Sure Load™ trailers... single or tandem axle... are standard on models 22-feet and under and optional on models up to 26-feet.

Beverage holders are oversized to accommodate insulated can carriers.

Four Winns boats are certified as having met the stringent quality standards of the National Marine Manufacturers Association... which means in many cases they exceed U.S. Coast Guard requirements.

All Four Winns stern drive models are covered under the exclusive *Winning Edge*™ 5/3/1 Owner Protection Plan* which includes a 5-year hull limited warranty, 3-year (1-year limited warranty plus 2 years extended protection) on the OMC stern drive engine, power delivery system and engine controls, and a 1-year limited warranty on the boat systems and components.*

SLX PACKAGES:

SLX packages feature many of our most popular options – offering substantial savings over the cost of the individual options if ordered separately. The SLX package is available on Horizon, Candia, Sundowner and Vista – and is standard on Liberator models. For specific content of the SLX packages, see the chart below.

FISH & SKI PACKAGE:

Includes ski pylon, trolling motor and pedestal seat. Available on 180 Freedom open bow with outboard power.

VISTA LUXURY PACKAGE:

A new Luxury Package offered for 1992 includes popular options selected to enhance on-board living convenience on 235 and 265 Four Winns Vista models, offered at considerable savings over the cost of each option purchased separately. Package includes a compass, dockside power including switch and adaptor, microwave oven, refrigerator, shower curtain, snap-in cockpit carpeting, starboard windshield wiper, and water heater.

SS (SUN SPORT) PACKAGE:

Includes low profile rear sun-deck, passenger and helm molded adjustable swivel bucket seats, and full width contoured stern couch. Available on Freedom, Horizon, Candia and Sundowner. Standard on Liberator. Candia SS includes a full wraparound couch. 225/255 Sundowners include a split sundeck with walk-through transom.

1. Tilt steering wheel.
2. Fiberglass transom door with storage.
3. Trim tabs.
4. Stereo remote control.
5. Optional teak insert.
6. Compass.
7. Microwave oven.
8. Cockpit grab handle.
9. Fiberglass floor liner.
10. Premium stereo with weatherband and graphic equalizer.
11. Courtesy lights.
12. 12V DC receptacle.
13. Depth sounder.
14. Halon Fireboy.
15. Hour meter (I/Os).

IT'S ANOTHER BRIGHT YEAR AT FOUR WINNS...

The beauty and quality of Sunbrella® ... All Four Winns models except Freedom feature fade-resistant, UV-treated Sunbrella canvas to extend versatility, guard against the elements, and protect your investment.

Factory-sewn covers feature reinforced seams, Velcro® fasteners and large-tooth nylon zippers for

strength and convenience, and center poles to promote water run-off. Canvas tops and covers are custom-sewn to each Four Winns model for a secure and tailored fit.

Vibrant new gelcoat choices...rich new vinyls and carpets... Four bold and vibrant new gelcoat colors are offered this year: a warm new red, rich burgundy, stronger teal and brighter blue. They join popular navy as two-tone color availabilities with base white. Two-tone gelcoat is standard on Liberators and optional on other models. Premium

Armorcote™ gelcoat, formulated to resist chafe and fading, is standard.

New 20 oz. ultraviolet stable, stain-resistant pet offers thicker pile and a trackless appearance.

New expanded vinyl seat and trim covering built-in memory. It returns to its original shape without gathering or bunching, feels richer and more substantial, looks more leather-like. Vinyl colors complement the premium gelcoat and present a warmer, more vibrant cockpit environment.

YOUR FOUR WINNS DEALER...

...the most important standard feature we offer.

Of all the members of Team Four Winns who have helped us become one of the world's leading powerboat builders, no one has contributed more than the Four Winns Professional Marine Retailers.

They're the valued partners we look to for guidance in developing the inventive features and the creative new models that will fire the imagination of today's family boaters.

We make it hard to become a Four Winns dealer because, frankly, we want you to be happy with your Four Winns boat...so happy that your next boat will also be a Four Winns...so happy that you tell all your boating friends, prompting them to

FOUR WINNS WIDE-BODY CRUISERS.

Four Winns also offers a complete line of graceful and elegant wide-body express cruisers from 28- to 36-feet. All are designed for maximum livability. Cabins are remarkably spacious. Furnishings are comfortable and exquisitely tailored. Fixtures and hardware are designed with simple elegance. Ergonomically fashioned galley and head modules are conspicuous for their judicious use of space. Life aboard a family cruiser no longer has to be a compromise. Ask your Four Winns dealer for the Four Winns Cruiser Portfolio.

QUEST BY FOUR WINNS.

In our quest for fishing excellence, we believe we have advanced the technology of the sport. Fishing specialists and enthusiasts who engineer and build Quest by Four Winns advanced fishing instruments have equipped them with an uncommon level of fishing specific features. Yet they are as livable as they are fishable, with roomy, deep and wide cockpits, a stable, well-mannered ride and generous dry storage. Write or call us for a copy of the Quest by Four Winns Portfolio and the location of your nearest dealer.
