

FOUR WINNS

1987

WINNERS EDGE 3-YEAR OWNER PROTECTION PLAN

Best in Boating: No other boat builder can match the Four Winns Winners Edge 3-Year Owner Protection Plan*. A comprehensive one year limited warranty plus two additional years of extended protection covering hull and deck structural...engine and outdrives...engine controls...electrical system...fuel system...steering system...power trim system...and all major Four Winns boat systems and components...all at no extra cost.

In each of the last four years, a Four Winns boat has been honored by Powerboat Magazine. In 1986, our 170 Horizon was distinguished as "Best Value under \$15,000."

1. Four Winns is among the top five builders in the world of fiberglass powerboats 16' to 26'.
2. Manufacturing Sportboats at our modern Athens, Texas plant.
3. Product innovations are "hatched" in our engineering center.
4. The new look of Four Winns.
5. New color/fabric materials.
6. Four Winns has 130 Dealers nationwide to serve you.

Ask your Four Winns Dealer for full warranty details, or write:
 Four Winns Boats
 925 Frisbie Street
 Cadillac, MI 49601

Good Enough Isn't.

Let's say you were to drop in on Four Winns unannounced. Say at our modern manufacturing center in Athens, Texas. Maybe at our testing and technical center on the waters of Lake Cadillac. Perhaps at our Cruiser Division, or at our main manufacturing complex and corporate offices in Cadillac, Michigan. Or at one of our 130 highly professional franchised Four Winns Dealers nationwide.

You'd find something most reassuring — thousands of people marching to the same drum beat... "Good Enough Isn't Good Enough Anymore." It's a corporate philosophy that's constantly visible and relentlessly applied to help us build ever better sportboats, deckboats, cuddys, cruisers and performance boats.

Our commitment to accept nothing short of excellence has helped us develop a showcase of value-added features like:

- Hand lay up waven/roving fiberglass construction.
- Smooth riding, fast planing deep-vee, or step pod hulls providing generous freeboard.
- Fiberglass-encapsulated five stringer foundation.
- Rigid cell foam flotation below the floor.
- An accessible in-floor aluminum fuel cell on most models.
- A strong, lightweight balsa core reinforced deck on closed bow models.
- Wood backing at all through-hull and -deck fastening points.
- Fiberglass-encapsulated full-width and -depth one-piece wood transom.

These are some of the features that help make Four Winns boats tough enough to exceed the tough requirements for certification

by the National Marine Manufacturers Association. And tough enough to let us provide an exclusive "Winner's Edge 3-year Owner Protection Plan"™ covering major boat systems and components... the best in boating!... at no extra cost.

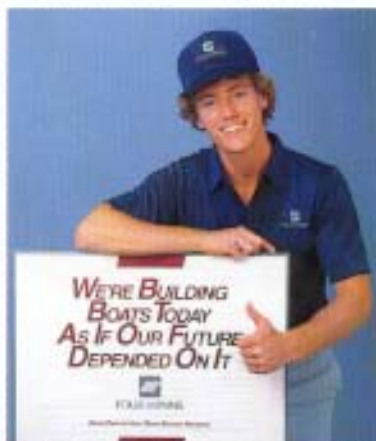

Anyone who deals with Four Winns on a regular basis — including our major suppliers — has been exposed to our "Good Enough Isn't Good Enough Anymore" philosophy mandating continual improvement.

It's a remarkable commitment when you consider the phenomenal recent growth of Four Winns. Though we've been manufacturing fiberglass powerboats for nearly a quarter of a century, as recently as four years ago we were just one of the hundreds of good regional boat builders in America. Since then, we've "leap frogged" dozens

of the most familiar names in the industry to land among the top five powerboat producers in the world. In that time, sales have increased more than 300%. We are the second largest installer of the world's most popular stern drive... MerCruiser.

Some might say we'd be smart to leave good enough alone. But we know that good enough will never be good enough. So the way we design and engineer boats... the way we manufacture them, equip them, test them, market them... the way we train our workforce... the way we select dealers to represent Four Winns to boat buyers will be ever changing, ever improving.

We're building boats as if our future depended on it. We have to. Because the day we say a Four Winns boat is good enough might be the day you look for another boat.

FOUR WINNS

GREAT SHAPES IN SPORTBOATING

Specifications:

LOA	21'
Beam	8'
Fuel Capacity	44 gal.

For a complete list of standard and optional equipment ask your Dealer for the 210 Horizon Features Flyer.

210 HORIZON

This is as good as sportboating gets. The 210 Horizon with its quick planing, agile, deep-vee hull, up to 260 horsepower, and a 44-gallon fuel tank can turn an afternoon cruise into an off shore adventure.

While capable of running with some of the hottest boats on the water, the true character of the 210 is more genteel and accommodating. There's generous seating on smartly tailored hinged bow seats with cavernous storage below. Standard bow fill-in cushions convert to a spacious sundeck.

An adjustable driver's seat lets the operator get at new tech-styled instrumentation,

Matching passenger console accesses a glove box and a 48-quart insulated cooler with overboard drain.

New coaming boards redefine the concept of sidewall storage. There's also teak covered ski storage under the carpeted floor.

Standard teak swim platform, ski pylon, AM/FM stereo cassette premium sound system plus all the value features Four Winns engineers into every boat, make the 210 Horizon an uncommon value. A standard Winner's Edge 3-Year Owner Protection Plan* makes it an unheard of value. You can pay more, but you can't buy more sportboat.

210 Horizon. Power options range all the way up to 260HP.

210 Horizon with full teak swim platform and stainless steel ski pylon

210 Horizon

Standard Seating

Brougham Seating

- 1 Insulated engine box features quick access engine hatch.
- 2 Wider jump seats can be mounted flush with engine hatch to create a generous sundeck.
- 3 Back to back cockpit seats fold to lounges.
- 4 Horizon instrumentation with advanced-tech styling.

For a complete list of standard and optional equipment ask your Dealer for the 190 Horizon Feature Flyer.

190 HORIZON

Innovation sets the 190 Horizon apart from just about every other 19 footer in the sportboat class.

Intelligent innovations, like the new, wider, fiberglass, contoured swim platform with a stow-away ladder and hand holds molded into the edge.

Helpful innovations like the amazing new convenience engineered into the stern. The insulated engine box has a flip-up cover for quick engine checks, accessible without moving the jump seats. Of course, the wider jump seats still convert to a smart sundeck when positioned flush with the engine cover. And

a new storage compartment completely conceals the convertible top.

There are also thoughtful innovations, such as new larger drink holders... or the smart, breathable dura-web material that covers many exposed areas... or a dash-mounted optional AM/FM stereo cassette premium sound system enclosed in a weatherproof box with flip up lid.

And there are important innovations like the Winner's Edge 3-Year Owner Protection Plan[®] that's included on every Four Winns boat at no extra cost. It's the best protection plan in boating!

190 Horizon I/O (Max. 260HP)

190 Horizon OB (Max. 185HP)

190 Horizon

Standard Seating

Boughton Seating

- 1 Standard one-piece contoured fiberglass swim platform has molded hand holds and a stow-away ladder.
- 2 SLX option includes the SL package plus a tri-tone gelcoat hull, color matching canvas and more.
- 3 Teak swim platform with stow-away ladder, stainless steel ski pylon and AMFM stereo cassette make up the SL option.
- 4 Large in-floor ski storage compartment sports a handsome teak lid.

170 HORIZON

Over the past four years, Four Winns boats have been consistent winners in *Powerboat* magazine's annual boating industry awards program. The glimmering 170 Horizon is the latest Four Winns media star.

It took top honors over other big names in boating in *Powerboat's* 1986 "Best Value Under \$15,000" category. That's impressive!

For 1987 the 170 Horizon is a more impressive value than ever. A new tri-tone interior offers improved fit and trim over last year's very acceptable levels. A new concept full fiberglass swim platform is standard. There's also new instrumentation...repositioned en-

gine controls...larger drink holders...wider jump seats...a new easy access engine hatch...and bold new gelcoat colors and graphics.

Like all Four Winns boats, the 170 Horizon is covered by boating's best extended protection program, the exclusive Winner's Edge 3-Year Owner Protection Plan.*

All of the above is in addition to the traditional Four Winns quality, style and appointments that have helped make the 170 Horizon one of America's favorite family runabouts.

170 Horizon OB (Max. 120HP)

170 Horizon I/O (Max. 230HP)

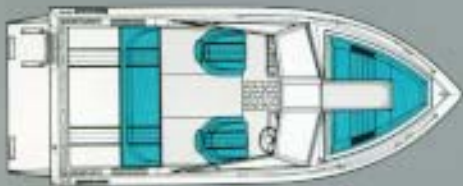

170 Horizon

Standard Seating

Roughneck Seating

For a complete list of standard and optional equipment ask your Dealer for the Freedom Feature Flyer.

FREEDOM

Since its introduction in 1985, the sprightly Freedom has induced thousands of first time buyers to get off the fence and into powerboating.

On the one hand, it's a perfect entry level boat... smartly styled, easily trailerable with smaller vehicles, full featured, and sporting one of the lowest list prices in the country.

On the other hand, it's a runabout that seasoned boaters can appreciate... packed from floor to gunnels, bow to stern with popular standard features like a white/navy two-tone gelcoat hull... fully carpeted tri-tone interior... canvas convertible top... AM/FM

stereo cassette... ski eye... half teak swim platform... insulated cooler... and in floor ski storage.

Freedom's responsive, quick-planting deep-vee hull is propelled by an eager 130 hp I/O with power trim and tilt... up 10 horsepower from last year!

Clearly, the Four Winns Freedom is a one-of-a-class powerboat, loaded with features you'd expect to find on "pricy" bigger boats.

Trailerable Freedom is also available in OB configuration.

Freedom is moved by a lively 130HP... up 10HP from last year!

160 Freedom

Standard Seating

- 1 Freedom boasts its own distinctive instrumentation.
- 2 Generous cooler is concealed under bow seat.
- 3 Freedom jump seats convert to sundeck. Cockpit seats recline.
- 4 Matching passenger console has large glovebox and AM/FM stereo cassette.

200 Candia

Boatman Seating

- 1 200 Candia with convertible top.
- 2 Even with a full complement of passengers the 200 Candia has enough muscle to tow multiple skiers.
- 3 Insulated 48-quart cooler in the passenger console.
- 4 Instrumentation has smart advanced-tech look. Engine controls are conveniently positioned.
- 5 With optional fill-in cushions, the bow becomes a sundeck.

200 CANDIA

Our inland lakes are in for a beautiful and exciting change of scenery in 1987. Four Winns is proud to introduce the completely new 200 Candia... a fresh value- and feature-packed interpretation of one of America's favorite boat styles.

If the design fires your imagination... the performance should quicken your pulse perceptibly. The 200 Candia at its 260 maximum horsepower would stun a lot of so-called performance boats out of the hole, and blow them off the water top end.

But before hot boat designers go scurrying back to their boards, we should mention that

performance is just one of the 200 Candia's many strong suits. There's seating for 13 adults in its elegantly appointed interior. Storage capacity is phenomenal in the bow, stern, sidewall, and teak covered floor locker.

Add in popular standard features like an integrated full swim platform, an operator's console with advanced tech instrumentation and matching passenger console, plus the exclusive Four Winns Winner's Edge 3-Year Owner Protection Plan* and the 200 Candia looks like a solid candidate for "Most Impressive New Model of the Year." Are you listening *Powerboat Magazine*?

Brougham interior is standard. Tri-tone gelcoat hull is optional.

200 Candia can seat 13.

GREAT NEW SHAPE IN DECKBOATING

Specifications:

LOA	21' 7" (20' transom to bow)
Beam	8'
Fuel Capacity	27 gal.
Passengers	13
Max. HP: Single	130, 165, 175, 180 200, 205, 230, 260
Weight ¹	1805 lbs.

¹ without engine

Features & options

- Adjustable driver's seat
- Full instrumentation
- Integrated full fiberglass swim platform
- Standard Brougham interior: sun deck, bucket seats, aft lounge
- Cockpit courtesy lights

- 3 170 Candia instrumentation and optional AM/FM stereo cassette premium sound system.
- 4 Optional Brougham Interior includes molded bucket seats, contoured off couch, sundeck and passenger console.

170 CANDIA

GREAT SHAPE IN DECKBOATING

If you were just reading the feature list of the 170 Candia you could easily get the impression it was some builders concept boat rather than a production model. Few 17 footers are equipped to do so many things so well.

In I/O configuration it seats eight comfortably, stores incredible amounts of gear, skis like a slalom boat with optional ski pylon, and fishes like a bass boat with its minimal draft.

With available fill-in cushions the bow area converts to a generous sundeck. Jump seats in the stern also form a sundeck with the insulated engine box cover. An adjustable driver's bucket seat puts the operator in comfortable

proximity to full-instrumentation set in a smart high tech design panel.

There's new excitement in the 170 this year thanks to a brilliant selection of new exterior colors and graphics, impeccably tailored new interior patterns and fabrics, and, on I/O models, the availability of a sporty SLX option that includes a premium sound system, tri-tone gelcoat hull and color-matched convertible top, among other things.

And the whole beautiful package is covered by the exclusive Four Winns 3-Year Owner Protection Plan* ... the best in boating!

For a complete list of standard and optional equipment ask your Dealer for the 235 Sundowner Feature Flyer.

235 SUNDOWNER

For family cruising, Four Winns provides the distinctive Sundowner series with four models to let you select a comfortable cuddy cabin boat that's the right size. Our biggest Sundowner, the 235, gets you off to a great start with a big beamy eight and a half foot wide, deep-vee hull designed for big water cruising, yet it's eminently trailerable behind full-size cars and light utility vehicles.

Generous freeboard and an intelligent layout provide uncommon space. A 100 gallon fuel cell permits true overnight range, while reliable stern drive power options up to twin 260s gives the assurance you like when ven-

turing out on big water. All the living amenities are at hand, too... a roomy cabin, galley and ice box, removable dinette, vee-berth sleeping, an enclosed portable head, and cavernous hidden storage.

For more versatility add an SLX package with a premium sound system, a tri-tone gel-coat hull, color matched canvas and other good things, or a sport package including fiberglass liner, operator's bucket seat and an insulated fishwell.

All Sundowners are covered by the exclusive Four Winns Winner's Edge 3-Year Owner Protection Plan.*

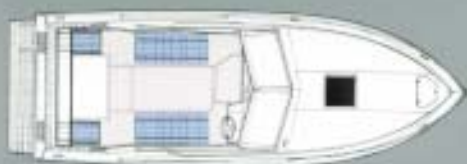

The full teak swim platform is standard...

The tri-tone gelcoat hull is optional.

235 Sundowner

Standard Seating

Sport Seating

- 1 Impressive helm features full instrumentation and a stainless wheel.
- 2 Anchor locker with integrated lid is standard.
- 3 The BW beam provides a roomy cabin.
- 4 Stainless steel bow rails are welded.

For a complete list of standard and optional equipment ask your Dealer for the 225 Sundowner Feature Page

225 SUNDOWNER

The Four Winns 225 Sundowner is virtually an all new cuddly model for 1987. The sleek new deck has a small cruiser appearance in silhouette while allowing improved head-room in the cabin.

The cabin itself has been totally reworked, making it easier for plus six footers to stretch out in the vee berths. Cabin doors and windows are new, and savvy designing created space for an enclosed portable head.

The smart sloping fiberglass deck also features a cabin hatch, a large non-slip surface, and an integrated anchor storage locker with

overboard drain. The deck is set off beautifully by a new two piece curved glass windshield. New coaming boards in the 225 cockpit redefine the concept of sidewall storage, while the stern area has been redesigned to provide easier access to the engine compartment, wider jump seats, and completely concealed convertible top storage.

Other things to appreciate: New advanced tech-styled instrumentation... exciting new colors and graphics... and the exclusive Four Winns Winner's Edge 3-Year Owner Protection Plan.*

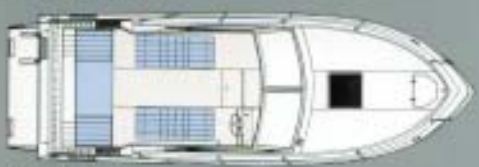

Color coordinated canvas and tri-tone hull are part of the optional SLX package.

225 Sundowner SLX (max. 260HP)

225 Sundowner

Standard Seating

Sport Seating

- 1 New instrumentation puts gauges, switches and controls within easy reach of hand and eye.
- 2 Breathable dura-web material dresses up the back of jump seats and other exposed areas.
- 3 Redesigned cabin provides more headroom, more stretch out room, and an enclosed head.
- 4 Convertible top bows attach to windshield frame.

For a complete list of standard and optional equipment ask your Dealer for the 215 Sundowner Feature Flyer.

215 SUNDOWNER

For many boaters the 215 Sundowner cuddy is ideally sized to be at home on inland lakes or coastal waterways. And like all Four Winns boats, it's designed to withstand the rigors of a lifetime on water.

For nearly a quarter of a century we've been building boats as if our future depended on it, utilizing hand lay up woven roving fiberglass to produce a lightweight, deep-vee hull with generous freeboard.

The foundation is a fiberglass encapsulated solid wood five stringer floor system. Rigid cell foam flotation fills all floor cavities. The deck is reinforced with strong, lightweight

balsa core, laminated in fiberglass. Where stainless steel screws pass through the hull and deck they're cinched to solid wood backing. Transoms are fiberglass encapsulated full width and depth marine grade plywood with an extra wood insert where the motor and stern drive unit are joined.

Judged against the standards of many other boat manufacturers, some would say Four Winns boats are overbuilt. But then other manufacturers don't back their boats with the Winner's Edge 3-Year Owner Protection Plan* ... boating's best extended coverage program.

Power choices range to 260-HP

215 Sundowner with new standard fiberglass swim platform.

195 SUNDOWNER

Welcome to our most affordable cuddly model, the 195 Sundowner... a logical move up for boaters who need a little more practicality than open bow runabouts can provide.

The new deck line of the 195 gives it a stylish small cruiser look in silhouette, while inside the cabin there's more headroom and honest vee-berth stretch out space for a plus six footer. There's cavernous space under the berths to store boating and travel gear out of the weather and out of sight behind lockable teak cabin doors.

The 195 is a beautiful compromise between sportboat and family cruiser. The fast planing,

easy handling deep-vee hull propelled by up to a 260 hp I/O compares favorably in performance with many dedicated ski boats and mini performance runabouts.

Innovations abound in the 195 Sundowner for 1987... like the new wider contoured fiberglass swim platform with stowaway ladder and hand-holds molded into the edge. Or the new coaming board design that redefines the concept of sidewall storage. Or the Winner's Edge 3-Year Owner Protection Plan*... boating's best extended protection program at no extra cost.

Sits like a runabout.

Accommodates the family like a cruiser.

195 Sundowner

Standard Seating

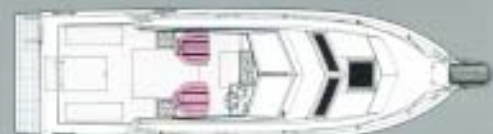

Sport Seating

- 1 Jump seats raise flush with insulated engine housing cover to form a generous sundeck.
- 2 Optional AM/FM stereo cassette premium sound system is enclosed in a box with a flip up lid.
- 3 195 Sundowner O8 (Max hp: 185) 25" transom height
- 4 Full instrumentation includes tachometer. (I/O)

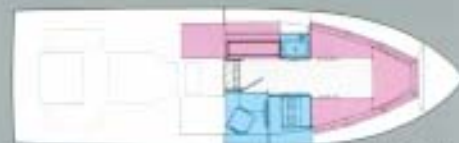

267 Quest

267 Cockpit

267 Cabin

- 1 Cabin includes full galley, enclosed head, dinette table, vee berths.
- 2 Full fiberglass cockpit liner features wash down system.
- 3 Bucket seat platforms include large teak-laded fishwells.
- 4 Quest instrumentation and stainless steel wheel.

267 QUEST

Yes, Four Winns builds a boat for serious fishermen. We call it, aptly, the 267 Quest and all of the important special features are standard or available. The first thing that will impress you is the stern... wide, flat, clean and deep. A 260 hp engine and long-range 100 gallon fuel cell are concealed in under floor compartments. The full cockpit fiberglass liner has a built in washdown system.

Wide, sturdy teak stem rails are ready to accept downriggers. Multiple fishwells can store most any day's catch. There's also a baitwell and ice chest in the floor, and teak rod storage in the sidewalls.

There's space on the dash above the new instrumentation to mount an optional compass, or special fishing electronics.

Some sport fishing cruisers skimp on cabin amenities. Not the 267 Quest. There's a full galley with alcohol stove, ice box, sink and well planned storage. An enclosed portable head is included. Fill-in cushions and side window and vee-berth curtains divide the bow into private sleeping compartments. And the living space is elegantly appointed with thick carpeting, soft fabrics, and appealing patterns that are carefully color-coordinated.

Standard bow pulpit reached by non-slip deck and welded stainless steel rails.

Teak swim platform and large aft rails are standard.

AFFORDABLE FAMILY CRUISING

Specifications:

LOA	26'

245 Vista

245 Cockpit

245 Cabin

- 1 Large galley and roomy vee berth are elegantly appointed.
- 2 Enclosed head has shower sink/vanity as well.
- 3 Full width aft cabin with screened window makes a comfortable double berth.
- 4 L shaped passenger seating and optional fold-away stern seat.

245 VISTA

AFFORDABLE FAMILY CRUISING

We named our stylish mid-size family cruiser the 245 Vista because it strongly suggested the craft's inherent long-range cruising capabilities. A tour of the 245's expansive cabin provides another perspective on the term "Vista".

Inside the wide entryway, teak steps lead to a complete galley with generous cupboard space and work counter. There's an enclosed head with shower, sink and vanity, and an integrated hanging locker. A removable dinette table can seat four. Or, with one bow fill-in cushion in place, two can be seated, while a third crew member rests in

the comfortable vee berth. Vista's broad 8½' beam allows a full-width aft cabin with privacy curtains. Living spaces are elegantly appointed with liberal teak accents, a mirror, indirect lighting, soft fabrics, pleasing colors and subtle patterns.

Exterior and cockpit features are designed to fill everyone's "most wanted" list... extra wide teak swim platform with stow-away ladder... convenient teak transom entryway... adjustable driver bucket seat... impressive helm... comfortable "L" shaped lounge... amazing sidewall and underfloor storage... exciting new colors and graphics.

Specifications:

261 LIBERATOR

This is the Four Winns wish boat... the one you see effortlessly flattening chop on your local waters... the one that turns your head as it sits poised in a slip at the marina... the one that grabs your ears with the throaty tumble of its thru-transom exhausts... the one that makes your pulse leap as you imagine yourself at the reins of Twin 350 cubic inch or Twin 454 cubic inch magnums... the one you wish was yours.

This is the 261 Liberator and its essence is performance. There's a lot more that we could say about it, but we don't want to interrupt a beautiful wish. Besides, we'd only be repeating what your Four Winns dealer is eager to tell you.

The Brougham interior, teak swim platform and stainless steel ski pylon are standard.

Twin Magnum V8's and through transom exhaust identify the 261 Liberator.

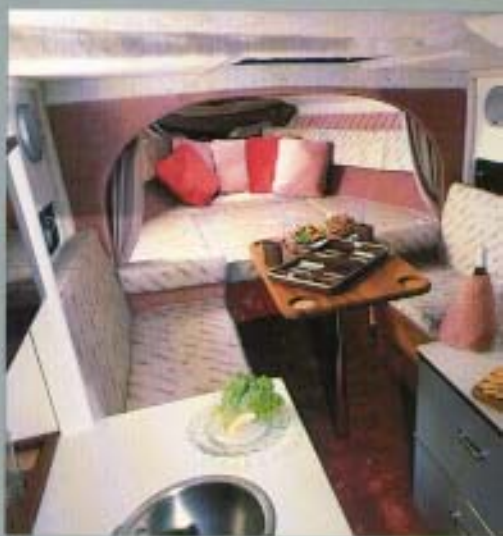

261 Liberator

Standard Seating

- 1 Everything you need to manage and monitor the twin Magnums is at your fingertips.
- 2 Hydraulic assist engine hatch with mirror.
- 3 The 261 cabin creates a mood all its own.
- 4 261 Liberator with color matched cockpit cover.

241 LIBERATOR

Mention performance to a Four Winns dealer and watch him beam. He's got the Liberators in his stable... a series of performance boats born to run.

Take the 241 Liberator, for example. It derives its power from an awesome MerCruiser Magnum V8 translated at the water by a silky Alpha One stern drive with a stainless steel prop.

You can order the 241 in single or twin engine configuration. Either way, the throaty thru-transom exhaust is standard. And so are a lot of other goodies that are extra cost on some other performance boats... like an AM/FM stereo cassette premium sound system

with electric antenna and four speakers. There's a full teak swim platform and stainless steel ski pylon... chrome vents and cockpit courtesy lights, and a striking tri-tone gelcoat hull with color-matched canvas top and cockpit cover.

Like all Liberators, the 241 provides an astonishing amount of storage space and a roomy, easily accessible, elegantly appointed cabin... proving that practicality and high performance can coexist.

It quickens the pulse even when it's standing still.

Magnum 350 or 454 V8... your choice

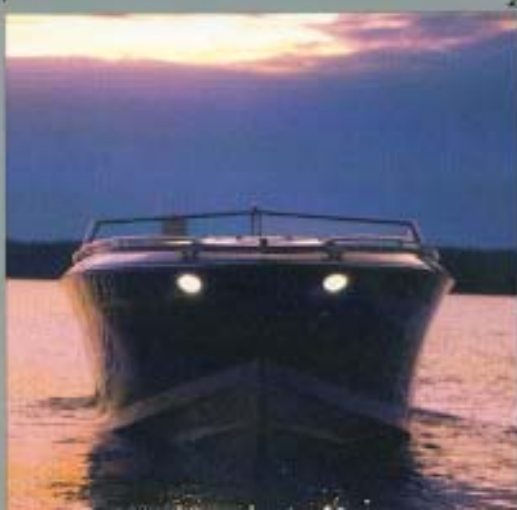

241 Liberator

Brougham Seating

- 1 The command center.
- 2 Docking lights are optional.
- 3 Generous cabin offers all the amenities.
- 4 Stainless steel ski pylon is standard.

For a complete list of standard and optional equipment ask your Dealer for the 211 Liberator Feature Flyer

211 LIBERATOR

Awesome best describes the Four Winns 211 Liberator...21 feet of deep-vee sophistication wedded to a muscular 350 or 454 Magnum V8. A stainless prop on the outdrive lets the 211 leap out of the hole and the sweet rumble of the thru-transom exhaust tells everyone the Liberator is loose.

But while its essence is performance, the 211 is engineered to be so much more. A tri-tone gelcoat hull is standard with color-matching canvas top and cockpit cover. There's a stainless steel ski pylon and full teak swim platform. Storage capacity is unbelievable for a performance boat...in the

sidewalls behind newly styled coaming boards...beneath the bow seats, in the roomy, easily accessible, well appointed cabin.

The amenities are there in abundance as well. An AM/FM stereo cassette premium sound system with four speakers and an electric antenna is standard. So is the handsome Brougham interior that includes a generous sundeck, contoured aft lounge and molded bucket seats. The 211 Liberator...sterling performance...stunning lines and astonishing value. It's enough to scare the pachangas out of you.

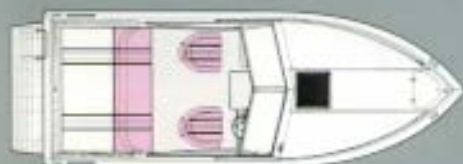

The sunset is standard. Docking lights are optional.

211 Liberator with standard tri-tone hull.

211 Liberator

Standard Seating

- 1 Hydraulically assisted engine hatch with mirror
- 2 Standard 350 magnum
- 3 Distinctive 211 instrumentation and stainless steel sport wheel
- 4 Full teak swim platform, stainless steel ski pylon and cockpit cover is standard on all Liberators.

We're building boats today as if our future depended on it.

As the builder of some of America's most popular powerboats, you might think we had success down to a formula.

Our Liberator models have established new credibility in their class — that value and practicality can coexist with high performance.

In each of the last three years, a Four Winns model has been named "Best Value" in its class by *Powerboat* magazine.

Our sprightly Freedom entry level boat is the most successful new model we've ever brought to market.

In the last four years, Four Winns has increased sales by more than 300%... a performance good enough to rank us in the top five among American boat builders. Today, we're one of the largest users of the world's most popular stern drive... MerCruiser.

By the record, you'd think we'd be satisfied operating under the axiom, "if it isn't broken, don't fix it."

An important note about the information in this catalog...

Every effort has been made to insure that this catalog includes complete and accurate information. However, since the time of printing, some information may have been revised. Also, some of the equipment shown on Four Winns boats within

However, as good as we are today, we don't think it's good enough for the future. We want Four Winns to be the most respected name in boat building. To make it happen, we're saying "good enough isn't good enough anymore." And we're applying it to everything we do.

To the way we build the boats we market today.

To the selection process for new models to carry the Four Winns banner.

To the respect that we show for our employees and our communities.

To the quality of our dealers and the programs we provide for them.

To the support we provide our owners after the sale.
